LVT Glued Down
HV.CW.ATR.0748.GLUE

The Chimewood Collection is our signature luxury vinyl tile flooring that features authentic design, natural color, and realistic texture that recreates the beauty of real hardwood.

The collection is Floorscore certified for low VOC providing an environmentally friendly option for flooring applications both commercial and residential.

The collection (except Glued Down LVT) features a Unilin hinge to ensure a seamless water proof installation.

The UV Coating (UV Surface Protection) Layer strengthens abrasion and scratch resistance of the floor surface; uniforms the gloss level; strengthens the function of the waterproof and resistance to dirt; and protects colour from light.

The 0.5 mm Wear Layer ensures abrasion strength, increasing product life of use.

*****SOLD per BOX only*****

All items shown in this document are part of Olympia’s stocking program. For special orders, please contact your Olympia Tile Sales Representative.

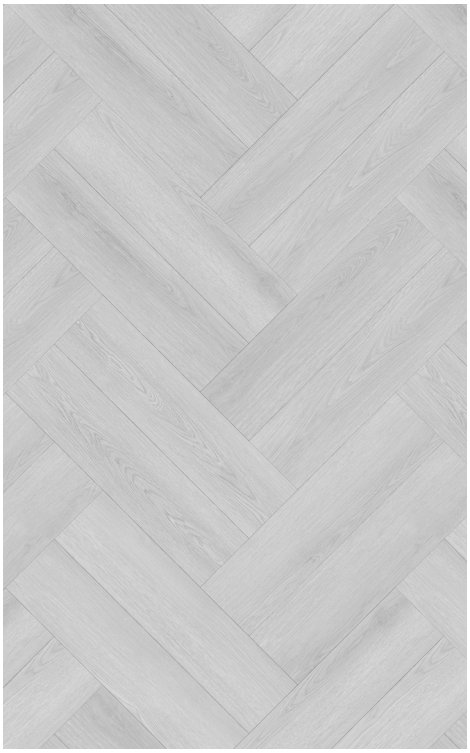

CHIMEWOOD Series - SPC/Vinyl (Matte Finish)

BONE

Recommended FLEXTILE Installation Systems

For other suitable options & complete installation details, visit www.flextile.net

SURFACE PREPARATION (If Required)

- Minor floor surface repair, patching: Flextile Flextile-Patch
- Floor Levelling: 59 Flex Flo / 5900 Flex Flo Plus Self Levelling Underlayment

** For a complete listing of Flextile products and accessories including Sound Control and further setting options, please visit www.flextile.net*

Maintenace Guide for SPC Flooring

(The information below was provided by the manufacturer)

- Regularly sweep the floor to remove loose dirt or grit as these can cause fine scratches.
- For a thorough clean, a range of pH neutral cleaning products are available. Avoid the use of regular household cleaners and bleach-based detergents. These could make the floor slippery or cause discolouration.
- Always mop up spills as soon as possible, to reduce the risk of slipping and possible staining.
- Use entrance mats to protect against grit and moisture. Ensure they are of non-staining variety (not rubber-backed) to prevent any discolouration of the floor.
- Avoid sliding or dragging furniture or other objects across the floor - use floor protector pads to prevent scratching.
- Use large castor cups or other means to protect against indentation from heavy furniture.
- Maintain room temperature between 65-80°F* (18-27°C) for optimum performance.
- Do not subject this product to standing water. This this will present a slip hazard.
- Care must be taken when using underfloor heating to avoid damage to the floor caused by localised 'hot spots/ thermal blocks'. Care must also be taken in placing rugs, and items of furniture which do not allow hot air circulation.

ASTM standards require installation in range 65-80°F; elsewhere the temperature should be 18-27°C.

*** Where the flooring run exceeds 30 ft. (9 m) in width or length, an expansion joint should be used and repeated thereafter.*

Colour may vary slightly from images shown. It is highly recommended to view physical samples of tile prior to purchase. Note that shade variations between tiles is characteristic and adds to the inherent beauty of the product. Please visit a showroom near you or request a sample from your Olympia Tile Sales Representative.

It is Olympia Tile's policy to stock all items for sale. Should you require additional sizes, finishes or colours, Olympia has a Special Order Department to help find exactly what you are looking for. Please contact your Olympia Tile Sales Representative for more details. Note that minimum order quantities and longer lead times apply to all special order items.
