

LVT Molding Limited Lifetime Residential and Light Commercial Limited Warranty

Versatrim, LLC warrants the following products

- LVT Transitions
- VersaEdge (VE)
- Round Stair Nose (RSN)
- VersaEdge Tall (VEX)
- SlimTrim (SLT)
- SlimCap (SCAP)
- Moisture Proof End Cap (MREC)
- Moisture Proof Reducer (MRRD)
- Moisture Proof Reducer (MRTM)
- Moisture Proof Quarter Round (MRQR)

to the original purchaser against wear out for a period of

- Residential: Limited lifetime
- Light Commercial: 5 years

What is covered and for how long?

LVT Moldings are suitable for use in climate-controlled (35%-65% RH and 60°-85° F) indoor installations only! For light commercial installations (example: common areas in multi-unit dwellings and low-traffic retail shops) the product is warranted to be free from manufacturing defects for 5 years from the date of purchase. If a defect covered by this warranty is reported to Versatrim in writing within 5 years of purchase, Versatrim will supply new material of the same or similar grade sufficient to repair or replace the defective material.

Providing the material was installed and maintained properly and used as intended and recommended.

Wear out is defined as a complete removal of pattern and/or color from normal traffic and maintenance.

In the event wear out occurs within specified product warranty time frame of the date of purchase, Versatrim provide replacement materials only.

This warranty does not include the following:

1. Damage due to: stains, burns, cuts, gouges, scuffs, scratches, indentations, and other accidents or abuse;
2. Damage caused by vacuum cleaner beater bar, Floor cleaning machines, caster wheels, and cutting from sharp objects.
3. Discoloration or bond release from hydrostatic pressure or excessive moisture/heat caused by such things as flooding, plumbing, appliance leaks.
4. Installation where material was not installed according to Versatrim's specifications and recommended usage.
5. Dissatisfaction due to improper installation, maintenance or irregularities.
6. Reductions in gloss or buildup of residue due to improper maintenance or normal wear and gloss reduction/scratches from use.
7. Minor color, shade or texture variations between samples or printed color photography and the actual material.
8. Installation-related errors or damage including improper conditioning of jobsite and flooring materials, including construction damage after installation
9. Damage caused by abuse such as moving appliances or heavy objects across the moldings without adequate protection.

WE EXCLUDE AND WILL NOT BE LIABLE FOR OR PAY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES UNDER OUR WARRANTIES. By this we mean any loss, expense, or damage other than to the molding itself that may result from a defect in the flooring. Our limited warranties constitute the only express warranties for the product purchased.

- This limited product warranty does not cover the installation of the product.

DISCLAIMERS: Walking is an enormously complex activity. Significant factors that directly affect slip resistance properties are: the material type of both shoe sole and floor covering, roughness, and surface structure of floor covering, contaminates, the walker's weight, age, gait, fitness, alertness, and vision. Values of acceptable SCOF (dry) or DCOF (wet) generally used within the flooring industry are published by other parties. While Versatrim, LLC has independently tested our transitions, it does not purport to address any safety concerns of slip resistance, the accuracy of any test method, safety threshold, or the measuring apparatus (tribometers). Another important factor outside of our control is how the floor covering is maintained, therefore, no warranty for any slip resistance properties can be provided.

NOTE: Walking on any LVT/LVP in socks or similar is not recommended, especially on stairs.
