X-DESIGN SERIES

X-DESIGN SERIES

Preloaded with **Ultra-Sharp Black Snap-Off Blades** made from premium Japanese tool steel for unmatched sharpness and superior edge retention.

Fiberglass-reinforced handle with wrap-around rubber grip designed for long-term comfort and control. Stainless-steel channel maintains blade securely.

Designed with safety in mind, the **ratchet-based locking system** provides custom cutting depths. The wheel locks in place for unlimited positions. The **auto-lock** version allows for easy blade movement with tactile and audible clicks at each stop to assure correct blade placement.

18mm models include a **multi-purpose metal pick** for tasks not suited for the blade tip. Perfect for opening paint cans, removing plate covers, cleaning out caulk, and more.
