### Component Dimensions

**Body:** Made from galvaneal steel that has been powder coated white. Corner bead edge to be fastened to surface and finished with drywall mud. This serves as a base for Tray 1 and Tray 2. Please see installation guide for proper install methods.

**Tray 1:** The larger of the two trays, made from galvaneal steel that has been powder coated white. Can slide to remove to access air flow flanges. This component can be painted to any color. Please see installation guide for proper install methods.

**Tray 2:** The smallest of the three components, made from galvaneal steel and powder coated white. Serves as a smooth, flat surface that can be painted or wallpapered, before or after installation. Please see installation guide for proper install methods

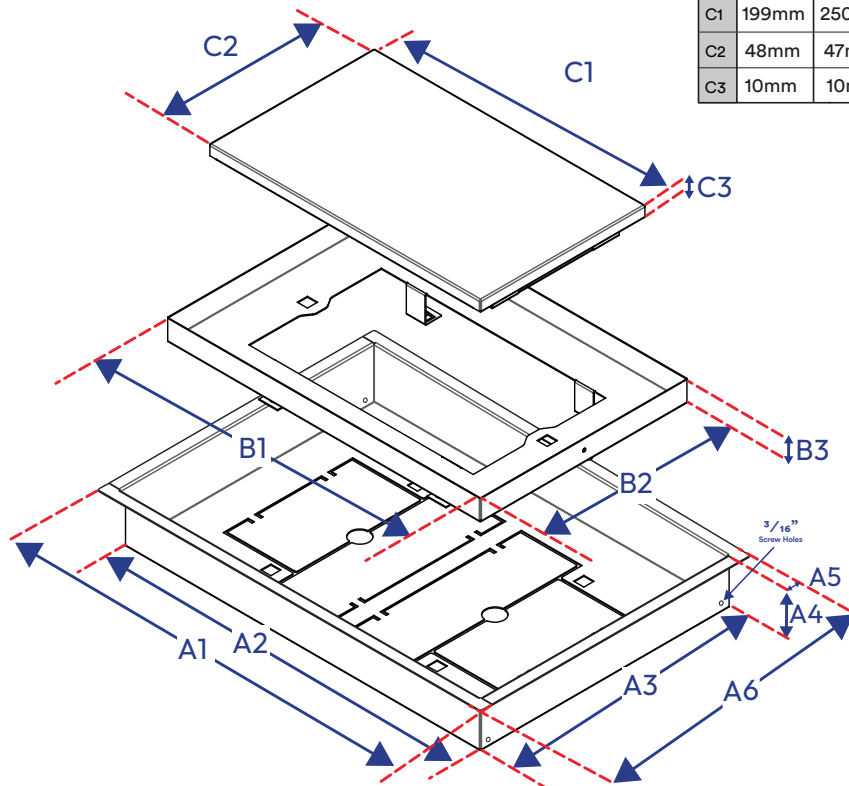

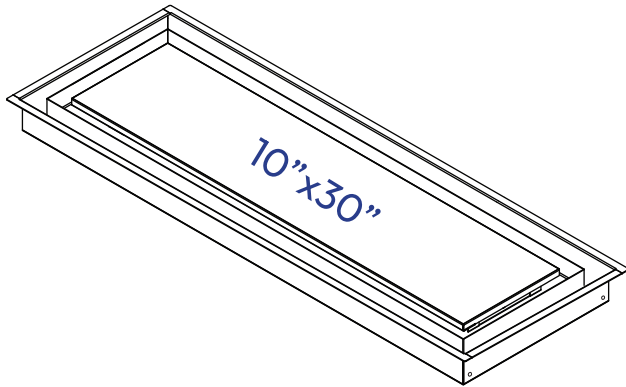

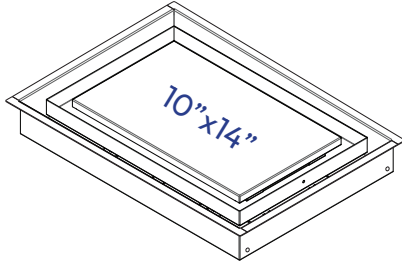

# High Performance Framed Wall Vent [Luxe]

### Components

**Body:** Made from galvaneal steel that has been powder coated white. Framed edge for easy drop-in install. No mud or sanding required. This serves as a base for Tray 1 and Tray 2. Please see installation guide for proper install methods.

**Tray 1:** The larger of the two trays, made from galvaneal steel that has been powder coated white. Can slide to remove to access air flow flanges. This component can be painted to any color. Please see installation guide for proper install methods.

**Tray 2:** The smallest of the three components, made from galvaneal steel and powder coated white. Serves as a smooth, flat surface that can be painted or wallpapered, before or after installation. Please see installation guide for proper install methods
