Floor Warming and Heating Systems

A MATCH MADE IN HEAVEN!

FLEXTHERM's new uncoupling membrane, the ideal complement to **FLEXTHERM's Green Cable Surface XL**

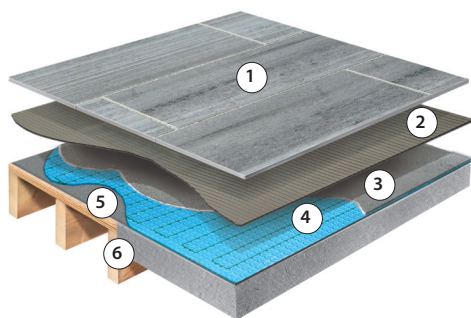

A winning combination for a warm, comfortable and durable floor!

Lifetime warranty offered with the membrane and the Green Cable Surface XL are installed by a FLEXTHERM certified FLEXpert installer; otherwise, a 25 year limited warranty is applied.

1 800 353-9843 • www.flextherm.com • client@flextherm.com

FLEXTHERM's uncoupling membrane designed for the installation of FLEXTHERM's Green Cable Surface XL

- ① Ceramic, porcelain or natural stone* tiles (minimum 2" x 2" x 1/4" format)
- ② Appropriate notched mortar**
- ③ Skim coat with appropriate mortar**
- ④ Green Cable Surface XL in uncoupling membrane
- ⑤ Appropriate thinset mortar***
- ⑥ Concrete or plywood* subfloor

* If the installation is done over plywood or covered with natural stone, it may be required to double the plywood. Please refer to the complete installation guide.

** To determine the appropriate type of mortar, please refer to the mortar manufacturer.

*** The choice of mortar is based on the type of subfloor. Please refer to the complete installation guide.

Green Cable Surface XL installed at every three studs for an even 3.75 inch spacing and an output of 11.5 W/ft²
