

## **CLEANING YOUR LAUZON HARDWOOD FLOOR**

---

### **Q1. HOW DO I CLEAN MY LAUZON FLOOR?**

Your Lauzon hardwood floor is durable and easy to maintain, with a few simple steps to care for it properly and ensure years and years of lasting beauty.

Regularly sweep or vacuum the floor to remove loose dust and grit. Install doormats at all entrances to protect flooring against abrasive dirt and moisture. Vacuum or shake out mats regularly. This is very important because small particles of loose grit act like sandpaper on the surface, wearing it down over time and dulling the gloss.

### **Q2. CAN I USE A STEAM CLEANER ON THE FLOOR?**

No! Never use a steam cleaner on a wood floor. The combination of heat and moisture and pressure could be very damaging to the wood. Always use a damp mop or cloth only. Steam will flow down between slats, penetrate the wood, stain it black. At worst, it will lift the coating, causing it to peel away.

### **Q3. CAN I USE A WET MOP TO CLEAN MY FLOOR?**

No! Never use a wet mop or cloth on the floor. It could be very damaging to the wood. Always use a damp mop or cloth only. Water will flow down between slats, penetrate the wood, stain it black. At worst, it will lift the coating, causing it to peel away.

### **Q4. CAN I USE WAX, OIL-BASED DETERGENT OR ANY GENERAL-PURPOSE HOUSEHOLD CLEANER TO CLEAN MY FLOOR?**

No! Never use wax, oil-based detergent or any general-purpose household cleaner. These can dull or damage the finish, leaving a greasy film and making the floor slippery or tacky and more difficult to clean properly.
