PURPOSE

BETTER PROFESSIONALS, BETTER PLACES

Our “Better professionals. Better places” purpose explains our approach in the two key areas that improve the quality and performance of our industry: those people whose trade is visible to everybody so that it can be admired, along with the places transformed by their creativity. We want to change the future by being and creating better professionals and building better places in favour of a better world.

1. RUBI GROUP

MISSION

Our mission is to provide outstanding solutions for construction professionals, through the design, manufacture and distribution of tools and equipment which ensure maximum efficiency, cost-effectiveness and safety for optimal ceramic tile laying, thereby maintaining the identity of the Boada brothers as well as their corporate legacy so that we can all build a better future together.

VISION

Our vision is to be a leading company at global level in solutions for cutting and laying tiles as a result of technological innovation and proximity to the user, thus improving the quality of life of our customers, partners, shareholders and society.

THE BEST OPTION FOR EACH JOB SINCE 1951

Our history began in 1951, when brothers Joan and Antoni Boada i Sucarrats obtained the patent for their innovative tool for cutting hydraulic mosaic, glazed and ceramic tiles. Together, they produced 25 units in the garage of their house in Rubí, Catalonia. The new "RUBI mosaic and tile cutter" made its appearance at the first National Invention Exhibition in Barcelona, where it won the diploma of honour and gold medal.

The Boada brothers devoted themselves to developing and sharing their innovative technology with other professionals. In 1969, Mr Miquel Escayol i Vila joined them and the limited company Hermanos Boada S.A. was created.

Since then, the reputation of the company has spread throughout the world and the RUBI name has become synonymous with truly cutting-edge solutions that offer top craftsmen an unprecedented level of quality, efficiency and professionalism.

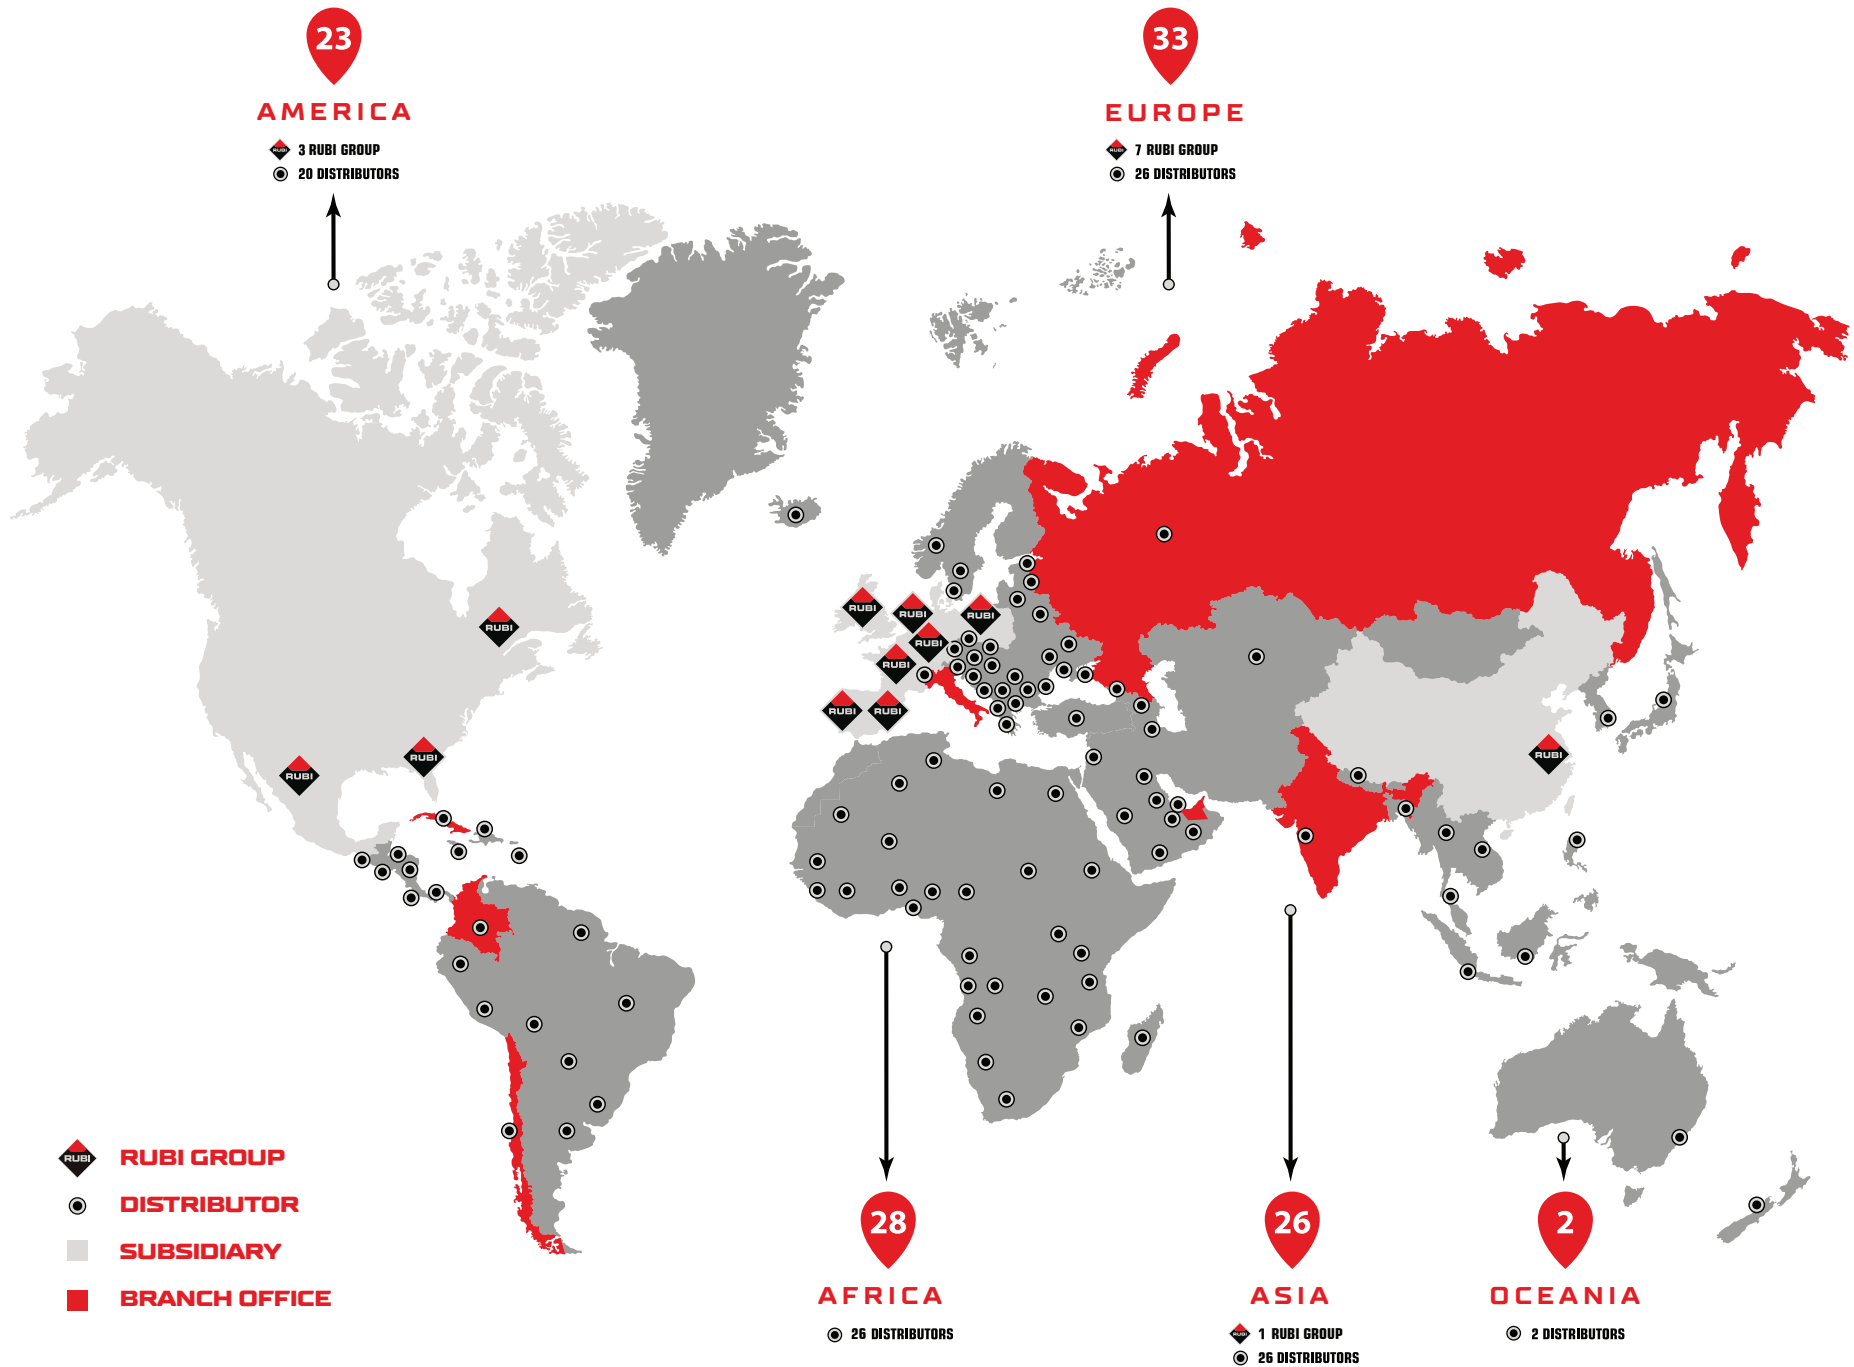

Thus, the RUBI Group specialises in the design, manufacture and distribution of machinery and tools for cutting, laying and maintaining tiles. Placing installers at the centre of our strategy means that innovation, high product quality and excellence are always present in our product range.

Currently, the RUBI brand is recognised by the most demanding construction and design professionals in more than 120 countries, thanks to our large international network of subsidiaries and branches.

The RUBI team works with the opportunities that new trends and technologies offer, as well as the advances relating to communication, safety and environmental responsibility, in order to lead in the construction sector, while staying faithful to our core values and devotion to providing solutions to the needs of tile installers around the world.

WE PROVIDE QUALITY AND INNOVATION TO THE WORLD

- ◆ +650 People in the RUBI Team
- ◆ 3 Production and logistics centres
- ◆ 11 International subsidiaries
- ◆ 1 Corporate museum
- ◆ 120 Countries with RUBI brand distribution
- ◆ +100 Official distributors

The RUBI Group has three production centres: Santa Oliva (Spain), Suzhou (China) and Miami (USA). They are all equipped with the latest production and logistics technology to ensure that we obtain high-quality products and a shipping service which minimises delivery times.

RUBI's 11 subsidiaries cover global demand and the training and after-sales service, together with our trusted distributors, so we are always close to the user and can offer them solutions adapted to the characteristics of each market.

CORPORATE MUSEUM

Since 1951, the RUBI team has been working to dignify the construction trades. For this reason, in 2003, together with the launch of RUBI's main production centre, we opened our "Construction Tools" corporate museum, which is also located in Santa Oliva, Tarragona. This original space shows everything from the evolution of tools in the sector to that of RUBI's own manual cutter, as well as taking a historical journey through the Group's more than 70 years of history.

The space is open to professionals and students who can, in an educational way, consider our historical collection of construction tools, which includes RUBI's own tools, a private collection of tools belonging to the Gaudí Foundation, the extensive showroom with the entire RUBI catalogue and an area with the 5 stages of the tiling process. An experimentation area is also provided for students who visit us, so they can test their skills in cutting and tile laying first-hand using the mosaic technique.

2. INNOVATION & QUALITY

The essence of the RUBI brand is "a job well done". The perfect synthesis of our commitment to the goal of contributing best practices and performance to tiling worldwide. The above statement can be clearly appreciated in everything we do, and in the way our customers can use the products that we manufacture to carry out their work with special attention to quality, creativity and attention to detail.

**A JOB
WELL DONE**

INNOVATION

We are constantly researching and developing new solutions based on the evolution of market and technology trends, our own experience and ongoing conversations with our partners and other professionals.

QUALITY

We only use materials of the highest quality and we work in compliance with strict design and manufacturing standards in order to offer tools with the performance levels that our users expect.

GUARANTEE

We strive to offer greater durability in our products and a peace of mind that comes from our long track record, also backed up by a customer support service and constant communication with the same global nature.

SOLUTIONS

Understanding and helping to shape our industry for generations has allowed us to create a wide range of tools that provide excellence and efficiency in the cutting and laying of tiles.

TECHNOLOGICAL LEADERSHIP

+1000 References in the catalogue.

+50 Patented products.

60% of RUBI products have been developed internally over the last 5 years.

**BETTER PROFESSIONALS,
BETTER PLACES.**

3. RUBI COMMITMENT

The RUBI Group works with a sustainable development model, which respects the environment and prioritises equal opportunities. Our Corporate Social Responsibility strategy covers the three sustainability areas: social, environmental and economic. For this reason, it is based on 8 of the 17 SDGs (Sustainable Development Goals 2015–2030) of the United Nations, which are also in-line with our corporate purpose.

“Environmental and sustainability policies should be the obligation of the RUBI Team. Only in a fairer, more equal and more sustainable world can we continue growing and working together with society and our environment.”

**Josep Munné
General Manager
at RUBI Group**

BETTER PROFESSIONALS, BETTER PLACES

We want to change the future by being and creating better professionals and building better places for a better world.

SUSTAINABLE DEVELOPMENT GOALS

4. RUBI GROUP

At Rubi we are a multidisciplinary team with great expertise and ongoing training.

The RUBI Team, made up of more than 650 professionals, works in the numerous subsidiaries and branches that the RUBI Group has at international level.

**OUR DAY-TO-DAY WORK
IS ALWAYS CARRIED
OUT ACCORDING TO THE
3 RUBI VALUES**

EXCELLENCE

Excellence defines us in all we do, thanks to our experience, flexibility and innovation. We strive each day to offer the best in our innovative products and our relationships with partners in the sector.

RESPECT

Respect is present in our DNA, our relationships within the RUBI Team and with customers, suppliers and other stakeholders, which allows us to create a close and dynamic environment.

PASSION

Passion is what drives us in our attitude to our work through commitment, optimism and determination. Our long history demonstrates a sustained enthusiasm over time – we love to inspire others.

RUBI ACADEMY

TRAINING

A FUNDAMENTAL
PILLAR OF RUBI'S
VALUE PROPOSITION

FOLLOW US ON OUR
YOUTUBE CHANNEL TO
SEE ALL THE TRAINING
VIDEOS

The main aim of the RUBI Academy is to empower tiling professionals so they can build better places through in-person or online training from our experts, always with the premise of offering very useful quality and cutting-edge knowledge for those interested in continuous learning.

Through guided and ongoing training, the RUBI Academy has positioned itself as a benchmark in the sector that is capable of hosting qualitative content for future professionals through Vocational Training programmes. This is a result of collaborative alliances with schools and institutes; specialising installers already active with any employment status, whether self-employed or employed; promoting the role of women within the tiling industry by providing support, guidance and the tools necessary for equality in the workplace; and to reactivate those who are unemployed by providing them with the skills and knowledge to rejoin the labour market.

Furthermore, the RUBI Academy has been designed as a cross-sector space where institutions linked to the tiling world converge, which allows for the creation of a synergy of efforts and talents with other actors in the industry. Adhesive, ceramics ranges, experts and departments linked to the sector find our school, located in Santa Oliva del Penedés, to be a suitable space for testing new products and new materials. This allows innovative tools to be developed that are capable of facilitating the delicate process of tile installation and, consequently, offering our stakeholders first-hand and up-to-date teaching materials so that, together and in step, we can complete the mission that we have undertaken: better professionals, better places.

RUBI

AFTER-SALES

Always with the intention of satisfying the highest expectations of our customers around the world, the RUBI after-sales department, together with the extensive network of official technical services, concentrates its efforts on supporting the brand in a timely and efficient manner in the management of incidents, queries and needs of our customers and users.

Thanks to this vision, we can offer shorter response times, while guaranteeing the promised performance in each of our tools and thus achieving an extended, long-lasting and satisfactory purchase experience as a response to the trust placed in us by each of our users.

To fulfil this promise to our customers, RUBI has the following contact methods:

INSTALLATION IN PHASES

RUBI offers solutions that provide excellence in each step of the tiling process in order to guarantee quality, efficiency and creativity from start to finish. This is the basis for a clear marking on our entire range of products, with each product clearly indicating the stage it is intended for:

This approach provides a clear visual solution for product displays that directs the customer to the product that is suitable for the work in question.

1. Preparation

This stage includes all the processes prior to the installation of ceramic tiles. Starting with the preparation and levelling of the substrates and the verification of the levels. Followed by the setting out and design of the joint pattern and finishing with the preparation and application of the ceramic adhesive.

2. Cutting and Drilling

Although, after the preparation of the adhesive, this logically takes us to the installation stage, RUBI has included the cutting and drilling phase in second place. The reason is very simple, if we take into account that the tile needs to be cut (or drilled), it cannot be installed until this step has been carried out.

All installations require tiles to be adapted and resized to the installation space and, whether it is to a greater or lesser extent, a ceramic tile will always have to be cut (or drilled).

3. Installation

In this stage, we mainly focus on bringing together all the necessary tools to ensure proper handling and installation of the tile, how to obtain the best results both in flatness and alignment in order to make the setting-out design a reality with maximum precision.

4. Grouting

As its name indicates, this stage includes all the tools necessary for the filling and definition of the tile joint, as well as the removal of excess material and a first cleaning stage.

5. Cleaning

As it must do, the last stage brings together everything that is necessary to deliver the perfect job. The final cleaning of any ceramic tile installation process will always make the first impression on any user. For this reason, it is as important as any of the previous stages.

The information corresponds to the largest model of each machine.

Maximum power, the most advanced manual cutter in the market.

For intensive cutting of all types of ceramic and porcelain tiles.

- 1 Powerful breaking system (up to 1.500 kg), operable with just one hand.
- 2 Accurate with soft slider movements.
- 3 Large cutting capacity, up to 21mm thickness. Ideal for large format tiles*.
- 4 Robust with a foldable structure for high strength and easy transportation.

- Excellent performance breaking system: Clean cuts with soft motion.
- Robust chassis, guides and breaking system.
- Swivel square with central pivot for fast and accurate measurements in angle cutting.
- Adjustable lateral stop for repetitive cuts.
- Support base for excellent tile placement.
- Easy to transport: rubber wheels with bearings and handle.
- Interchangeable scoring wheels ranging from Ø 8mm -22mm.
- Includes Ø 8 mm SILVER and Ø 22 mm EXTREME scoring wheels.
- Reinforced textile bag for transport and protection.
- On models 1300/1550:
 - The reinforced textile bag of these models includes 2 built-in wheels.

*Some materials with a thickness greater than 15 mm may be difficult to cut manually due to physical characteristics, internal tensions and/or finish. We recommend making sample cuts to determine product compatibility and alternatively suggest cutting these types of material using an electric tile cutter.

Professional manual cutter with high-performance multipoint breaker.

For professional cutting of all types of ceramic tile, ideal for porcelain stoneware and extruded stoneware.

* There are some materials over 15mm thick which, due to their physical properties, possible inner or surface tensions, are difficult to cut manually. It is recommended to make some sample cuts to determine the compatibility of the product.

- 1 Highly precise scoring.
- 2 Entire system highly efficient.
- 3 Reinforced components. Heavy duty.
- 4 High breaking power (1,200 kg) - MASTER POWER. One-handed operation.

- Head with extra-long aluminium sliders with "self-lubricating" friction bearings.
- Portable breaker with aluminium pressure pad, equipped with plastic protector to avoid marking delicate surfaces. Better visibility of the scoring and cutting zone.
- The pressure pad is locked by a ratchet mechanism and is unlocked by the trigger, allowing one-handed scoring and breaking for faster use. Increases performance with both thin and thick materials.
- Injected-aluminium base, reinforced with a central rib, for increased strength.
- Floating tables and supplementary arms for large-size ceramic tile, increases cutting stability.
- Rotating square, with central pivot point and lateral end stop. Greater precision in angle cuts.
- Handle with soft grip for better ergonomics and comfort.
- Equipped with Ø 8 mm SILVER and Ø 22 mm EXTREME scoring wheels. Compatible with the entire plus line of scoring wheels.
- Includes a carrying case (the 1250 model is equipped with wheels to transport the machine).

Single guide with multipoint separator and angular measurement.

Ideal for high quality cutting of ceramic and porcelain tiles.

- 1 Guide system highly resistant to impacts resulting in longer product life.
- 2 Ergonomic handle with incorporated separator for greater speed and ease of use.
- 3 Swivel bracket with central pivot for fast and accurate measurements.
- 4 Long-lasting laser engraved square.

- Reinforced pressure pad.
- 12 mm reinforced guide. Greater bending resistance and increased precision.
- Lateral end stop for making repetitive precision cuts.
- Two-layer base with shock-absorbing effect. Base extension for large sizes. Carrying handle. (TP-66-S and TP-75-S).
- Assembly designed to be used by pushing the handle.
- RUBIFLEX bi-material handle.
- Ø 22mm EXTREME scoring wheel included. (Ref. 01901)

*Some materials with a thickness greater than 15 mm may be difficult to cut manually due to physical characteristics, internal tensions and/or finish. We recommend making sample cuts to determine product compatibility and alternatively suggest cutting these types of material using an electric tile cutter.

Single guide cutter with multipoint separator and angular measurement.

Ideal for high quality cutting of ceramic and porcelain tiles.

- 1 Single guide system highly resistant to impacts. Longer life.
- 2 Separator set with height adjustment. Optimum separation for each thickness.
- 3 Swivel bracket with central pivot for fast and accurate measurement of angular cuts.
- 4 Long-lasting laser engraved square.

- Reinforced pressure pad. 12 mm reinforced guide. Greater bending resistance and increased precision.
- precision. Lateral end stop for making repetitive precision cuts. Two-layer base with shockabsorbing effect. Base extension for large sizes. Carrying handle. (TP-66-T and TP-75-T).
- Assembly designed to be used by pulling the handle.
- RUBIFLEX bi-material handle. Ergonomic and heavy duty construction.
- Cut thickness adjustment system with 3 settings (6-9 mm/9-12 mm/12-20 mm)*, fast and precise.
- Ø 22mm EXTREME scoring wheel included (Ref. 01901).

SMART
POWER

PROTECTED
DESIGN

1 Progressive breaking system "SMART POWER" adapts to different material hardness.

2 Wide base. Greater base surface for higher stability and cutting quality.

3 Reinforced components for heavy duty work. High durability.

4 Ergonomic handles. Maximum comfort.

- Bigger reinforced base for a higher comfort and better stability when cutting.
- Powerful single point breaker. Up to 800 kg breaking pressure.
- Double guide for direct view of scoring/cutting line.
- Chromed steel guides, rectified and calibrated, with anti-rust treatment.
- Lateral stop for repetitive straight and 45° cuts.
- Interchangeable scoring wheels ranging from Ø 6mm to 22 mm.
- Includes Ø 8mm ENDURE and Ø 10 mm SILVER scoring wheels and a transport case with reinforced locks and hinges.

RM ROUGH SURFACE SUCTION CUPS

3
Set

- Suction cups for handling tiles with rough and/or slightly structured surfaces.
- Injected polycarbonate body. Very light.
- Metal reinforcement in the lever base for greater tensile strength.
- Ergonomic polypropylene handle, for faster, safer handling.
- Natural rubber.
- Maximum load capacity: 25 kg.
- Suction cup diameter: 120 mm.

	REF			
RM ROUGH SURFACE SUCTION CUPS	66929	SUPERPRO	1	280

RM ROUGH SURFACE DOUBLE SUCTION CUP

3
Set

- Double suction cup for handling ceramic tiles with rough and/or slightly structured surfaces.
- Injected polycarbonate body. Very light. Metal reinforcement in the lever base for greater tensile strength. Body made of highly resistant aluminium. rubber. Maximum load capacity: 55 kg.
- Suction cup diameter: 120 mm.

SUCTION CUP WITH VACUUM PUMP

3
Set

- Suction cup for handling large and heavy tiles.
- Adapts to any surface finish.
- Suction applied by manual vacuum pump.
- Load loss indicator (red mark).
- Pressure-release mechanism.
- Maximum load capacity: 110kg.

SUCTION CUP WITH VACUUM PUMP	18919	PREMIUM	1	90

TILE BEATING BLOCK

3
Set

- For a good settlement of tiles.
- Waterproof and high wear resistance wood.
- Perfect flatness.
- Dimensions: 15 3/4" x 5 3/4" (40x14,5 cm).
- With white natural rubber sheet to prevent damage to the tile.

TILE BEATING BLOCK 40 X 14,5 CM. WITH RUBBER	72980	SUPERPRO	1

RUBI TRILLER

Compact manual vibrator.
Especially designed for vibrating large format tiles.

3
Set

- Compact manual vibrator especially designed for vibrating large format tiles.
- Expels the air trapped under the tile and maximises the adhesive coverage. (Do not use for a long period of time on the same tile to prevent the adhesive escaping.)
- Suitable for use on floor and wall tiles.
- Compact and light design weighing just 4.8 kg to facilitate work on walls.
- Floating carbon steel chassis with vibration reduction system for greater user comfort.
- Easy to change, non-marking contact plate.
- Easy to operate tool with ergonomic double grip.
- Non-adjustable vibration frequency.
- Folded 1.5 mm steel sheet chassis, powder painted in red.
- Vibration plate made of PUR plastic, non-marking and easy to change.

Cutting capabilities may vary depending on the head position, special plates and disc diameter. Ref. 52919 (3F): 4 CV/HP.

- 1 Motor assembly mounted on sliding bearings for maximum precision and reliability. Perfect finishes.
- 2 Equipped with ZERO DUST system. Tested and certified by TNO.
- 3 Aluminium structure. Lighter cutter with maximum resistance to working conditions.
- 4 High performance plunge effect. Maximum cutting height.

- Equipped with protective safety system for segmented blades.
- With thermal security switch.
- Water pump refrigeration of blade with flow control valve.
- Diamond blade Ø 14" (350 mm) not included.
- Allows the use of a Ø 12" (300 mm) blade.
- Adjustable mobile head with plunge effect capability.
- Retractable legs with "shield" function and wheels for easy transportation.
- Motor on top and belt transmission.
- With lateral stop for repetitive cuts.
- Aluminium working surface removable for easy cleaning.
- Removable water tank system.
- 2mW line laser.
- Circular level for easy field installation.
- Machine supplied without cable.
- Supplied with new ZERO DUST system already assembled. Also provided with a second anti-splash standard protector

Mobile head machine for high accuracy, ideal for mitre cuts.

DS-250 N

For wall tiles, floor tiles, porcelain tiles, marble, granite and other materials.

- 1 Motor assembly mounted on sliding bearings for maximum precision and reliability. Perfect finishes.
- 2 Equipped with ZERO DUST system. Tested and certified by TNO.
- 3 Wheels and handle included. Easy transport.
- 4 Aluminium structure. Lighter cutter with maximum resistance to working conditions.

- Removable aluminium tables for easy cleaning of the machine.
- With thermic security switch.
- Water pump refrigeration of blade with flow control valve.
- Diamond blade Ø10" (250mm) not included.
- With a double set of flanges, one especially designed for mitre cuts.
- Motor assembly mounted on sliding bearings for maximum accuracy mitre cuts.
- Safety protector for segmented blades.
- With lateral stop for repetitive cuts.
- Retractable legs with "shield" function and wheels for easy transportation.
- Removable water tank system.
- 2mW line laser.
- Spirit level for easy field installation.
- Machine supplied without cable.
- Supplied with new ZERO DUST system already assembled. Also provided with a second anti-splash standard protector

**Professional moving head machine
for wet cutting with plunge effect.**

DCX-250 XPERT

Suitable for intensive cutting of porcelain, stoneware and ceramic tile.
For occasional cutting of natural stone such as marble or granite.

PATENTED

1 Reinforced aluminium chassis with innovative triple beam system and steel sides. Improves the stability and rigidity of the chassis.

2 Reinforced cutting guide for a better cut finish.

3 New adjustable cooling system. Increases cooling efficiency and reduces water dispersion.

4 High performance plunge effect. Cutting height adjustment.

- Includes transport handle and off-road type reinforced wheels, which provide better transportability and handling of the machine.
- Steel double settling system for improved efficiency and water recovery.
- Angular measurement with aluminium square adjustable from 0° to 60° for repetitive cuts.
- Includes reinforced folding legs with folding-prevention system and quick lock.
- External and easy to remove water tank with 30 L capacity.
- Includes improved splash guard system with auto-sliding protective cover.
- Patented ZERO DUST system exclusive to RUBI certified by the TNO, for safe exposure thanks to the reduction of the breathable dust particles generated during the cut.
- Ergonomic bi-material handle for comfortable operation of the cutting head.
- Earth integrated into the chassis.
- Does not include power cable.
- Not Supplied with a blade.

DC-250 PYTHON

DC-250 PYTHON

For Wall tiles, floor tiles, porcelain tiles and other materials.

1 Motor assembly mounted on sliding bearings for maximum precision and reliability. Foldable at 45° for perfect mitre. Direct drive motor.

2 Steel plate structure. Sturdy and maximum resistance to working conditions.

3 Plunge effect allowing cutting height adjustment.

4 C³ Python cooling system. New adjustable refrigeration system. Allows to adjust the point of water's fall depending on the material's thickness, getting a direct impact of the water in the cutting point. This allows to increase the refrigeration's efficiency and to reduce water dispersion.

- Foldable legs with wheels for an easier transportation and removable tables for easy cleaning of the machine.
- Adjustable aluminium square (0° – 60°) with lateral stop for repetitive cuts at 0° and 45°.
- Safety protector for turbo and segmented blades.
- Blade cooling by water (50W water pump) with flow control.
- Includes diamond blade CEV-SUPERPRO Ø250 (*Ref. 56949 includes CPA- SUPERPRO Ø250 blade).
- Supplied without cable.
- Side labels redesign, to give a more modern outlook.

DV-200

For all types of ceramic and porcelain tiles and other materials.

- 1 Set motor on sliding bearings for maximum accuracy and cut quality.
- 2 C³ System, improves blade's cleaning and cooling for a higher performance.
- 3 Removable aluminum tables for easy cleaning of the machine.

- Includes diamond disc CEV PRO Ø 200 mm.
- Direct motor, single phase 1.1 kW (1.5 HP) with thermal protector.
- Water pump refrigeration of blade with flow control.
- Reinforced chassis, greater structural rigidity.
- Adjustable lateral stop (0° to 60°) for repetitive cuts.
- Large work area (100x48.5cm) suitable for large formats.
- Working height of 84.5 cm. For improved user ergonomics.
- Double Switch (ON/OFF) quick and easy access.
- Foldable head at 45° for miter cuts that can cut up to 106 cm length.
- Equipped with C³ SYSTEM. The most effective cooling and cleaning system for blades. Front blade cooling diffuser with 5 positions depending on the hardness or the abrasion of the material.
- Machine supplied without cable.

DU-200 EVO

To cut ceramic and porcelain wall and floor tiles.

- 1 Built-in foldable legs. Very easy to fix.
- 2 With wheels and handle for a more comfortable transport and handling.
- 3 External water tank, easy to handle and clean.
- 4 C³ System, improves blade's cleaning and cooling for a higher performance.

- Motor assembly mounted on sliding bearings and foldable for mitre cuts.
- With lateral stop for repetitive cuts and adjustable square from 0 to 45°.
- Direct drive motor with thermal protector and reinforced chassis.
- Corrugated tube to protect power cable and water pipe.
- Equipped with C³ SYSTEM. The most effective cooling and cleaning system for blades. Front blade cooling diffuser with 5 positions depending on the hardness or the abrasion of the material.
- Bi-material handle, better ergonomics.
- With CEV-SUPERPRO diamond disc Ø 200 mm.

ND-200

Portable cutter, ideal for finishings and renovations.
For cutting ceramic tiles and other materials.

- 1 Lightweight and compact, ideal for working in small spaces.
- 2 Stainless steel folding table. More durability.
- 3 Fast positioning system at 45°. Easy to use.
- 4 Removable disk protector for vertical cuts. Simplifies creation of light boxes, frames, etc...

- CEV-PRO Ø8" (200mm) diamond blade included.
- Water refrigeration of the blade.
- Lateral stop to allow repetitive cuts.
- Electric cable: 4.9ft (1,5m).
- Direct drive with thermal protector.

3 YEARS WARRANTY

ND-180

Portable cutter, ideal for finishings and renovations.
For cutting ceramic tiles, ideal for floor and wall tiles.

- 1 Water refrigeration of the blade.
- 2 With foldable table for mitre cutting up to 7 7/8" (20cm).
- 3 With lateral stop for repetitive cuts.
- 4 Guide for 45° cuts.

- Single-phase motor.
- For wall tiles, floor tiles and other materials.
- Diamond blade Ø7" (180mm) included.
- With thermic security switch.
- Electric cable: 4.9ft (1,5m).
- Model with carry case, supplied with 2 blades. (Ref. 25945, 25964, 24956)

The breaking capacities may vary depending on the position of the head, special flanges and disc diameter.

Electric saw with plunge effect, capable of cutting all types of material.

DR-350

For all types of building materials like: masonry bricks, facade bricks, fireproof bricks, marble, granite and ceramic tiles.

- 1 Head with high performance plunge effect. Large cutting capacity.
- 2 Equipped with ZERO DUST system. Tested and certified by TNO.
- 3 Large table for a larger work surface and comfort.
- 4 Steel structure robustness. Increased resistance to the demands of intensive work.

- Equipped with protective safety system for segmented blades.
- With thermal protector. Except three-phase motors.
- Adjustable head to 45°.
- Large table 23 1/16"x19 1/2" (58.5x49.5cm).
- Blade refrigeration by water pump with integrated regulation valve.
- Diamond blade Ø12-14" (300-350mm) not included.
- Machine supplied without cable.
- Direct drive.
- Supplied with new ZERO DUST system already assembled. Also provided with a second anti-splash standard protector.

TABLE EXTENSION DV/DC/DCX	54993	SUPERPRO	1

TILE FIXER DV/DC/DCX/DS/DX

- Allows the fixing of the tile during cutting, thus avoiding sudden movements.
- Accessory adaptable to DV,DC,DS and DX series (up to 2009).

	REF		
TILE FIXER DV/DC/DCX/DS/DX	51916	SUPERPRO	1

ADJUSTABLE LENGTH LATERAL STOP DC/DCX/DS/DX

- For fixing large format tiles.
- Adjustable to the maximum length of electric cutter.
- Tile is held laterally thus avoiding any movement.
- Especially suitable for blocking and execution of repetitive miter.

	REF		
ADJUSTABLE LENGTH LATERAL STOP DC/DCX/DS/DX	54844	SUPERPRO	1

LATERAL STOP FOR DC/DCX/DS/DX

- Lateral Stop 19 11/16" (50cm).
- Facilitates positioning of the tile, while reducing the percentage of errors.
- Accessory adaptable to DW-250-NL (up to 2012).

	REF		
LATERAL STOP FOR DC/DCX/DS/DX	54822	SUPERPRO	1

LASER & LEVEL KIT DV/DC/DCX/DS/DX

- Kit includes:
- Circular bubble level to facilitate proper positioning of the electric cutter.
- Laser Tracer indicating the passage of the disc and facilitates placement of material.
- Laser power: 2 mW
- Laser Class: 2

	REF		
LASER & LEVEL KIT DV/DC/DCX/DS/DX	54999	SUPERPRO	1

- For machines supplied without cable, please include both the reference of the machine and the reference of the correct voltage cable with plug which is suitable for the Country of destination.
- Approximate length 3.5m.

CIRCULAR SAW TC-180

Precise cutting on large format materials.
For dry and wet cutting of ceramic, porcelain and other materials.

- 1 Practical cutter and easy to use for large pieces.
- 2 Double cooling system, wet and dry. Greater adaptability to environment.
- 3 Guiding mark for better visibility of the line of cut.
- 4 Easy adjustment of cutting thickness. Greater versatility and adaptability to the different materials.

- Especially suitable for large pieces.
- Allows the user to reduce manipulation, handling heavy or awkward use.
- Content:
 - Blade Ø180mm TCR-180 SUPERPRO.
 - Parallel guide.
 - Cable with PRCD switch (differential).
 - Cone reducer for vacuum cleaner.
 - Transport case.

PRO-EDGER BEVELLING AND MITRING ACCESSORY

Professional portable system for intensive use, especially designed for dry beveling and mitring principally of large format tiles. It can bevel and mitre porcelain, ceramic and any natural stone material of any length.

- 1 It makes mitre cuts at 45° up to a maximum thickness of 20 mm, and with no thickness limitation for beveling.
- 2 Progressive beveling and mitring at different depths to prolong the useful life of the grinding wheel and make beveling easier for the user.
- 3 Compatible with 115 & 125mm angle grinders with cable or battery that are easily and safely fitted thanks to the joint made with an M14 threaded shaft and quick-fastening belt.
- 4 Sealed high-speed bearings, to prevent the ingress of dust generated during the beveling or mitring.

- Highly wear-resistant polyethylene slides.
- A vacuum cleaner can be easily fitted for dust extraction (ZERO-DUST).
- Quick and simple grinding wheel change.
- Chassis with carbon steel sheet.
- Highly friction-resistant white polyethylene slides
- Plastic handle.
- Sealed single-row deep-groove ball bearings.
- 45° x 20 mm grinding wheel included (ref. 16946).
- Compatible with ZERO DUST system by means of a clip for fixing a vacuum cleaner.
- PVC plastic grinding wheel guard.
- Fixing to angle grinder by means of a 14 mm diameter shaft and quick fastening belt.
- Compatible with 115 & 125mm angle grinders with cable or battery up to 850 W. Up to 100 mm diameter handle.
- Progressive wear beveling and mitring is adjustable by 10 mm.
- A damp cloth is recommended for cleaning.
- Lubrication is not necessary.

AS-30 PRO VACUUM CLEANER

Vacuum adaptable to electric machines
To vacuum wet or dry.

- For wet and dry vacuuming.
- Power: 1400 W.
- Airflow: 58 l / s.
- Vacuum: 180 mbar. (18 psi.)
- Capacity: 30 l.
- Double switch: On / Off and automatic start.
- Socket for electric tool (max.2000W)
- Electrical cable: 4 m.
- Accessories included:
 - Hose, nozzle (35/37 mm) and crevice tool.
 - Steel pipes.
 - Wet brush.
 - Filter damp sponge for wet.
 - HEPA filter for dry.

DIAMOND BLADES - DRY CUT

• Diamond blades without need of water for cooling.

GENERAL PURPOSE SEGMENTED DIAMOND BLADE (STT)

- Recommended blade for cutting all types of building materials, included Reinforced concrete. High performance and speed of cutting.
- For cutting materials > 25 mm thickness.
- Only for straight cuts, not suitable for mitering.

REF	DIAMOND	Ø	Ø	Ø	Ø	RPM	BOX

		22.2 mm	230 mm	2.2 mm	10 mm		

GENERAL PURPOSE SEGMENTED DIAMOND BLADE (SEV)

- Recommended for cutting building materials such as brick, concrete, terrazzo.
- The fastest. Maximum speed and best blade's cooling. To cut materials with more than 1" (25 mm) thickness.
- Perforated steel blade to improve cooling and diminish cut's tensions.
- Only for straight cuts, not suitable for mitering.

REF	DIAMOND	Ø	Ø	Ø	Ø	RPM	BOX

GENERAL PURPOSE TURBO DIAMOND BLADE (TSV)

CERAMIC TILES CONTINUOUS RIM DIAMOND BLADE (CSV)

HARD MATERIALS TURBO DIAMOND BLADE VIPER (TVR)

- Recommended for cutting building materials such as bricks, concrete, terrazzo.
- A great combination. High performance and cutting speed with high standard finishes.
- Only for straight cuts, not suitable for mitering with angle grinder.

REF	PRO	PRO	PRO	PRO	RPM

- Recommended blades to cut hard materials such as granite, slate, quartzite, rustic tiles, klinker and porcelain tile.
- Robust blade, ready to support high tensions in the extremes of the blade.
- For cutting materials > 3/4" [20 mm] thickness.
- High cutting speed.
- Reinforced blade.
- Is suitable for miter cuts.

- For cutting hard porcelain tiles with the best performance.
- Specially recommended for straight cuts and high speed cutting.
- Not for mitre.
- Thanks to J-Slot typology, this disc increases cutting speed on very hard porcelain tiles, while reducing the stresses generated throughout out the cut.
- It's original design is for dry cutting, but also allows wet cutting.

REF	Shape	Ø	Ø	Ø	Ø	RPM	Box

CLASSIFICATION OF BLADES BY COLOUR

GENERAL PURPOSE	GENERAL PURPOSE	GENERAL CERAMIC MATERIAL	HARD MATERIALS
Recommended blade for cutting concrete and hard materials such as granite, slate, refractory, brick, etc.	Recommended blade for general cutting of building materials such as brick, concrete, terrazzo, natural stone, etc.	Recommended blades for cutting marble, fibers and other materials with high breakage risk.	Recommended blade for cutting hard materials such as granite, slate, firebrick, etc.

PORCELAIN	ABRASIVES	MARBLE	RESCUE
Recommended blades for fine cuts of porcelain tiles.	Recommended blades for cutting abrasive materials such as bricks, calcareous terrazzo, marble, sandstone, etc.	Recommended blade for cutting marble, limestone and fibres.	Recommended blade for cutting all kinds of materials such as steel sheet, wood, masonry materials, fiberglass, PVC, steel rods, concrete, reinforced concrete, etc...

TYPES AND USES OF DIAMOND BLADES

CONTINUOUS RIM	TURBO	VIPER	SEGMENTED
The best finish. For cutting and mitering ceramic tiles and other stone coating materials <1" (25mm) thickness.	A great combination. High performance and speed of cut with high quality finishings.	Best of a TURBO, with the best finishes and cutting speed.	The Fastest. Maximum speed and best blade's cooling. To cut materials >1" (25mm) thickness.

ELECTRO-PLATED	J-SLOT	VACUUM BRAZED
Less vibration. To cut those materials with high risk of breaking as marble or fibres.	High-Tech. High speed on hardest materials. Specially designed for straight cuts on porcelain tiles.	The most versatile. Due to his versatility in not petrous materials and cutting speed.

KIT MINI DRYGRES

- Dry cutting diamond drill bits for drilling porcelain tiles, glazed tiles, natural stone and other ceramics.
- They can be used both with grinders or drill without hammer, using the included adapter kit.
- Kit includes:
 - Drill Ø 1/4" (6 mm), 5/16" (8 mm), 3/8" (10 mm) and 1/2" (12 mm).
 - Case.

DRYGRES PREMIUM DRILL BITS

RUBI

2
Cut & Drill

2
Cut & Drill

NEW

- Designed for the fast drill of any kind of ceramic tiles including porcelain, but also suitable to drill natural stone as granite or marble, and sintered stone.
- Vacuum brazed type drill bits that provides a very fast dry drilling with very good quality.
- Resistant brazed of diamond grits and great quality materials for extra long life.
- Integrated wax only in the smallest diameters (6 – 12 mm) to help cooling and lubrication during drilling.
- Side openings for better cooling due greater air circulation in biggest diameters (20 – 85 mm).
- Air cooled through the own rotation but also recommended to describe small orbital movements with the tool to help cooling.

DRYGRES DRILL BITS 4DRILL

- Specially designed for dry drilling in porcelain stoneware. Suitable for other ceramic materials, natural stone and artificial stone.
- With high resistant welding of the diamond grains for a longer duration.
- "Easy-Start" Without slipping. Suitable for work without a centering guide.
- Perfect for cordless drills (1000 - 2500 rpm).
- Reinforced body with grub screw for better performance and rigidity, thus maintaining the wax on the tip of the drill.
- High quality finish.
- designed to be used exclusively with either a cordless drill or an electric drill.
- Their hexagonal connection allows them to adapt quickly to drills with a 10 mm chuck.

EASY GRES DRILL BITS \emptyset 7/32" TO 1/2" [6-12 MM.]

- Diamond drill bits to be used with electric drill without hammer.
- The quality of the diamond allows the drilling of ceramics, porcelain, granite, marble and glass.
- Ideal to install bathroom accessories and any type of decorative accessories over ceramic surfaces.
- They must always be used with the EASY GRES guide which allows their adequate refrigeration ensuring a high accuracy and good results.
- Average life between 5 and 10 holes depending on the material.
- Body made of steel and bit made of electrodeposited diamond.
- Lateral opening to improve cooling of the drill bit and to allow the elimination of solid waste produced after the drilling of the hole.
- Recommended speed of use between 400 and 1000 r.p.m. depending of the material to be drilled.
- To achieve a better finish and a longer life of the drill bit, it's important to observe the adequate speed of use and to apply a moderate pressure during the drilling.
- Supplied in blister.

EASY GRES DRILL BITS Ø 3/4" - 4 3/4"

- Electroplated diamond drills for use with electric drill without hammer.
- The quality of the diamond permits drilling stoneware, porcelain, granite, marble and glass.
- Always use water-cooled.
- The use of the MULTIDRILL guide (Ref. 50944) and the water tank (Ref. 50947) to cool and prevent movement of the drill bit during drilling getting good finishes.
- The working speed varies between 400 and 1000 r.p.m., depending on the material to be drilled.
- Average life of 10 holes, depending on the material.
- Body in steel and electroplated diamond tips.
- Lateral opening for improved cooling and allow the removal of solid waste after each hole.
- For a better finishing and longer bit life, it is important to respect the right speed and moderate pressure during drilling.
- Supplied in blister.

CONCRETE FAN GRINDING CUP

- Fan shaped grinding cup with sintered segments for fast grinding and edge finishing on concrete surfaces.
- Laser welding. Coarse grinding finish. Heavy-Duty steel core.
- For GRINDERS use.
- Maximum perimeter speed: 15.300 RPM (Ref. 05919) and 12.250 RPM (Ref. 05920).

CUTTING & GRINDING BLADES

CUTTING & GRINDING BLADES

- For cutting and grinding soft natural stone and ceramic tiles and synthetic materials.
- For adjustment cuts and grinding on all types of porcelain and hard materials.
- For materials with <25 mm thickness.
- Electroplated continuous rim blade.
- Two-sided and reversible blade for a better performance.
- For grinders use. Connection: M14 thread.

BEVELING WHEELS

FINE GRAIN PRO-EDGER BEVELING WHEEL

- Grinding wheel for beveling.
- Diamond grits fixed by means of a vacuum brazing system.
- Recommended for use with ANGLE GRINDERS between 9000 – 12000 rpm.
- Round finish available on 5 and 10 mm radius.
- Internal diameter: 16.1 mm (M16 thread).
- For exclusive use with PRO-EDGER.

	REF					RPM

TURBO TWIST COARSE GRAIN PRO-EDGER MITRING WHEEL

- Grinding wheel for mitring.
- Diamond grits fixed by means of a vacuum brazing system.
- Recommended for use with ANGLE GRINDERS between 9000 – 12000 rpm.
- The TURBO TWIST model can be used for grinding before finishing with a fine grit, as its grooved design can chip the tile profile.
- Internal diameter: 16.1 mm (M16 thread).
- For exclusive use with PRO-EDGER.

POLISHING PADS

DRY POLISHING DIAMOND PADS

- Range of floppy discs Ø100 mm for polishing, dry, of concrete, marble, granite and other ornamental natural stones.
- It allows removing scratches and surface damage quickly and easily.
- Maximum operating speed: 3,000 rpm.
- Different granulometry.
- # 50, # 100 and # 200 for roughing.
- # 400, # 800, # 1500 and # 3000 polishing and close the pore.
- VELCRO® fastening blade to holder ref. 62986.

BUCKET FOR RUBIMIX-25-N	60265	PRO	1

CHUCK

1
Prepare

- Chuck attachable to the entire RUBIMIX range to work with hexagonal and round finishing rods below 12mm.
- Includes chuck key - 52 Ref. 71969.

	REF			
CHUCK	71967	SUPERPRO	1	
CHUCK KEY	71969	SUPERPRO	10	3600

UPWARDS MOTION: The material rises through the inner section of the mixing paddle and falls on the outside. This motion allows for an homogeneous mixture of viscous materials such as mortar, cement, glue, etc. Less effort and easier use.

M-120-R 3H ZN
M-120-R 3H L ZN
M-140-R 3H ZN
M-80 3H
M-100 3H

M-160-R 3H
M-100-FI 3H
M-120-FI 3H
M-140-FI 3H

PARALLEL MOTION: The mixture is done horizontally so the materials flow in both directions (up/down) depending on the movement of the paddle. This motion is recommended for resins, bicomponents, liquids, etc. It reduces the amount of bubbles and lumps.

E-80
ML-120
P-120-R

DOWNWARD MOTION: The material is pulled through the paddle's head and rises through the exterior. This motion is recommended for materials with a low viscosity such as paint, sealers, plaster, etc...The lumps are dissolved without splashing.

L-80
L-100

COUNTER MOTION: Both paddles work simultaneously generating a more intense mixture. Recommended for resilient and viscous materials such as mortars. Only for dual- paddle mixers.

Basic conditions:

- ≥80% Adhesive coverage (dry indoor surfaces).
- Final layer thickness: 5 mm [3/16"].
- BACK BUTTERING is not required.

*Back buttering is mandatory when the required coverage is ≥95% (for outdoors or damp areas) or pieces larger than 40 x 40. (16"x16"). To compensate for the bowing of the tile, add 2x** to the tooth size (** = deformation in the flatness of the tiles).

- Extremely light and resistant aluminium core.
- The connection between core and plate is very rigid.
- Highly wear-resistant special steel sheet with protection against corrosion by means of colourless varnish (STEEL).
- Special stainless steel sheet with high wear resistance (SS).
- RUBIFLEX ergonomic handle with two textures.
- Perfect blade flatness.
- YW notched trowel (Ref.77923), with a distinctive and unique shape of notches (not rectangular) to achieve optimal wetting (near 100%) of the tile with the adhesive. Specially created for tiles for which wetting is key (large tiles), and works very well with large format and SLAB type tiles.

- Extremely light and resistance aluminium reinforcement.
- Highly rigid fixation between the reinforcement and the plate.
- Steel/stainless steel plate with high resistance to abrasion.
- Ergonomic RUBIFLEX handle with two textures.
- Corrosion protection with clear varnish.
- Perfect flatness of the plate.

- 1 Special white nylon lap for tapping without staining.
- 2 Wooden handle in varnished beech.
- 3 Nickel-plated notched ring to increase handle fixation.
- 4 Solid, non-detachable mounting between handle and pin.
- 5 Fusion technique to forging temperature. Fully guaranteed for life against breakage.
- 6 Perfect flatness of the entire plate.
- 7 Plate protected against corrosion.
- 8 Fibres oriented lengthwise during plating.
 - Specific thermal treatment on:
 - Plate, to improve flexibility and prevent wear-off
 - Pin, to improve hardness and rigidity.
- 9 Maximum lightness retaining its resistance.
- 10 Total regularity of all fabrications.
- 11 Perfect adaptation of shapes, sizes and specific characteristics of each market demands.

Electric grout scraper

RUBISCRAPER-250

For grout removal without damaging the tile.

- 1 Ergonomic design and bi-material finishing, for greater comfort and better stability.
- 2 Light and resistant. Maximum reliability.
- 3 Blades made in tungsten carbide. Resharpenable for a greater performance. Patented model.
- 4 Fast locking / unlocking system for easy assembly of blade.

- Ideal for repair work (replacement of broken tiles).
- Equipped with 3 speeds. V1: 6500 i.p. / V2: 8000 i.p. / V3: 9500 i.p.
- Power: 250 W.
- Stroke length: 2 mm.
- Double insulation.
- Blades for joints of 1.5 mm (ref. 66810, use only with speed 1) and 3 mm (ref. 66812) included.
- Includes 2 special blades (steel made) to remove rests of thin-set from the back of the tiles or on the substrate.
- With transport case.
- Interchangeable blades for 1.5, 2,3 and 4 mm joints.

Cut & Drill

- Fine and coarse grit.
- Smooths out tiles.

	REF		
ABRASIVE BLOCK	05972	SUPERPRO	5

GLUE GUN APPLICATOR

3
Set

- Glue applicator 55 W. High performance.
- 100~240V/50-60Hz.
- Compatible with bars of Ø11 - Ø12mm.
- Universal glue.

25 GLUE BARS OF 6" (175 MM.)	65946	PRO	10	800

FOLDING 4-IN-1 WORKING TABLE

3
Set

- 4 uses in 1: Work bench, scaffold, dolly and creeper.
- Foldable, easy to transport and storage.
- Double sided board: MDF wood side (work bench function) and non-slippery PP plastic side (rest of functions). EASY interchangeable.
- Reinforced stainless steel area for harder jobs. Avoids damages on wooden surface.
- Angle conveyor and rule printed on the wooden side. Also includes a hole for small drillings (max. 25 mm) and hand tools inserts on metal frame.
- Folded table: 80x52x12,5cm.
- Unfolded table: 115x52x80cm.

	REF			
FOLDING 4-IN-1 WORKING TABLE	66924	SUPERPRO	1	16

WORK TABLES

- Work bench for all types of jobs.

TOOLS BOXES

• Tool boxes for the construction professional.

PLASTIC TOOL BOX

3
Set

- Light and highly functional tool box. With wheels and handle for transport.
- Comes with 2 holders and 4 fitments for attaching objects using elastic bands.
- Consists of 1 tray with 14 compartments that can be configured to specific needs and 1 inside tray with 4 compartments.
- Capacity 15 GL (55 L).
- Outer Dimensions: 24" x 14" x 16" (61 x 37 x 42 cm).
- Inner Dimensions: 20" x 12" x 14" (51 x 31 x 35 cm).

	REF			
PLASTIC TOOL BOX	71954	SUPERPRO	1	8

PROFESSIONAL TOOL BOX

3
Set

- Large tool box. With wheels and handles for transport.
- Lid with 2 pockets and 4 hangers to fix objects with rubber bands (Not Included).
- It contains internal tray with 4 compartments.
- Outer Dimensions: 31" x 19" x 20" (80 x 49 x 50 cm).
- Inner Dimensions: 24" x 14" x 16" (62 x 35 x 41 cm).
- Capacity: 25 GL (89 L).

PROFESSIONAL TOOL BOX	75965	SUPERPRO	1	4

MALLETS & HAMMERS

· Mallets and hammers of great quality with two types of handles, wood and RUBIFLEX.

STONING HAMMER WOOD HANDLE

- Special forged Steel head, tempered and hardened.
- SPANISH type head with electrostatic black paint coating and milled hitting ends.
- Varnished, HICKORY wood handle.
- Head's fixation to handle by cylindrical steel wedge and sealed by resin.
- Weight balanced to reduce hand's kickback.

	REF		
STONING HAMMER WOOD HANDLE 700 GR.	71896	SUPERPRO	6
STONING HAMMER WOOD HANDLE 1000 GR.	71897	SUPERPRO	6

FRAMER HAMMER RUBIFLEX HANDLE

- Forged, adjusted and tempered steel head of 28.2 oz [800gr]. Double placer / remover for nails, one magnetised.
- Ergonomic handle RUBIFLEX: Unbreakable structure with resistant-section fibre-glass nucleus, optimised for shock absorption, increasing the durability of the handle.
- Security connection between handle and steel head by inverse cone.
- Grip with elastic slip-proof elastic and surface grooves for maximum hold.

	REF		
FRAMER HAMMER 20" [500 MM.]	82986	SUPERPRO	6

STONING HAMMER SOFTGRIP HANDLE

- Special forged Steel head, tempered and hardened.
- SPANISH type head with electrostatic black paint coating and milled hitting ends.
- PP handle with fibre glass core, optimal for shock absorption. Improves handle's long-life.
- Bi-material SOFTGRIP handle, non-slippery and grooved for a better grip.
- Head's fixation to handle by cylindrical steel wedge and sealed by resin.
- Weight balanced to reduce hand's kickback.

	REF		
STONING HAMMER SOFTGRIP HANDLE 700 GR.	71898	SUPERPRO	6
STONING HAMMER SOFTGRIP HANDLE 1000 GR.	71899	SUPERPRO	6

CHISELS

- Wide range of chisels, point chisels and nippers.

FLAT CHISELS

- Made of CrVa. alloy steel. Forged, hardened and tempered cutting edge.
- Regrindable.

	REF		
CHISEL 10" X 29/32" X 17/32" (250 X 23 X 13 MM.)	70916	SUPERPRO	10

CHISEL 14" X 29/32" X 17/32" (350 X 23 X 13 MM.)	70918	SUPERPRO	10

WIDE CHISELS

- To remove tiles on renovation jobs.
- Made of CrVa. alloy steel. Forged, hardened and tempered cutting edge.
- Regrindable.

	REF		
WIDE CHISEL 10"/2 3/8" X 1 1/32" X 17/32" (250/60X26X13MM)	70924	SUPERPRO	10

MASON PICKS

- Made of special tempered steel, highly resistant at breaking.

MASONRY PICK

- Made of special tempered steel, highly resistant at breaking point.
- Normalised heat treatment and tempered tip.

	REF		
MASON PICK (SPADE/PICK) 18 OZ. (500 GR.)	82980	SUPERPRO	6

SHOVELS

· Shovels and spades with varnished, wooden handle and spades highly resistant at breaking point.

WOODEN RING HANDLED POINT-TIPPED SPADE

- Shovel with D finish.
- Handle with "Y" ring shaped plastic.
- Ergonomic grip, varnished eucalyptus.

	REF			
WOODEN RING HANDLED POINT-TIPPED SPADE	82963	6	36	SUPERPRO

PROP HANDLED POINT-TIPPED SPADE

- Shovel with "D" shape finish.
- Handle T shaped. Varnished wooden handle.

	REF			
PROP HANDLED POINT-TIPPED SPADE	82964	SUPERPRO	6	36

WOODEN RING HANDLED SQUARE SHOVEL

- Squared shovel with wooden handle "Y" shaped.
- Ergonomic grip. Varnished wooden handle.

	REF			
WOODEN RING HANDLED SQUARE SHOVEL	82960	SUPERPRO	6	36

PROP HANDLED SQUARE SHOVEL

- Squared shovel with wooden handle "T" shaped.
- Varnished wooden handle.

	REF			
PROP HANDLED SQUARE SHOVEL	82961	SUPERPRO	6	36

NIPPERS

- Range of nippers for different uses. For porcelain, mosaics and other materials.

CARPENTER'S PINCER

- For general use.
- Supplied in blister.

	REF			
CARPENTER'S PINCER 8 3/4" (220 MM.)	71971	SUPERPRO	5	765

NIPPERS FOR PORCELAIN TILES

- Specially for cutting narrow strips of a maximum of 7/16" [1cm].
- Replaceable scoring wheels (Ref:01953).
- Equipped with tungsten carbide scoring wheels with titanium surface treatment to last longer. With a gentle turn, the scoring wheels can be repositioned when they start getting worn.

	REF			
NIPPERS FOR PORCELAIN TILES	83942	SUPERPRO	5	765

PARROT NIPPERS

- Tungsten carbide edge of great hardness.
- To rectify holes on ceramics.

	REF			
PARROT NIPPERS	65925	SUPERPRO	5	765

NIPPERS FOR CERAMIC TILES

- Tungsten carbide edge of great hardness.
- To rectify cuts of ceramics.

	REF		
NIPPERS FOR CERAMIC TILES	65926	SUPERPRO	6

NIPPERS FOR GLASS MOSAIC

- Tungsten Carbide edge of great hardness.
- To cut and rectify glass mosaic tiles.

	REF		
NIPPERS FOR GLASS MOSAIC	71970	SUPERPRO	5

GROUT MORTAR APPLICATORS

· Joint applicator for mortar.

MANUAL GROUT MORTAR APPLICATOR

- Great capacity (650 cc) grout mortar applicator.
- Very light structure made of aluminum.
- It allows an easy, quick and clean application.
- Reduce consumption of grout and after grouting residue.
- Pressure adjustable with trigger.
- Replaceable and adjustable nozzles to the joint width.
- Also usable for the application of silicone and PU rigid and flexible cartridges.
- Quick and clean application.

	REF		
MANUAL GROUT MORTAR APPLICATOR 650 CC.	65990	SUPERPRO	1

SET OF SPARE NOZZLES FOR GROUT MORTAR APPLICATOR

- Spare parts adaptable to Electric (Ref. 66915) and Manual (Ref. 65990) applicators.
- Includes screw, piston and 3 nozzles.

	REF		
SET OF SPARE NOZZLES FOR GROUT MORTAR APPLICATOR	65981	SUPERPRO	9

SPARE NOZZLES

- Spare parts adaptable to Electric (Ref. 66915) and Manual (Ref. 65990) applicators.
- Includes 6 nozzles.

	REF		
SPARE NOZZLES FOR GROUT MORTAR APPLICATOR	65980	SUPERPRO	1

ACCESSORIES

FOR TILE FIXING AND FINISHING

Measuring systems

Tile spacers

Fast levelling systems

CONSTRUCTION LEVELS

· Wide range of levels.

RUBILEVEL

- Level manufactured in reliable, resistant aluminium.
- Machined base up to measures of 100 cm to ensure constant accuracy.
- Accuracy: 0,5 mm/m three bubbles for checking horizontal, vertical and 45° levels.

	REF			
RUBILEVEL 16" (40 CM.)	76920	PRO	8	2400
RUBILEVEL 24" (60 CM.)	76922	PRO	8	1600

RUBILEVEL 59" (150 CM.)	76926	PRO	2	448
RUBILEVEL 79" (200 CM.)	76927	PRO	2	448

RUBILEVEL MAGNET

- Level manufactured with reliable, resistant aluminium.
- Machined base to ensure consistent accuracy and Neodymium magnets inserted to hold it on metal surfaces.
- Accuracy: 0,5 mm/m.
- Three bubbles for checking horizontal, vertical and 45° levels.

	REF			
RUBILEVEL MAGNET 20" (50 CM.)	76929	PRO	8	1920
RUBILEVEL MAGNET 24" (60 CM.)	76930	PRO	8	1600
RUBILEVEL MAGNET 32" (80 CM.)	76931	PRO	8	1120

RUBILEVEL ANTISHOCK

- Levels manufactured in reliable, resistant aluminium.
- Double machining to ensure a constant precision in the top face and the base.
- Accuracy: 0,5 mm/m.
- Three bubbles for checking horizontal, vertical and 45° levels.
- Double and ergonomic bi-material handle.
- Rubber protector at the ends.
- DUAL view vertical vial for front measurements. Eliminates parallax error.
- MAGNIFIED horizontal vial for the CLEAREST view of the bubble.

	REF			
RUBILEVEL ANTISHOCK 24" (60 CM.)	76932	SUPERPRO	8	672

RUBILEVEL ALUCAST 32" (80 CM.)	76939	SUPERPRO	8	1120

WATER LEVEL

- Includes two graduated tanks and 20 metres of hose.
- With caps to maintain the hose correctly filled & ready for the next use.

	REF		
WATER LEVEL	70965	PRO	1

MEASURING TAPES

- Homologated precision measuring tapes. Two models available.

RUBIFLEX MEASURING TAPES

- Ergonomic chassis made from plastic and rubber.
- Approved precision measuring tapes: Class II
- Magnetic tape stopper. (only available in mm).

TILE LEVEL QUICK: LEVELLING SYSTEM

· System to facilitate the laying of large format tiles, avoid lippage and improving finishing.

- Avoid lippage during the fixing of ceramic tiles in both floor and wall tiles.
- For tile formats from 30x30 cm (12"x12") or bigger. Always with back buttering.
- Guarantee flatness and regularity of the fixing surface.
- Intuitive and easy to use. Results less sensitive to the user's skill.
- Impact removal system. Always in the direction of the grout.
- Compatible with tiles between 3 and 16mm thickness.
- Strip made in technical polymer. System sensitive to humidity.
- Lightweight pliers with bimaterial handle softgrip.
- Quick and comfortable.
- Pliers with 4 work positions. Fast thickness adjust to each tile.

KIT TILE LEVEL QUICK

3
Set

· The set consists of pliers, 100 strips and 100 reusable caps. Packaged in a handy bucket.

	REF			
KIT TILE LEVEL QUICK	02941	PREMIUM	1	80

TILE LEVEL QUICK STRIPS

3
Set

- Made of technical polymer non-hygroscopic.
- Doesn't need soaking before use.
- The strip thickness guarantees minimum grout of 1 mm.
- Ensures continuous tension between strips and caps/groove.
- Grooved bases to improve the wetting of ceramic tile.

DELTA LEVEL SYSTEM: LEVELLING SYSTEM

· System to facilitate the laying of large format tiles, avoid lippage and improving finishing.

- Avoids lippage during tile laying in both floor and walls.
- For tile formats from 30x30 cm [12"x12"] or bigger. Always with back buttering.
- EASY and INTUITIVE use.
- Impact removal system. ALWAYS in the direction of the grout.
- Guarantee flatness and regularity of the laying surface.
- Reusable wedges.
- STURDY pliers with pressure adjustment according to the tile thickness.

DELTA LEVEL SYSTEM STRIP

3
Set

- Made in PP.
- Different models available:
- Strip 0,5 mm / 1 mm / 1,5 mm and 2 mm. for tiles from 3 to 12 mm.
- Strip 1,5 mm and 2 mm for tiles from 11 to 20 mm.
- 3 mm and 5 mm strip for tiles from 6 to 15 mm.

CYCLONE LEVEL SYSTEM

· System to facilitate the laying of large format tiles, avoid lippage and improving finishing.

- A tool is not required for their installation.
- EASY, QUICK and INTUITIVE to USE. Results less dependent on the skill and experience of the user.
- LARGE and ERGONOMIC Cap. Does not injure fingers when tightening.
- GUARANTEES the flatness and uniformity of the installation surface.
- System removal by IMPACT (kick or mallet). ALWAYS in the direction of the grout joint.
- Reusable caps.
- The base of the clip ensures continuous tension between the clip and the cap.
- The lateral grooves at the base of the clip FACILITATE the spread of the adhesive, thus improving the adhesion of the tile.
- Tightening adjustment system depending on the thickness of the ceramic tile.
- Recommended for tiles with thicknesses from 3 to 18 mm.

CYCLONE FLAT BASE

3
Set

- Available in various models:
- Flat base clips of 1, 1.5, 2 and 3 mm.
- Visual thickness identification by colour.

RUBBLE CHUTES

BUCKETS & TUBS

Rubble chutes
Plastic products for construction

REINFORCED PLASTIC RUBBLE CHUTES "LIGHTCHUTE"

· Plastic rubble chutes are a safe and economical way to move rubble and other site waste from high storeys to containers at street level. Their ease of use means that they can be utilized to great effect in any building work over several storeys. Rubble chutes are especially recommendable in urban surroundings.

- Ribbed interior protects against wear and tear. Greater durability.
- Dust reduction.
- Fast and easy assembly. Equipped with quick-clip system.
- Stackable; saving space in storage and transit.
- Wide range of accessories.

TOP PLASTIC RUBBLE CHUTE "LIGHTCHUTE"

- For loading waste on lightchute chutes.
- Also compatible as top Hopper or an intermediate loading point.
- Excellent resistance to impact by deformation.
- Higher durability.
- 6 mm thick walls with ribbed interior that protects against wear and tear.
- Reduces dust.
- Equipped with 6 mm thick chains, according to DIN 763 norm.
- Locking chain of 3 mm for intermediate chutes.
- Fast and easy assembly. Equipped with quick-clip system.
- Stackable for saving space.

PLASTIC RUBBLE CHUTE STANDARD SECTION "LIGHTCHUTE"

- Attaches to sections with top and side hoppers and all other chute accessories.

REF										
PLASTIC RUBBLE CHUTE STANDARD SECTION	88760	SUPERPRO	18 1/2" 470 mm	14 15/16" 380 mm	43 5/16" 110 cm	39" 100 cm	1/4" 6 mm	18.5 Lb 8.4 kg	1	32

Essential rules to follow for assembly

The chute chains should always be hanging down, never upwards.

The chute column should hang free, with no bends and held only by the upper part.

You can request sets of chains with carabiners for the first chute.
* Safety Catch

✓ Recommended one support every 15 metres of chute column.

Follow the instructions

BENDS:
Left: What you should NOT do.
Right: Perfect angle.

SIDE HOPPER DO NOT force onto the wall, making the column unbalanced. **DO** keep the column upright

TOP HOPPER DO NOT start the column with a side hopper piece. Unsecured, loose or unscrewed hopper section

ACCESSORIES FOR RUBBLE CHUTES

- Wide range of accessories for rubber and plastic rubble chutes.
- They provide a faster, safer and more comfortable way of fixing the chute to a building or scaffolding.

CHUTE SCAFFOLD FASTENING SYSTEM

- Mounting bracket to fix top of chute to scaffold.
- Reinforced. Holds the weight of the chutes that hang from it.
- Easily fixes to the scaffold.
- For greater safety and security we recommend installing this piece at intermediate sections of the chute column. Specifically, one piece every 15 metres of chute.

	REF			
CHUTE SCAFFOLD FASTENING SYSTEM	88517	PREMIUM	1	5

CHUTE EXTENSION ARMS

- Chute extension arms (2un)

	REF			
CHUTE EXTENSION ARMS (2UN)	88513	PREMIUM	1	2

RUBBLE CHUTE SUPPORT BRACKET FOR BUILDINGS

- Mounting bracket for the top of the chute column.
- Reinforced. Holds the weight of the chutes that hang from it.
- Easily attachable to any structural element of the building (floor frame, window, balcony, etc.) thanks to its two fixing positions.
- Includes two clamps for ideal fastening.
- For greater safety and security we recommend installing this piece at intermediate sections of the chute column. Specifically, one piece every 15 metres of chute.

	REF			
RUBBLE CHUTE SUPPORT BRACKET FOR BUILDINGS	88515	PREMIUM	1	5

CHUTE CONTROL RING

- This accessory fixes to the last section of the chute.
- It allows the last section of the chute to be easily manoeuvred into the desired position.

	REF		
CHUTE CONTROL RING	88516	PREMIUM	1

BALANCE BEAM COLUMN HOOK

- This accessory is compatible with the winch to balance the chute fastening.

	REF			
BALANCE BEAM COLUMN HOOK	88514	PREMIUM	1	5

RUBBLE CHUTE CHAIN SET

- Set of chains for rubble chute (2un).
- Extra-reinforced. 7mm thickness. DIN 763 standard.

	REF		
RUBBLE CHUTE CHAIN SET (2UN)	88519	PREMIUM	1

BRACKET & WINCH FOR CHUTE

- Attaches to the chute support brackets for buildings and scaffold.
- Manual winch with 15 metres of cable, equivalent to the length of 12 chutes.
- Ideal for building renovation works where a tower crane is not available.

	REF		
BRACKET & WINCH FOR CHUTE	88520	PREMIUM	1

PLASTIC BUCKETS "LIGHTBUCK"

· High quality plastic buckets are an outstanding option due to their competitive price and light weight. The range of plastic buckets includes models with capacities of 10, 12, 15 and 22 litres.

· The common characteristics of all the plastic buckets are:

- Made with high quality polyethylene. Greater robustness.
- Suitable for all types of work in the construction industry as well as other industries.
- Very thick walls for maximum strength and resistance.

ITALIANO PLASTIC BUCKET "LIGHTBUCK" (10 L.)

- Greater comfort during transport. For easy waste collection.
- Highly resistant metal handle.
- Walls are reinforced with ribbing.

PLASTIC TUBS "FLEXTUB"

- The high quality plastic tubs are suitable for use in various industries, combine optimal resistance with good flexibility and are very lightweight. Their shape and the design of their handles means that any of the plastic tubs in this range can be carried in one hand with no risk of breakage or fatigue.

- The common characteristics of all the plastic baskets are:

- Made with high quality polyethylene. Greater robustness.
- Suitable for all types of work in the construction industry as well as other industries.
- Very thick walls for maximum strength and resistance.

PLASTIC BUCKETS "HEAVY DUTY"

- Greater comfort during transport. For easy waste collection.

KNEE PADS, ERGONOMIC SEAT AND CUSHION

• Range of knee pads and ergonomic seat.

PROFESSIONAL KNEE PADS N

- Useful for any task that requires kneeling for prolonged periods of time.
- Ideal for much more comfortable installation of tiles and flooring in general in different phases of the installation: substrate preparation, installation, grouting and cleaning.
- LARGE SUPPORT surface area for optimal STABILITY and COMFORT.
- Double strap for keeping the knee pad tightly fitted to the leg at all times.
- Avoids blocking of blood flow at the back of the knee.
- Quick strap fastening.
- In accordance with EN14404.
- Performance level: 1.

	REF			
SET OF PROFESSIONAL KNEE PADS N	66957	SUPERPRO	6	192

KNEE CUSHION

- Polyurethane cushion for protecting the knees.
- Makes it easy to work on the floor without using knee pads.
- Its wide surface allows its use as a seat.

	REF		
KNEE CUSHION	65943	PRO	1

FLEX KNEE PADS

- Protection ergonomic flexible. Adjustable elastic band fastener.
- Professional knee pads of high comfort.
- Inner body soft materials suitable to the user.
- Flexible and resistant outer shell.
- Conforms to EN14404.
- Protection level: 1.

	REF		
FLEX KNEE PADS	81994	PRO	6

GEL DUPLEX KNEE PADS

3
Set

- Professional knee pads with ergonomic design. Highly comfortable.
- Their design combines the use of hard materials to protect against impacts and uneven floors and soft materials adaptable to the user's anatomy on the inside.
- Besides protecting the user's knees thanks to the silicone gel in their inside, their studied ergonomics gives them great stability, preventing ligaments and tendons fatigue.
- Wide range of uses thanks to their design "two in one":
- Can be used together with the external rubber protection of great stability and resistance.
- With the main body only, less bulky, which allows the knee to slide without problem over smooth surfaces.
- They incorporate a double fastener, inferior and superior, easy adjustable.
- Conforms to EN14404.
- Protection level: 1.

	REF			
GEL DUPLEX KNEE PADS	81989	PREMIUM	6	96

GEL COMFORT KNEE PADS

3
Set

- Ergonomic design professional and high comfort knee pads.
- Its design combines the use of hard materials against impacts and uneven floors and soft materials therein, adapted to the user's anatomy.
- In addition to protecting the user's knees through the use of silicone gel inside, its studied ergonomics provide them with great stability, preventing ligaments and tendons fatigue.
- They incorporate two bands Neoprene closure.
- Conforms to EN14404.
- Protection level: 1.

	REF			
GEL COMFORT KNEE PADS	81998	SUPERPRO	6	96

SR-1 ERGONOMIC SEAT

3
Set

- Aluminum chassis high strength and stability.
- Allows an ergonomic position of comfort.
- Prevents injuries in knees and back.
- Adjustable seat height and angle for optimum adaptation to each use.
- Robust construction with 7 heavy duty wheels.
- Includes tray for tools and accessories.
- Ideal for flooring, parquet installation, cleaning and other operations on pavements tasks.
- Replaceable ergonomic kneepads.
- Maximum weight: 286 lb (130 kg).

	REF			
SR-1 ERGONOMIC SEAT	81999	SUPERPRO	1	18

SAFETY EQUIPMENT

· Safety equipment for building professionals.

WHITE LENS GOGGLES

- Field of use: basic.
- Mechanical resistance to high speed particles, low energy.
- Extendable in length and vertically adjustable side pieces.
- Anti-scratch and anti-fog.
- UV Filter.
- Comfortable and light.
- Conforms to EN166 and EN170

	REF			
WHITE LENS GOGGLES	80918	SUPERPRO	12	1200

EAR PROTECTOR

- Comfortable and effective protection for high noise environments.
- Conforms to EN352-1.

	REF		
EAR PROTECTOR	80903	SUPERPRO	6

LUMBAR PROTECTOR

- Recommended to avoid low-back injuries when loading weight or maintain fixed positions.
- With vertical reinforcement in the lower-back area.
- Side devices to adjust the pressure at the time of stress.
- Available in 3 sizes: M, L and XL

	Units per box		Diamond band height		Separator power		Adjustable flow		Comfort
	Cutting length		Diamond band width		Fixed separator		Tip-up table for mitring		Reinforced
	Diagonal cutting length		Maximum drill length		Mobile separator		Zero Dust		Strong
	Cutting height		Mixing capacity		Repetitive cuts		1 hour of continuous work maximum, recommended by TNO		Smokeless
	Separator power		Max Height of the head		45° cuts		3 hours of continuous work maximum, recommended by TNO		Light
	Net weight without packaging		Rod's head diameter		Base accessory		6 hours of continuous work maximum, recommended by TNO		Easy use
	Gross weight		Wide notched trowel		Angular measuring		Level		Reduced dust and noise
	With carrying case		Notched height trowel		Dual reinforced guide		Laser		Easy cleaning
	Weight with carrying case		Notched Radius Trowel		PURE POWER		C3 system		Wet cutting
	Power supply		Trowel length		MAGNET		Dry cutting		
	Revolutions per minute		Trowel width		Smart Power				

Rubi Group comply with the Directive 2002/96/EC on waste electrical and/or electronic and Directive 2002/95/EC on the restriction of certain substances in their manufacture, applying the law of each member state according to EEC your specific criteria. (WEEE, WEEE, ECDRAEE, etc...) (RoHS).

Images are for illustration purposes and may change without notice.

*The gross weight of some electrical machines may vary depending on the type of pallet and carton type used in packaging.

**Any manipulation or modification of machine voids the warranty. Our warranty covers defects in manufacturing or assembly in accordance with the applicable law.
