

NATURAL COCO

A natural coconut fibre mat that absorbs moisture and prevents the spread of dirt. The fibres are spun mechanically giving the mat a uniform and regular pattern with little fibre loss.

Manufactured with a unique glass scrim makes natural coco very stable and is not adversely affected by stretching. It is backed with a phthalate free PVC backing which protects the floor beneath making this ideal for light commercial areas.

SPECIFICATIONS

Pile Material	100% machine spun coir yarn					
Backing	PVC with integrated stability scrim					
Sample Options						
	<u>C19</u>	<u>C11</u>	<u>C02</u>	<u>C17</u>	<u>C03</u>	<u>C01</u>
						
	<u>C22</u>	<u>C05</u>	<u>C07</u>	<u>C16</u>	<u>C04</u>	

Pile Height	17mm (3/4")
Roll Size	2m (6'7")
Roll Length	+/- 12.5m (+/- 41')
Note	Height, size and roll length are approximate and may vary due to production
LEED Certification	Natural Coco contributes towards LEED Certification
