Structure

Grit	Aluminium oxide
Coating	close
Bonding	Resin
Backing	Vulcanized fibre
Production width	1.505 mm
Other	
Delivery form	Fibre disc (hole pattern: 10=round hole, 30=star shaped hole)

Application

Material	Metal in general, steel
Application	Grinding of welding seams, edge and surface grinding
Machines	Angle grinder

Market segment

Metal processing in industry and trade in general, rough grinding until finishing of steel and non-ferrous metal parts with an angle grinder

Product utility

Universal fibre disc with stock removal rate for the processing of steel and non-ferrous metals, for rough deburring and welding seams processing and for derusting and finishing. Available in all current dimensions and grit sizes directly from stock. Special cutting shapes (e.g. rosette form) are available on request as make to order items. Useable with appropriate backing pad ST 358 (flexible, for surface machining) or ST 358 A (hard/ribbed, for rough grinding work).
