

Product Description

Liquid Release creates a colorless, lubricating membrane that prevents stamping tools from sticking to the surface of fresh concrete.

Primary Application(s)

Concrete stamping release agent

Benefits

- Simplifies stamping concrete
- Easy to apply
- Safe for integrally colored concrete
- Requires no washing
- Leaves no residue

Packaging

Liquid Release is sold in 20-litre (5 gallon) pails.

Storage

Combustible liquid. Store in a cool, well-ventilated area. Keep away from heat, sparks and open flame. Fixed equipment and transfer containers/equipment should be grounded to prevent accumulation of static charge.

Properties

- **Appearance:** Colorless liquid
- **Odor:** Fruity gum
- **Density:** 0.76 g/mL
- **pH:** Not applicable

Coverage/Dosage

Approximately 74–93 m² (800–1000 ft²) per 20-litre (5 gallon) pail.

Directions

Wait for all water to evaporate from the concrete surface, then spray Liquid Release over the area where you will place the next few mats (usually 6–10 mats). Proceed with stamping in a timely manner, as Liquid Release will eventually evaporate. Re-apply if necessary.

When stamping, several mats should be placed in line to maintain a consistent pattern. For a perfect, long-lasting finish, allow the concrete to complete its cure (minimum 28 days), then apply the appropriate Interstar sealer to the clean, dry surface.

Safety

Combustible liquid. Keep away from heat, sparks and open flame. Avoid breathing vapors. For additional information, please refer to the Product Safety Data Sheet (SDS).
