

# Care & Maintenance

## How To Clean Your Fuzion Waterproof Floors.

All wood-based products, even those specially designed to have increased moisture resistant characteristics are hygroscopic (they will react to moisture) and as a result will expand or contract accordingly. All sources of sub floor moisture must be remedied prior to installation. Use a dry or dry/ damp cloth to blot up spills as soon as they happen. Do not allow liquids to stand on your floor. Do not pour liquid directly on the floor or use an excessively wet mop that will puddle or allow water to continue standing on the floor. For tough spots such as oil, paint, markers, lipstick, ink, or tar, use acetone/nail polish remover on a clean white cloth, then wipe the area with a damp cloth to remove any remaining residue. For best results use FuzClean Laminate Cleaner and a mop for routine cleaning. Sweep, dust, or vacuum the floor regularly with the brush attachment to prevent accumulation of dirt and grit than can scratch or dull the finish.

## What Type of Cleaning Methods Should I Avoid?

Do not use steel wool, abrasive cleaners, steam cleaners or any type of buffing or polishing machine. Oil or petroleum-based products can result in surface staining. Do not track asphalt-driveway sealer or automobile oil drips onto the waterproof floor covering. Do NOT use vacuums that use a beater bar or turn the beater bar off. FuzClean laminate cleaner along with a microfiber dry mop is proven to be the best option.

## What Type of Issues Does My Fuzion Luxury Vinyl Warranty Protect Against?

So long as your waterproof flooring installation was completed according to the recommended method, your Fuzion warranty will cover the following; – Will not stain (from common household stains) or wear through – Will not fade as a result of sunlight or artificial light – Will resist damage under normal conditions (see Care & Maintenance document for additional information) – Will resist damage from moisture due to everyday household spills (100 hours+) – Will resist damage from moisture due to leaks (100 hours+) \* See associated product warranty for details.
