### Curbless 101

Recessing the sub-floor is the first step.

Why do I need a curbless shower? Whether it is for design, ease of use, or limited mobility, curbless showers are one of today's most popular bathroom remodeling upgrades.

Why aren't curbless showers built everywhere?

Simple. Traditional building practices and plywood floor construction has made curbless showers difficult to achieve.

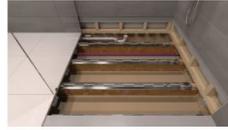

Rapid Recess allows you to combine the solid construction of your traditional bath with the aesthetics of today's trends keeping in mind the practical needs of tomorrow all in one kit.

The first step to a curbless shower is recessing the subfloor.

#### Expose

Expose the joists.

#### Attach

Attach the bracket system.

#### Recess

Recess the subfloor.

#### Finish

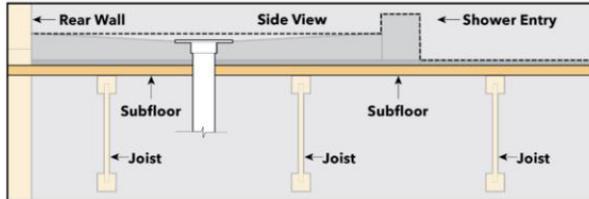

Finish with shower pan and tile.

It's that simple.

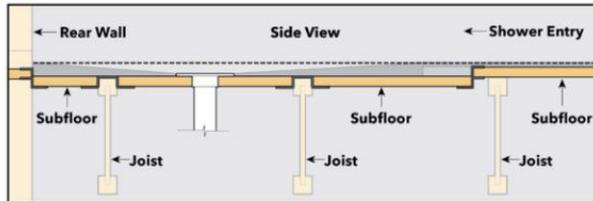

### What is a curbless shower?

There are many names for it: zero entry, flush entry, barrier-free, ADA, roll-in... They all mean the same thing – a shower where there is no lip between the outside of the shower and the inside of the shower regardless of materials being used for the bathroom floor and the shower pan!

### Curbed Shower Entry

### Curbless Shower Entry

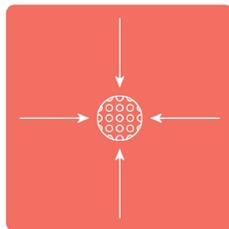

### What is the difference in the construction of a shower pan with and without a curb?

The most important difference is that in an ordinary shower with a curb, the construction starts on top of the floor. There must be a barrier to keep water from running out of the shower area.

In curbless showers, the construction has to start lower than the subfloor to gain the area needed to slope the shower floor from the entry to the drain. Rapid Recess solves this problem whether the floor is finished with tile or pre-made with finished materials.

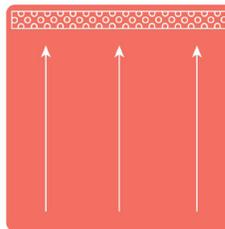

### 3 Different Drain Style Kits Available

Kits available for point or linear drains and shower pans. Used with different types, widths and orientation of floor joists (joists parallel or perpendicular to shower entry)

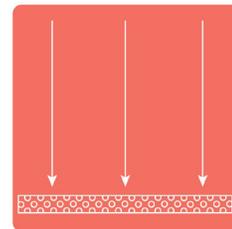

SHOWER ENTRY

For round or square drain installations ONLY

SHOWER ENTRY

For shower pans with linear drain at the back wall ONLY

SHOWER ENTRY

For use with linear drain at shower entry ONLY

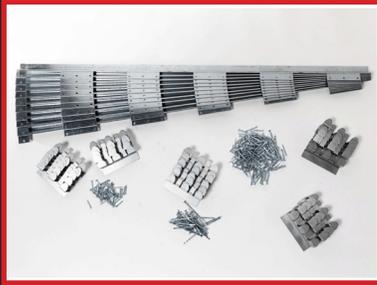

Scan the QR code to watch the curbless 101 video to learn more.

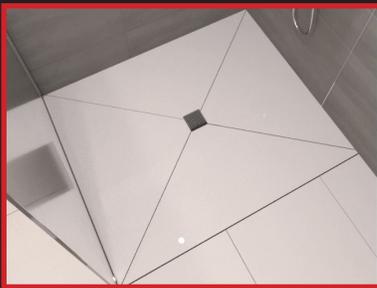

All products shown are backed by the Russo Trading Company Shield of Approval.  
Call 262-432-0877 • [www.RTCproducts.com](http://www.RTCproducts.com)

### Point Drain Kit

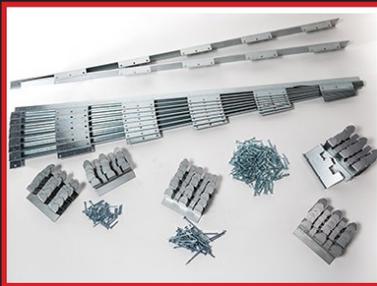

All required brackets and hardware included for up to 25 square foot showers

Finished round or square drain install results

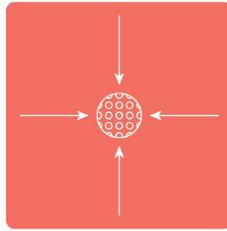

### Linear Drain Kit - Back Wall

All brackets and hardware included for shower floors up to 25 square feet with a linear drain to be installed

Finished linear drain at back wall install results

SHOWER ENTRY

For round or square drain installations ONLY

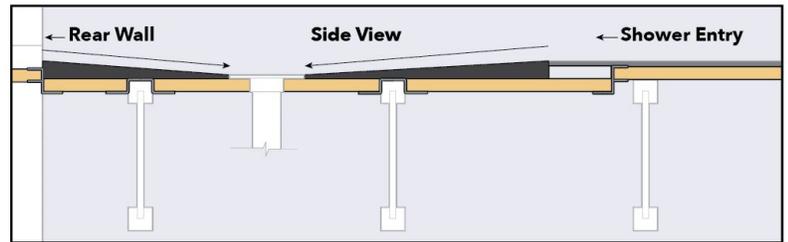

Scan the QR code to watch the point drain kit video to learn more.

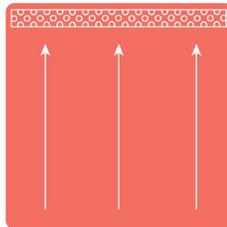

### Bracket Kit for Point Drain Installation

The Rapid Recess Point Drain Kit is designed to be used with pre-manufactured or mortar shower pans that utilize a round or square drain. Floor height within the shower area is recessed 11/16" and is limited by the height of the floor joists. Brackets are made of 16 gauge galvanized steel. PROUDLY MADE IN THE USA!

- Kit covers up to 25 square foot shower floors
- Recommended sizes are 5'x5' or 4'x6'
- Can be used with dimensional or TJI® joists
- Ideal for remodel and new construction applications

Item #	Description	Case Qty.
RR25SF	Rapid Recess Point Drain Kit	1

SHOWER ENTRY

For shower pans with linear drain at the back wall ONLY

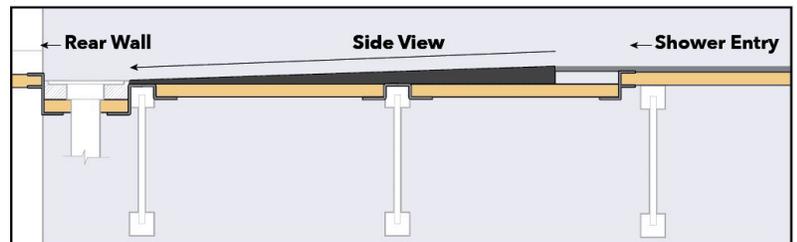

Scan the QR code to watch the point drain kit video to learn more.

### Bracket Kit for Linear Drain Installation on Back Wall

The Rapid Recess Linear Drain Kit is designed to be used with pre-manufactured or mortar shower pans that utilize a linear drain. One joist bay is recessed 1" below the top of the joist to accommodate the depth of the linear drain body. The rest of the shower area is recessed 11/16" and is limited by the height of the floor joists. Joist orientation must be considered since the drain body will always be parallel to the joists. Brackets are made of 16 gauge galvanized steel. PROUDLY MADE IN THE USA!!

- Kit covers up to 25 square foot shower floors
- Recommended sizes are 5'x5' or 4'x6'
- Can be used with dimensional or TJI® joists
- Ideal for remodel and new construction applications

Item #	Description	Case Qty.
RR25LDK	Rapid Recess Linear Drain Kit for Back Wall	1

All products shown are backed by the Russo Trading Company Shield of Approval.

Call 262-432-0877 • [www.RTCproducts.com](http://www.RTCproducts.com)

### Linear Drain Kit - Entry

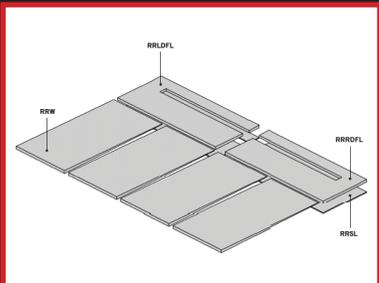

All brackets and hardware included for linear drain placed at shower entry

Finished linear drain at shower entry install results

### Filler Kits

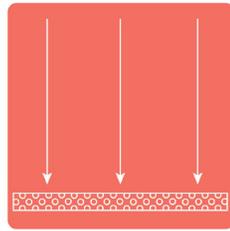

Choose small or large Filler Kit based on linear drain length

### Shim Kit

Peel and stick for easy adhesion to brackets

SHOWER ENTRY

For use with linear drain at shower entry ONLY

Scan the QR code to watch the point drain kit video to learn more.

### Bracket Kit for Linear Drain Installation at Shower Entry

The Rapid Recess Shower Entry Linear Drain Kit is designed to be used with pre-manufactured or mortar shower pans that utilize a linear drain. Designed for linear drain installations when the drain cannot be installed at the back wall or if a drain at the entry is desired. The entry cutout in plywood subfloor for the linear drain is recessed 11/16" to account for the drain depth. Brackets are made of 16 gauge galvanized steel. PROUDLY MADE IN THE USA!!

- Suitable for linear drains up to 72" in length
- Only for use where linear drain is placed at the shower entry
- Ideal for remodel and new construction applications

Item #	Description	Case Qty.
RR6ELDK	Rapid Recess Linear Drain Kit for Shower Entry	1

### Fillers Kits

Foam Filler kits are for use with linear drain curbless shower installation kits RR6ELDK and RR25LDK. Made of extruded rigid PET (polyethylene terephthalate) plastic foam. It is strong yet lightweight (both at the back wall and shower entry), non-reactive, economical, and shatterproof.

- Chemically stable, UV
- Can be used with both sheet and liquid topical waterproofing
- Speed and consistency of installation
- Eliminates the need for traditional mud bed installations
- Lightweight, durable with high compressive strength 105PSI
- Can be quickly and easily modified to size and shape of on site conditions
- Meets IAPMO PS-106-2013
- 100% post Consumer recycled and fully recyclable.

### RRFKS Kit includes:

- RRLDFS - small drain filler left (x1)
- RRRDFS - small drain filler right (x1)
- RRSS - 1/4" small shim (x2)
- RRW - sloped wedges (x3)

### RRFKL Kit includes:

- RRLDLFL - large drain filler left (x1)
- RRRDFL - large drain filler right (x1)
- RRSL - 1/4" large shim (x2)
- RRW - sloped wedges (x4)

### Shim Kits

Shim kit for use with 5/8" thick subfloor.

Kit includes:

HDPE Shims 5" long x 3/4" wide x 1/8" thick with double-sided tape (x60)

Item #	Description	Case Qty.
RRFKS	Rapid Recess Small Filler Kit (linear drains 26" - 43")	1
RRFKL	Rapid Recess Large Filler Kit (linear drains 40" - 72")	1
RRSHIMK	Rapid Recess Shim Kit for 5/8"	1

# Grout Grabber

## GROUT REMOVAL TOOL

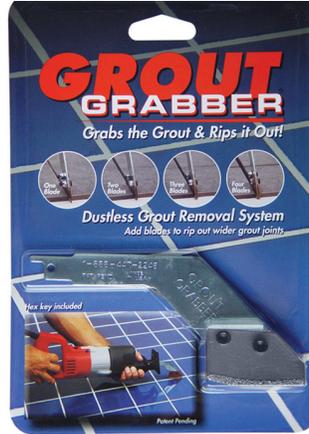

Turn a reciprocating saw into a grout removal tool

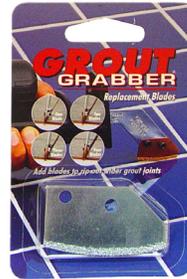

Creates minimal dust

The Grout Grabber tool removes grout with ease on joints ranging from 1/8" up to 1/2". Simply add or subtract blades for desired width. The unique curved design adds control when beginning the removal process. Never before has grout removal been this easy, inexpensive, and created less dust. The adapter fits most reciprocating saws.

Turn a reciprocating saw into a grout removal tool by simply attaching the Grout Grabber.

- Complete Regrout
- Remove Cracked Grout
- Change Grout Color
- Repair Broken Tile
- Restoration Work
- Removal of Excess Thinset

Use up to 4 blades for larger grout joints

Item #	Description	Case Qty.
GRGGKIT	Grout Grabber Kit (Adapter & 1 Blade)	12
GRGGBLD	Grout Grabber 2 Pack Carbide Blades	12

# Tavy Thin Skin

"THINNEST SUBSTRUCTURE AROUND, GREAT FOR TILE OVERS, AND A WARRANTY YOU CAN BE CONFIDENT IN!"

## Easy 5-Step Installation

1. Clean surface from oil, water, wax and dust.
2. Spread TAVY Thin-Skin #007 Glue
3. Install TAVY Thin-Skin Underlayment
4. Skim-coat surface with any thin-set mortar (allow to dry)
5. Start setting tile

This 2-part underlayment system can be used over any surface. The only surface preparation required is to have a clean surface that is free from oil, water, wax and dust.

- Use to meet existing threshold heights.
- Beat your competition by eliminating demolition costs.
- NO dust mess to clean up.
- Virtually NO additional height added to surface.
- NO waste, all pieces are usable regardless of size and shape.
- 25%-50% lower cost than other underlayments.
- One roll of underlayment and one gallon of glue will cover 100 square feet.
- NO need to buy or install nails/screws.
- Minimize overall load weight.

Part 1: Thin-Skin Underlayment: non-woven fiberglass reinforced fabric/paper. (100 sq. feet per roll).

Part 2: Thin-Skin #007 Glue: high end multi-purpose adhesive high in solids, which will adhere to any surface.

(Contains 1 gallon covering 100 sq. feet).

Item #	Description	Case Qty.
8500	Thin Skin Underlayment	4
8501	Thin Skin Glue	4

# 3D Stone & Tile Backers

Great for shimming accent tile

Choose from 3 thicknesses to create a unique "pop" design

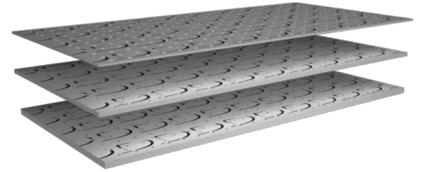

Endless design possibilities

## Make your next tile job 3D

While the designs made possible by the 3D Stone and Tile approach are nearly infinite, "Popped" 3D Flat Backers also make ideal shims for accent tile when thickness varies.

Flat (Popped) Backers

Flat Backer Thickness:  
1/8", 3/16", or 5/16"  
12" x 24"

3D Popped designs employ tile to which flat versions of these patented BreakThru Backers have been applied. Because the Backers are of various thickness, individual tiles can be made to "pop" out from the main plane of the tiled surface, creating another unique and dramatic set of design possibilities.

Item #	Description	Case Qty.
3D18F	1/8" 3D Flat Backer	25
3D316F	3/16" 3D Flat Backer	25
3D516F	5/16" 3D Flat Backer	25

# Sola R 100 Pocket Level

The R 100 has both a horizontal and a vertical vial and has a maximum measuring tolerance of 0.001 in./in. ( $\pm 1 \text{ mm/m}$ ,  $0.057^\circ$ ) for precise measurements.

Ideal for drains, niches, benches, and curbs.

**Transparent mini spirit level for precise measurements in the tightest spaces**

At just 4 inches in length, the transparent R 100 pocket level has a number of practical features to help you conduct measurements in even the tightest spaces. Made from break-proof acrylic glass, the R 100 is resistant against water, heat, cold and is non-conductive.

Item #	Description	Case Qty.

# Sola Levels

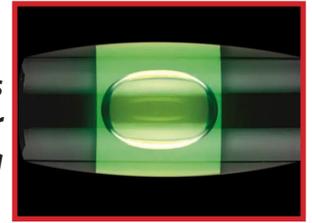

## BIG RED BOX BEAM

### Why sola has the world's best box beam levels!

The Sola Big Red Box Beam Levels are the epitome of perfection. With a range of sizes from 16" to 96" there is a level for virtually any situation. The patented FOCUS vial is unlike anything in its class, offering 60% magnification, a shock proof bubble, and a luminous backing that will charge the liquid to glow in low light.

**SOLA FOCUS vials provide a 4x higher contrast than ring vials.**

**Luminous Vial:** Every horizontal SOLA FOCUS vial is equipped with a luminous backing beneath the vial. This fluorescent light plate enables easier reading in low light situations without any LEDs. Vials are made of break-resistant acrylic material. Besides its resistance to deformation or breakage, the acrylic is highly UV resistant. Our patented ultrasonic welding of the vials ensures no leaks.

**Accuracy:** At SOLA, every spirit level is adjusted individually and undergoes a 100% quality inspection under stringent conditions. Our BIG RED is the most accurate box beam level in the world. With maximum deviations less than 0.3 mm/m (0.017°, 0.0003in/in.) in standard and less than 0.5 mm/m (0.029°, 0.0005in/in.) in inverted position, no other level is more precise.

**Robust Profile:** Our bestselling, sturdiest level, BIG RED, has an extra strong aluminum profile (890 g/m, 0.61 lbs/ft.) with reinforcing ribs. Among the most rugged levels on the market, the BIG RED profile is engineered to handle relentless use and accidental abuse without losing its shape and compromising your work.

**End Caps:** Two shock-absorbing end caps protect the level in case of a fall or shock. Equipped with an anti-slip surface, our levels allow for convenient positioning and a secure grip of the level on the measured surface. The level can be held securely with one hand when marking.

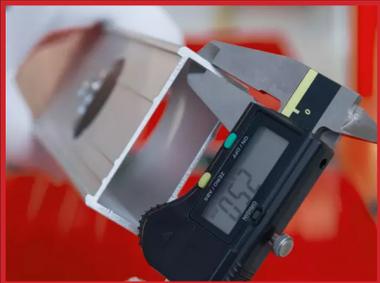

**Handles:** All BIG RED levels 32 inches and longer come with two handles. These ergonomically designed handholds provide a comfortable grip and added convenience on our most precise tools.

**Fluorescent light plate enables easier reading in low light without any LEDs**

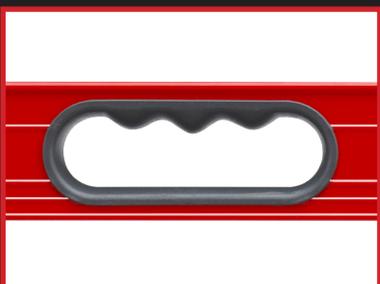

**The BIG RED is the most accurate box beam level in the world**

**Extra strong aluminum profile with reinforcing ribs**

**Two shock-absorbing end caps protect the level**

**Ergonomic handles provide a comfortable grip**

# Sola TLM2 Deep Hole Marker

Small diameter lead for precise marking on rough & smooth surfaces

Sharpener included on the pop off top of marker

The new TLM2 is a multi-functional marking tool. With the new attachment made from ABS plastic, the TLM2 can be used as a mechanical pencil for writing and simple markings. Unscrewing the attachment turns the TLM2 into a deep hole marker. The long, thin, stainless-steel tip enables high-precision marking of holes during assembly work and for marking in hard-to-access areas.

# Sola Go! Smart DIGITAL INCLINOMETER AND PROTRACTOR WITH BLUETOOTH

Digital measurement of gradients and angles

Bluetooth interface means that it can be used together w/ the free SOLA Measures app

The digital GO! Smart from SOLA combines the functions of a spirit level, an inclinometer and a protractor in a single device. Equipped with a backlit display and a magnetic base with a V-groove, this compact all-rounder has versatile applications. The GO! smart's Bluetooth interface means that it can be used together with the free SOLA Measures app, giving you access to useful additional functions.

- Digital Measurement of gradients & angles
- Easy to read in any position
- Concentrated power in a compact device
- Smart additional function w/ the sola measures app
- Measurement tolerance of Solatronic module: 0.05° at 0° and 90°

The user-friendly app is intuitive and easy to use. Suitable for iOS and Android.

# WaleTale

## DUST CONTAINMENT SYSTEM FOR VACUUMS

**Problem**

**Solution**

Scan the QR code to watch the video to see the dust disappear.

**"No pail should be without the Tale!"**

- Fits standard buckets - 5, 3, and even 1 gallon buckets
- Cuts down on cleanup time
- Helps to prevent Silicosis and/or Lung Cancer, resulting from the prolonged & repeated inhalation of crystalline silica contained in many mortars, thinsets, & grouts.

**Tested & Achieved  
0% Airborne Respirable  
Crystalline Silica**

**Eliminates Dust when mixing mortars, thinsets, and grout in standard buckets.**

**Universal Hose Reducer available to fit any size vacuum hose!**

Item #	Description	Case Qty
MXWT	Wale Tale Dust Containment System	64
MXWTR	Wale Tale Universal Hose Reducer	N/A

# Double Box

## MIXING PADDLE

**Designed to minimize air entrapment**

**High quality welds for extreme durability**

- Long 30" hexagonal shaft allows user to stand upright comfortably
- Fit with 1/2" or 3/8" drill chuck
- Double Box Mud Mixer Paddle
- Use for mixing materials such as: Mortar, Tile Adhesive, Filling Compounds, Plaster, Screeds

Item #	Description	Case Qty
MXDBM	Double Box Mixing Paddle	6

## HANDHELD MIXERS

### Why Collomix Collomixer?

- Power-Mix Technology
- HEXAFIX® Tool Connection
- Optimal ergonomics
- Variable speed trigger switch

Collomix mixers have been helping professionals on construction sites for decades. Reliable & powerful technology for all the challenges that arise when mixing.

**HEXAFIX® Tool Connection**  
Switch paddles without a tool

**Comfortable holding position**

**We have the right Collomixer**  
for every material type

**Xo1R 1.4 hp**  
Entry-level paddle mixer for mixing capacities of up to 10 gallons.

**Xo4R 1.7 hp**  
Rugged universal mixer for mixing quantities of up to 17 gallons.

**Xo6R 2.1 hp**  
The power package for the toughest mixing jobs up to 24 gallons.

**Xo55R 1.9 hp**  
The heavy-duty double paddle mixer for mixing capacities of up to 24 gallons.

Stronger parts mean stronger mixing products. Every part of a Collomix mixer serves a purpose – because this is NOT a modified drill; it's a tool that's 100% designed for mixing. All parts meet the highest standards for durability, reliability and worker safety.

Item #	Description	Case Qty

XO6R	Collomix Xo6R Handheld Power Mixer	1
XO55R	Collomix Xo55R Handheld Power Mixer	1

2-year warranty

## AQIX WATER DOSING DEVICE

**Accurately and precisely**  
measure the amount of  
water needed for every mix

Many building materials require very precise water metering in order to mix their material properties correctly. To dose the correct amount of water using a measuring cup is often inaccurate. The better solution is the new AQIX water dosing device. At the push of a button, you always get the exact amount of water you need for your materials such as mortar, fillers, leveling compounds, etc. This battery operated, portable device featuring automatic shut off eliminates the need to haul water buckets. Faster, easier and cleaner mixing than ever before.

Item #	Description	Case Qty
AQIX	Collomix Water Dosing Device	1

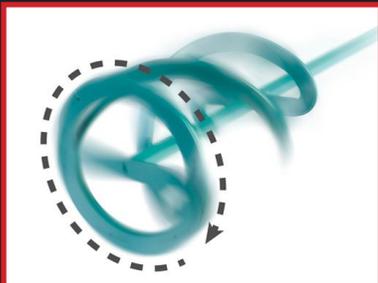

All products shown are backed by the Russo Trading Company Shield of Approval.

Call 262-432-0877 • [www.RTCproducts.com](http://www.RTCproducts.com)

Two handed operation for maximum control

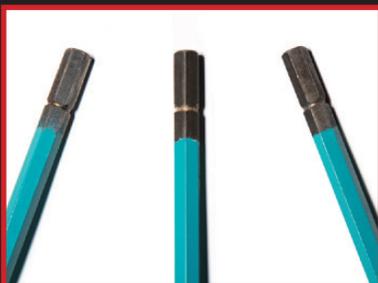

Protective ring provides smooth reliable mixing without damaging the bucket

Durable powder coated finish

3/4" high grade steel shafts for stability and no flex

HEXAFIX® Tool Connection

### Why Collomix Mixing Paddles?

- Versatile
- Patented HEXAFIX® Connection
- Strong welded joints
- Protective ring
- Powder-coated finish

All material needs the right paddle. A wide range of high-quality mixing paddles for a variety of mixing materials is offered. This is because short mixing times, optimal results and minimum physical strain on the user can only be achieved with the right mixing paddle.

#### WK

For mixing grouts, mortars, plasters, fillers, etc.

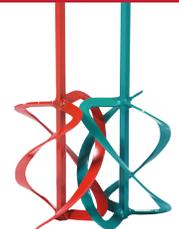

#### KR

For mixing tile adhesives, sealing compounds, etc.

#### DLX

For mixing large volumes of paints, fillers, coverings, etc.

#### MKD

Suitable for almost every construction material

#### LX

For mixing paints, epoxy-resins, plastics, etc.

Do you want to know which mixing equipment is the best solution to process your material? Collomix works closely with leading material manufacturers to provide you with the proper recommendations.

*Dust-free mixing with the dust extraction Dust.EX*

*Easy opening of heavy mixing bags with the bag ripper Sharky*

*No more rotating buckets thanks to the bucket holder Mix.GRIP*

*Ideal for mixing heavy and high viscous materials*

*Tool-free and easy change of mixing paddles*

### Dust.EX Extraction Tool

Simply clamp the Dust.EX dust extraction device to the edge of the mixing bucket in combination with a vacuum cleaner. The clamping spring enables attachment to almost any mixing bucket. Switch the vacuum cleaner on for virtually dust-free working while filling or mixing. Dust.EX reliably removes any escaping material.

Item #	Description	Case Qty
DX	Collomix Dust.EX Extraction Tool	2

### Sharky

Put this practical bag ripper on your mixing bucket, then place the material bag on the teeth. Bags can be opened with little effort, and without the need for an additional knife. Thanks to its intelligent design, Sharky can be used with a wide range of bucket diameters.

Item #	Description	Case Qty
SBR	Collomix Sharky Bag Ripper	2

### Mix.GRIP

Depending on the material's composition, there is a risk of the mixing bucket overpinning. Thanks to the adjustable foot treadle, buckets of various diameters can be secured quickly and easily.

Item #	Description	Case Qty
MG	Collomix Mix.Grip Bucket Holder	1

### RMX - Mixing Stand

The rugged RMX mixing assistant (support arm) copes easily with even viscous and heavy materials. Reliably absorbs and dissipates the generated forces. The RMX mixing stand is an economical alternative to automatic mixers. Works with Collomix handheld mixers.

Item #	Description	Case Qty
RMX	Collomix RMX Mixing Stand/Support Arm	1

### Hexafix - Quick-Coupling

This adapter will fit any machine with an M-14 thread. HEXAFIX® lets you switch paddles to match the mix without the need for extra tools. This patented design increases workflow and productivity with its quick action coupling.

Item #	Description	Case Qty
HF	Collomix Hexafix Quick-Coupling	1

## MIXING BUCKETS

High quality polyethylene mixing and mortar buckets with high stability and carrying capacity.

Perfectly tailored to the Collomix small batch mixing products.

**8 Gallon**  
Ideal for small but heavy loads. Black w/ metal carrier handle

**17 Gallon**  
Professional tub good for general use and for AOX-S & XM2

**17 Gallon Tall**  
Tall mixing bucket; also fits the Collomix LevMix

**25 Gallon**  
Oversized mixing bucket for large batches

### Why Collomix Mixing Buckets?

- Strong and durable
- Tear-off-resistant handles
- Made of high-strength materials

Item #	Description	Case Qty
8GB	Collomix 8 Gallon Bucket	1
17GB	Collomix 17 Gallon Bucket	1
17T	Collomix 17 Gallon Tall Bucket	1
25GB	Collomix 25 Gallon Bucket	1

## AUTOMATIC MIXERS

Perfectly balanced for tilting. High precision pouring means clean shoes and clean walls.

Save time and mix up to 3x's faster with the only paddle on the market for mixing self-leveling materials.

Proprietary VLX mixing paddle uses both a top down and side-to-side mixing style to ensure a perfect fluid mix for leveling compounds.

### LEVMI 65 - Heavy Duty Portable Mixer

Mix, transport and pour self-leveling compounds for perfect results. Now you can mix faster and more efficiently! The LevMix ensures that your blend is perfect and your mix time is cut in half with high output, transportability and easy pouring.

Perfectly designed for floor leveling compounds and levelers, leveling fillers, pouring screed, fiber-reinforced fillers, colored surfacing materials, colored coatings, liquid plastics, etc.

- Mixing capacity: up to 15 gallons or 3 bags (220 lbs.)
- Includes: VLX 160 HF paddle, 19 gal. bucket & pouring spout.
- One man operation
- Consistently superb mixing results
- Mix and pour from the same bucket
- Maximum mobility
- Integrated dust extraction port

Item #	Description	Case Qty

**Dust extraction hook up and removable cover to reduce dust emission. Once the perfect mix is achieved, just open the shoot and the machine will empty itself.**

**The fold down bucket cover lid is designed for safety, minimizing dust, and includes a dust extraction hook up. If opened, the paddles will stop operating.**

**Planetary gearing converts power into high torque and high speed, ensuring optimum mixing in the shortest time possible.**

\*Bucket Dolly for the 17 gallon bucket shown in the picture above is sold separately.  
Item #: BC17

### **TMX1000 & 1500- Forced-Action Compact Pan Mixer**

The TMX is specially designed for heavy material with three perfectly angled arms that spin at a low rotation speed. Let the TMX do the work, so you can be productive elsewhere on the site. Integrated bag ripper on top of the machine opens the bag for you. The shaker will remove any persistent material. Its main attributes are speed, mobility and reliability – so it saves time, energy and money.

- Ideal for dry and highly-viscous materials such as numerous types of mortar, stucco, grout and concrete.
- Mixing capacity: up to 20 gallons of pre-bagged materials.

Item #	Description	Case Qty
TMX1000	TMX1000 Compact Mixer-110V	1
TMX1500	TMX1500 Compact Mixer-240V	1

### **AOX-S - Counter Rotating Mixer**

The most versatile automatic mixer in its class on the market. The AOX-S comes with two specialized paddles designed to work with a broad variety of materials giving you flexibility, perfect results and performance every time. Compact, light and easy to transport. One person can easily handle transporting and lifting this machine.

- Ideal for thin-bed mortar and fillers, tile-adhesives, plasters, screed, cement, grout, etc.
- Mixing capacity: up to 10.5 gallons

Item #	Description	Case Qty
AOXS	AOX-S - Counter Rotating Mixer	1

### **XM-2/650 - Counter Rotating Mixer**

This high performance, forced-action, mobile mixer is a beast of a machine for a beast of a job. Choose from a variety of speeds and paddle attachments for any variety and combination of mixing needs. Forced-action mixing tackles the most challenging materials.

- Ideal for a variety of material from liquid to plastic media and multi-component systems like quartz sand mortar all-in-one machine
- Mixing capacity: up to 13 gallons

# Comfort Grip Stainless Steel

## TILE TROWEL

The RTC Comfort Grip trowels are the epitome of value. They boast a full stainless steel construction, high quality weld, and an amazingly comfortable ergonomic handle with the tallest knuckle clearance around! These trowels are available in most common sizes.

Display box with 8 trowels

Form-fitted comfort grip handle

Tiger Euro Notch Trowel

- Stainless-steel construction
- High quality weld
- Form-fitted comfort grip
- High handle clearance

The Tiger Euro Notch Trowel includes a unique design that guarantees coverage by using a varying notch. This trowel can be used on thick tile, thin tile (GTP), large format and smaller formats as well. The beauty of this trowel is that when embedding a tile into thin-set, the notches collapse into each other giving you better coverage.

Item #	Description	Case Qty
TRTIGER	Tiger Euro Notch Trowel	8
TR14316V	1/4" x 3/16" V Notch Trowel	8
TR1438U	1/4" x 3/8" U Notch Trowel	8

# Ultimate Leave-In Spacers

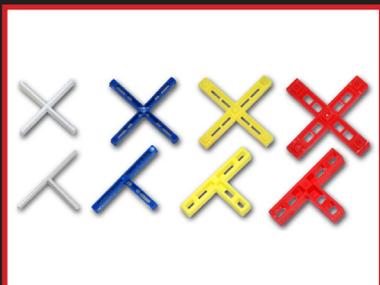

**EZ Grip Jar Dimensions:**  
5 1/2" x 5 1/2" x 7 1/2"

**Leave-in grout joint & grout over**

**Stack and snap for thick tile**  
3/16" & 1/4" sizes only

**4 sizes of cross and T available**

**Convenient color coded jars**  
display nicely on a store shelf

## 4 Reasons to choose the RTC Ultimate Spacer

- **Rigid:** Rock-solid design holds tile in place without spacer compression, resulting in the perfect joint every time!
- **Leave-In:** Hollow design allows the grout to fill in the body of the spacer and bond to the thinset, allowing it to be left in and eliminating removal time.
- **Longer:** Long arms support tile better and makes handling easier.
- **Stackable:** Just stack and snap these spacers together to accommodate thicker tile. (3/16" & 1/4" sizes only)

# TAVY Tile Spacers

TWO-SIDED T-SPACERS  
& WEDGES

T-Spacers available in 4 sizes:

1/16", 1/8", 3/16" & 1/4"

Wedges available in 3 sizes:

1/8", 3/16" & 1/4"

Ensures straight grout lines in any offset tile installation

The TAVY Two-Sided T-Spacer is the ideal tool for ensuring straight grout lines in any off-set tile installation. The unique two-sided design offers both a "T" side and a "Straight" side to be used between tiles at appropriate intersections. The TAVY Two-Sided T-Spacer will help you achieve professional results fast and easy.

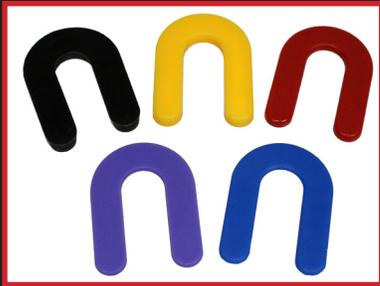

The TAVY Two-Sided Wedge Spacer is the best tool available to help set a level first row of tiles. The TAVY Two-Sided Wedge Spacer is designed to be both a wedge and a spacer. The front is designed to allow you to easily adjust the vertical position of tile. The back allows you to space tiles by the selected dimension. The TAVY Two-Sided Wedge Spacer will help you achieve professional results fast and easy.

# Tavy Tile Puck

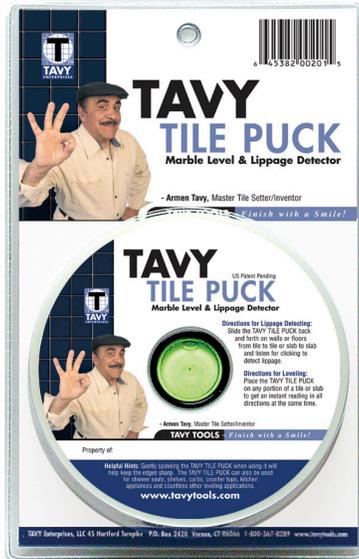

## TILE LEVEL & LIPPAGE DETECTOR

Accurate leveling bubble

Ideal for shower drain installation

### The Best Tool for Setting Perfectly Flat Tiles

This bull's-eye level makes accurate setting of tile & stone quick and easy. You can receive an instant reading in all directions to detect unlevel surfaces. It can also be run back and forth on walls or floors to detect lippage.

- Best tool for setting a flat tiled surface
- Eliminate "toe-kickers" ~ high spots
- Level tile perfectly with one simple glance

#### Directions for Lippage Detecting:

Slide the TAVY TILE PUCK back and forth on walls or floors from tile to tile or slab to slab and listen for clicking to detect lippage.

#### Directions for Leveling:

Place the TAVY TILE PUCK on any portion of any flat surface to get an instant reading in all directions at one time.

# Knockout

## RUBBER MALLET

The Knockout Rubber Mallet is the perfect solution whether beating a tile into place or removing a lippage tuning system. The solid rubber head provides great feedback to the user. The comfort grip handle contains a steel core for added strength.

- Solid rubber head will not mar the material
- Steel core for added strength
- Comfort grip handle reduces fatigue

Textured handle for better grip

Perfect for lippage control system removal

Item #	Description	Case Qty
STKO	Knockout Rubber Mallet	6

# Tavy Tile Mallet

## TWO-SIDED

Beat the air out of your tile with this new and improved Tile Mallet from Tavy Tools. The lightweight, solid rubber head creates the proper amount of impact to seat tile into thinset without causing damage to the tile.

**"Always Beat Your Tiles"**

- Safe for beating all types of tile
- Remove air from under tiles
- Maximize mortar coverage under tile to ensure lifelong bond
- Ensure level installation
- Angled mallet design allows for easy packing of tiles against spacers for perfect grout lines

More surface area for moving tiles side to side

Soft rubber head for lower impact

### Are You Using the Best Lippage Control System on the Market?

#### PROBLEM?

Lippage is caused by high or low tiles set improperly creating an undesirable install.

#### SOLUTION!

Easily spin the Leveling Cap down to the tile surface and tighten to perfectly align tiles.

Easily spin the Leveling Cap down to the tile surface

Anti-Friction Shield (optional)

The Knockout Rubber Mallet works great for removal

Breakaway post can be used as spacer or wall shims

Eliminate hand fatigue. Just grip it and twist!

#### Available Components:

- 1/32" (1mm) Red Breakaway Threaded Spacer Post
- 1/16" (1.5mm) White Breakaway Threaded Spacer Post
- 1/8" (3mm) Black Breakaway Threaded Spacer Post
- 3/16" (5mm) Light Gray Breakaway Threaded Spacer Post
- Leveling Cap
- Anti-Friction Shield (Optional)
- Torque Monster

Achieving a flush surface from one tile to another has never been easier. With the Spin Doctor Lippage Control System, you can spin the leveling cap down with ease to the tile surface in seconds. Other systems require tools, use of both hands or awkward repetitive motions which can cause user fatigue when installing large format tile. The Spin Doctor System uses a fast and precise free spin action that will accommodate most tile up to 3/4" (20mm).

## 100% REUSABLE Lippage Control & Rescue Clip System

**Perfectly align tile surfaces with Spin Doctor Level Head**

Scan to watch the video

The Spin Doctor Level Head (SDLH) is a 100% REUSABLE lippage control & rescue clip system. This system allows users to achieve a smooth lip-free finish on a large variety of tile. With no need to purchase consumable components, this is one of the best investments that can be made by any installer. Once tile is embedded into your mortar, use Spin Doctor Level Head to make any necessary micro-adjustments to ensure a flat finish. It can also be used as a rescue clip when your primary leveling system experiences premature breakage of clips or posts.

PROBLEM?	SOLUTION!
<p>Lippage is caused by high or low tiles set improperly creating an undesirable install.</p> <p>Lippage</p>	<p>Easily spin the red leveling cap to engage the T-pin below the tiles to perfectly align.</p>

Works on material 1/8" (3mm) - 5/8" (17mm) thick

- Holds tile flush & eliminates lippage
- Ideal for wall & floor tile up to 5/8" (17mm)
- Fits grout joints from 1/16" - 3/16"
- Use in conjunction with other leveling systems or spacers
- Designed with the original Spin Doctor Quick Spin Technology
- No additional tools required
- 100% reusable, saving both time & money
- Requires use of additional spacers

### HOW TO USE

1. Insert pin parallel into the grout joint then twist black base 90° clockwise into perpendicular position.
2. Easily spin the red leveling cap until the T-pin begins to engage, then tighten until both surfaces are flush.
3. **\*IMPORTANT\*** Immediately after the mortar has cured to manufacturer's specifications, partially loosen the red cap and twist the black base 90° counterclockwise to remove.

Comes in a ready to display packaging

Patent Pending

250 Wedges, 500 1/8" Clips, 100 Universal Protection Plates & 1 Pliers

**Level is desired but flat is REQUIRED!**

**The LEVTEC Standard Kits are the perfect way to eliminate lippage on every day installations**

LEVTEC Tile Leveling System is designed to reduce or eliminate lippage when installing large format tile. By using LEVTEC, you can ensure the best possible result with minimal effort. Simply insert the self spacing clip below the tile then insert the wedge through the opening. Apply pressure to the wedge until adjacent tiles are flush.

The LEVTEC clip is designed to break off clean below the top of the base leaving no residual plastic in the grout joint allowing for proper expansion and contraction.

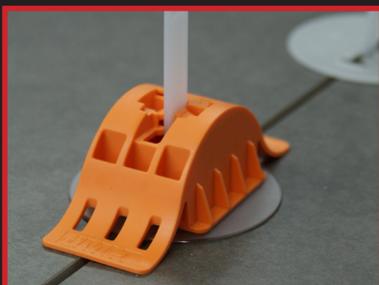

Item #	Description	Case Qty
LT116KIT	LEVTEC 1/16" Kit (250 Wedges, 500 1/16" Clips, 100 Universal Protection Plates & 1 Pliers)	1
LT18KIT	LEVTEC 1/8" Kit (250 Wedges, 500 1/8" Clips, 100 Universal Protection Plates & 1 Pliers)	1

# Universal Protection Plate

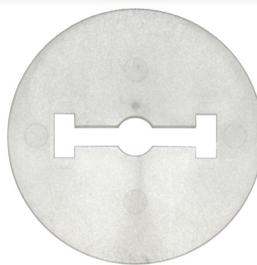

## FOR MOST TILE LEVELING SYSTEMS

**Protect Your Tile & Marble Surfaces. Works Great On Many Popular Leveling Systems**

**Works on rotating, wedge & strap systems**

### Works with Most Tile Leveling Systems

The Universal Protection Plate is designed for an added layer of protection, and improved functionality for virtually any leveling system available.

#### Serves 4 functions:

1. Eliminates friction on the material surface and converts lateral force into vertical pressure.
2. Protects delicate materials like natural stone and glass from scratching, while reducing premature wear on reusable system components.
3. Keeps mortar from squeezing up through the grout joint, prolonging the life of reusable pieces.
4. Transparent design allows unobstructed view of grout joints with certain style systems.

# Tile Rack

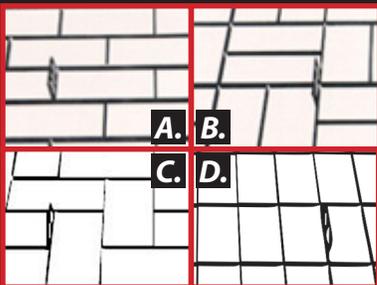

## TILE SETTING FRAMES

**In Stock**

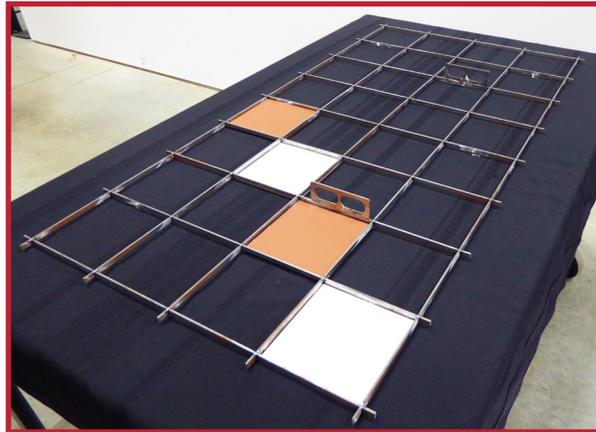

**Standard Joint Square**

**Special Order\***

- A. Running Bond Horizontal
- B. Square Basket
- C. Square Herringbone
- D. Custom patterns & dimensions

**Use these amazing tile setting frames to accommodate a flawless layout and a fast paced project schedule.**

A perfectly tiled floor takes time, expertise, patience and money. Unfortunately many commercial projects come up against the natural enemy of perfection... deadlines. Complete a commercial quarry tile job quickly and accurately with Tile Racks. Stock Tile Racks come in Standard Joint Square layout. Contact us if Running Bond Horizontal, Square Basket, Square Herringbone or a custom layout is preferred.

**ACTUAL POCKET SIZE (ONE TILE + ONE JOINT)**

*Pocket Size = Inside Dimension to Outside Dimension*

*The steel takes 1/8" joint space, so we recommend a minimum joint size of 1/4" to allow for variations in actual tile sizes.*

*Please determine ACTUAL tile size before calling in.*

Item #	Description
SJ65	Standard Joint Square Tile Rack - 6" Cell with 3/16" Joint Spacing
SJ66	Standard Joint Square Tile Rack - 6" Cell with 1/4" Joint Spacing

\* Items in price box above are in stock other sizes are available by special order.

# Pistol Grip

## ONE-HAND SUCTION CUP

**Squeeze. Click. Lift.**

It is hard to believe a suction cup this small has this much power. Easy one-hand operation!

- Up to 33 lbs. (15 kg) lifting capacity
- Suction cup diameter: 2<sup>3</sup>/<sub>4</sub>" (70mm)

Comes in a ready to display peg holder package

For use on multiple applications

Hold tile or glass

Hold & position floor & wall tile

Remove small dents

Device holder

...and much more!

**Easy one-hand operation**

**Perfect for holding tile to back butter**

# Suction<sup>2</sup> TILE LIFTER

**Integrated texture ring**

**5" Squared Base with 4-1/2" diameter suction cup**

Sometimes the smallest improvements yield the biggest results. Unlike standard round cups that tend to rock when pressure is applied, possibly requiring the use of a second hand to hold it steady, the "Suction<sup>2</sup>" design stabilizes the entire unit allowing for true one handed operation.

- Suction<sup>2</sup> minimizes rocking when engaged, allowing a more secure grip on materials for a true one handed operation
- The closed loop handle design will not reverse position under load
- Integrated rubber ring provides superior suction even on most textured tile
- Holds up to 110 pounds each
- Comfortable ergonomic handle
- Suction cups will hold firmly on most dust free smooth surfaces.  
*If a void exists in the material, the suction could be compromised.*

Item #	Description	Case Qty
STSQCUP	Suction <sup>2</sup> Tile Lifter	12

# Power Pro Vacuum Cup

**Protective carrying case**

**Red line indicator for vacuum pressure**

Durable handle provides easy grip. Attaches easily to a variety of surfaces. Red-line indicator warns user of any vacuum loss. Check valve allows re-pumping without loss of remaining vacuum.

- 8" Diameter
- Hand pump activated
- Lifting Capacity: 125 lbs.

# GRABO® OTTOVAC

THE ELECTRONIC  
8" SUCTION CUP

**Auto shutoff sensor ensures proper suction to not compromise material**

**Pressure gauge visually ensures suction**

**Great for shower glass installs**

**Perfect for walls. Use two for even more lifting power.**

**4 AA batteries required (batteries not included)**

**The OTTOVAC is a brand new power tool that is going to change the way you install glass, tile or any smooth flat material.**

This portable electric vacuum 8" cup presents itself as a traditional pump action style cup, however it engages to the surface with the simple push of a button.

**Tested to lift up to 440 lbs.!**

- No Pumping
- More Power
- Great Value

**Comes with a protective carrying case**

- The tool is rated to safely hold up to 200kg/440lbs!
- When the vacuum level drops below -55 kPa, the pump will automatically restart
- Tool comes with the revolutionary automatic on / off sensor.
- Fully electric, works on 4-AA batteries; no manual pumping required
- Dependability: No longer be frustrated with the manual cups losing pressure and losing suction to your material. OTTOVAC takes the guesswork out of it
- Works on lightly textured surfaces

**Made for construction professionals, glass & large format tile handlers.**

**A must have for handling glass**

**Works great on smooth large format tile & GPTP**

# GRABO® Classic

## POWERFUL ELECTRIC VACUUM SUCTION CUP

Comes with protective carrying bag

Pressure gauge visually ensures suction

Rubber button cover protects against dust & moisture

Amazing design for ultimate suction strength

Impressive lifting strength on textured surfaces

### World's first portable electric vacuum lifter! Grab rough, porous and even wet surfaces.

The GRABO is a powerful electric vacuum suction cup that makes heavy lifting easy. Strong, secure, multipurpose and cordless, the GRABO® is designed to grab almost any surface and lift heavy objects with ease!

**Tested to lift 375 lbs.!**

Includes: Protective Bag, battery, AC adapter and plastic protective cover

Scan the QR code to watch the video

**Made for construction professionals, glass handlers, woodworkers, warehouse personnel and moving experts.**

Works great on textured or smooth large format tile & GPTP

A must have for placing wall and floor tile and minimizing risk of damage

### Max Lifting Force - Lifting force under different conditions

This table provides a rough estimation of the max perpendicular adhesion force and max parallel adhesion force on different materials. These values may vary depending on material and surface conditions.

	Perpendicular Hold	Parallel Hold	P/P Ratio
Glass	375lbs (170kg)	265lbs (120kg)	0.7
Metal	242lbs (110kg)	242lbs (110kg)	1
Plastic	220lbs (100kg)	220lbs (100kg)	1
Wood	220lbs (100kg)	143lbs (65kg)	0.65
Ceramic Tile	375lbs (170kg)	265lbs (120kg)	0.7
Rough Concrete	176lbs (80kg)	176lbs (80kg)	1
Dry Wall	165lbs (75kg)	143lbs (65kg)	0.87
Rough Slate	176lbs (80kg)	176lbs (80kg)	1

Item #	Description	Case Qty.

### Advancements & Features

**Red Wait/Green Ready Light**  
Let the light be your guide.  
Green means go.

#### Updated Buttons

Waterproof rubber covered buttons help to repel moisture and dust.

#### Slimmer Handle

More comfortable ergonomic handle design.

#### Includes:

- Protective bag
- Battery
- AC adapter
- Suction ring
- Plastic protective cover

## The World's first portable electric vacuum lifter just went PRO! The same amazing GRABO product, but with these new advancements & features

The GRABO Pro-Lifter is designed for professionals. Unlike the other gigantic solutions, the tool is portable and handy.

Scan the QR code to watch the video

Living up to the promise of "Heavy Lifting – Made Easy", the GRABO Pro is equally effective on smooth as well as coarse surfaces. The Pro-Lifter has a pumping capacity of 20 liters per minute, a best in class. So, say good-bye to unreliable, and often dangerous, manual suction cups for the job. With GRABO Pro you double your work efficiency with enhanced safety.

The tool is ergonomically designed to provide better grip and less fatigue when moving heavy objects. The tool is an effective vacuum lifter even for dusty, semi-porous or rough surfaces. The tool works perfectly with glass, wood, ceramic tiles, metals and other materials. Just like the Classic version, the powerful vacuum pump and rechargeable battery pack are concealed within the grab handle.

### Advancements & Features - cont.

#### Digital Display

The analog gauge is replaced by a digital display with smart settings for both pressure & weight (psi, bar, kg & lb) to ensure suction & safe lifting capacity.

#### Automatic Function

Simply press the green button & it will stop automatically when it reaches complete seal. It will also turn on when needed to keep suction with more porous material.

# Smart Float System

**Handle and 3 Pads**  
**Hard** (red) **Medium** (gray) **Soft** (white)

Sharp crisp edges cut clean to the tile surface

"We've got this in the bag!"

Individual float comes with a handle and red pad. Replacement pads available in convenient two pack.

Choose the right pad for your grouting application

**Same great product, fresh new look.**

Kit with handle & 3 pads  
 Pad dimensions: 3 1/2" x 9 1/2"

Take your pick! RTC Products has developed a full smart float system that allows users to choose the correct float pad for the various types of grout and tile surfaces. Choose between a soft, medium or hard rubber pad to cover virtually any grouting application.

Pad stays firmly in place during use and peels off with ease for replacement.

Hard	Medium	Soft
<b>Ideal use:</b>	<b>Ideal use:</b>	<b>Ideal use:</b>
<ul style="list-style-type: none"> <li>• Epoxy grouts</li> <li>• Rectified tile</li> </ul>	<ul style="list-style-type: none"> <li>• Universal and can be used with any grout</li> </ul>	<ul style="list-style-type: none"> <li>• Single component grouts</li> <li>• Glass tile</li> <li>• Irregular surface tile</li> </ul>

- Save over 50% of your grout float expenses. Just replace the pad.
- Handle is reusable to save money & waste.
- Lightest professional grout float on the market. The lighter the float the less fatigue on the user.

# Rockin Roller GROUT BUCKET

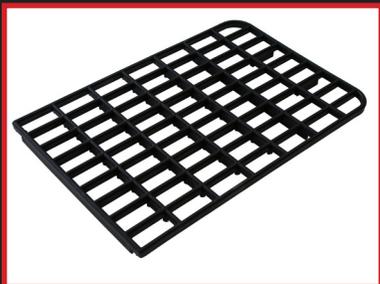

Wipes clean in one pass

Reusable handle with replaceable sponge

Anti skid rubber wheels

Heavy duty plastic grid

Ribbed rollers for maximum water extraction

Rock and Roll your grout clean from tile surfaces 50% faster than using a standard hand sponge.

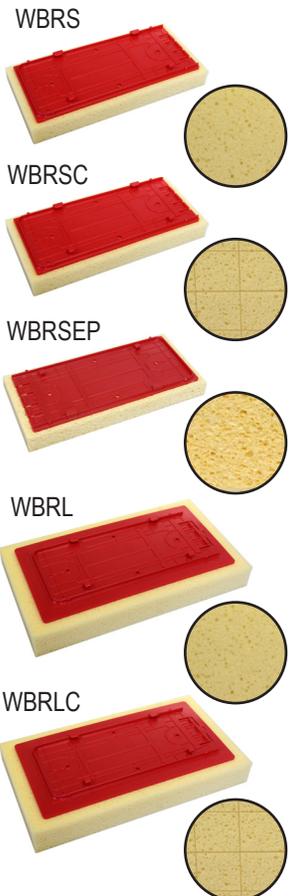

Stronger bucket design

With our Rockin Roller Grout Washing Bucket, you will achieve maximum results with full uniform grout joints from one tile to the next. Your hands remain dry and free from the cold.

- One handle for all available attachments
- Numerous sponge sizes & styles available
- Super fast results while maximizing full joints
- Less haze on final cleaning
- Uses 1/3 less water on the jobsite
- Ribbed rollers for maximum water extraction
- Rollers are pitched to keep water in the bucket

# Block MF Pro

## 2 SIDED MICROFIBER FINISHING SPONGE

The perfect sponge for final grout cleaning

For effective rinsing & longevity squeeze as shown above

*2 sided microfiber cleans up to 3x's more than a traditional sponge*

Dimensions:  
6.75" x 4.25 x 2.25"

Scan to watch the video

Tested & approved by contractors...

*"A magic sponge, this thing works great!"*  
*"The best microfiber sponge I have ever used"*

This two-sided proprietary microfiber sponge is ideal for final grout cleanup & polishing. The Block MF Pro's size & shape are ideal for comfort of use. The maximum surface contact allows for a cleaner wipe and the two-sided design equals half the rinses. Works great with most grouts (not for use with epoxy). Square edges glide over the grout joints and clean into corners. This sponge is also great for general cleaning.

Convenient 12 pc display box with slide off top

Item #	Description	Case Qty
SPBLOCKMF	Block MF Pro Sponge	12

# Epoxy

## SCRUB SPONGE

Emulsify epoxy or sanded grout

This super soft scrub sponge works great for emulsifying epoxy or sanded grout during clean up. The open cell design allows grout to release from the sponge to avoid build up. The nylon material will not break down with epoxy chemicals.

Dimensions: 7<sup>3/4</sup>" x 5<sup>1/2</sup>" x 2"

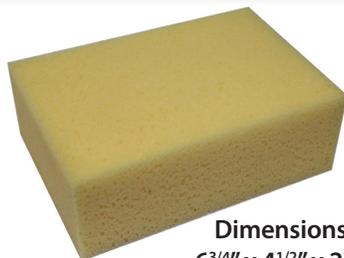

Item #	Description	Case Qty
SPEPOXY	Orange Epoxy Scrub Sponge	200

# Blockhead

## GROUT SPONGE

Super soft with square edges

Dimensions:  
6<sup>3/4</sup>" x 4<sup>1/2</sup>" x 2<sup>3/8</sup>"

This sponge offers a new technology available in the grout sponge world. The super soft material is extremely easy to wring out, reducing hand fatigue. The square edges help to keep the grout joints full, while also being ideal for corners to reduce or eliminate build up.

Item #	Description	Case Qty

# Hat Trick Hybrid

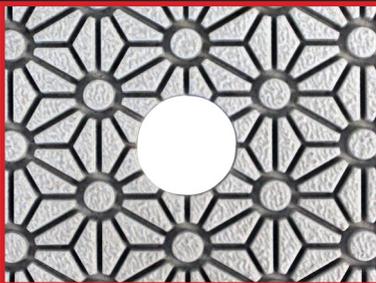

## 3 PIECE WET/DRY POLISHING PADS

Time saving 3 step polishing system

Rigid Backer Pad with Hat Trick Polishing Pads on the RTC grinder & Backdraft

Arbor hole for wet polishers

Polish all natural stone, porcelain & glass, including dark granite

Multiple backer pads available

The innovative technology of the Hat Trick Hybrid 3 piece Diamond Polishing Pads will accomplish a high gloss finish on a variety of materials. Now in three simple steps you can achieve or exceed the results of traditional seven step methods, reducing work time up to 60%. The results are amazing especially on darker color granite!

For use on: Marble, Granite, Porcelain, Glass, Concrete and Engineered Stones

As Easy As  
**1-2-3**

### Features:

- Up to 60% more efficient
- Provides factory like finish quick & easy
- Can be used wet or dry  
(Wet only on quartz and engineered stone)

**Another great combination!** Make sure to check out the NEW Backdraft Dust Containment System (shown on page 45) to reduce dust.

**Use the Backdraft along with these RTC Products to reduce dust**

### Cutting/Grinding

Works great when cutting w/ our Rock Star Blade and other amazing RTC blades

### Drilling

RTC offers a variety of hole saws to choose from

### Polishing

Use with the HatTrick 3 Step Polishing System. Cut polishing time up to 60%

Complete the package with the New RTC 5" Variable Speed Grinder

### Significantly reduce dust while dry cutting, drilling & polishing

The Backdraft Dust Reduction System has changed indoor cutting forever. Pairing it with a high CFM vacuum, you can now contain a majority of the dust created by dry cutting, drilling and polishing. Using negative air pressure, the Backdraft will draw airflow from below and around your material, guiding dust to the vacuum slot for efficient particulate control.

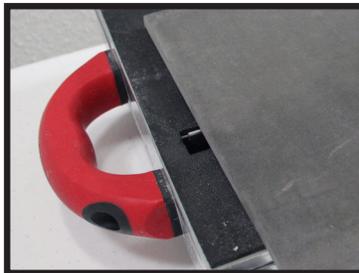

Only 11 lbs.

# Rockin' Red

## DRESSING STONE

Shatter resistant rubber bond

Cut into the stone to sharpen diamond products

The Rockin' Red Dressing Stone has a higher concentration of Alumina (Aluminum Oxide), which is proven to be the main component in sharpening and maintaining your sintered diamond products.

Scan the QR code to watch the video

- Higher concentration of aluminum oxide
- With just a few passes into our stone you will notice faster, cleaner cuts
- Sharpen & reactivate glazed over sintered diamond products such as:
  - Wet or dry diamond blades
  - Diamond core bits
  - Diamond grinding wheels
- Rockin' Red brings your blades back from the dead!

Item #	Description	Case Qty
DSRR	Rockin' Red Dressing Stone	10
DSDISPLAY	Rockin' Red Display Case w/ 10 Dressing Stones	1

# Mean Green

## DRESSING STONE

Super abrasive alumina

With just a few passes into our stone you will notice faster, cleaner cuts

Research has proven that glazed over diamond tools can be re-conditioned faster with a higher concentration of aluminum oxide. This stone has been tested by us and has shown to be the fastest & most effective dressing we've ever experienced.

Scan the QR code to watch the video

- Highest concentration of aluminum oxide available today
- Sharpen & reactivate glazed over sintered diamond products such as:
  - Wet or Dry Diamond Blades
  - Diamond Core Bits or Hole Saws
  - Diamond Grinding Wheels
- The "Mean Green" makes your diamonds cut clean!

# Rock Star

## BLADE SERIES

**Impressive cuts on most material, including 2cm**

**Taller 10mm rim vs. competitor's shorter rim**

**Tested & Proven!**

See the Rock Star in action. Scan here to watch the video.

The Rock Star Diamond Blade is our newest general purpose tile blade designed to outlast and outperform competitors in its class. The super tall segment paired with a fine diamond concentration helps to eliminate chipping by releasing more diamond for extended periods of time. This is a show you don't want to miss!

Item #	Description	Arbor	Case Qty
DB4ROCK	4" x .060" Rock Star Diamond Blade	5/8", 20mm, 7/8"	10

# T3 Mesh

## DIAMOND BLADE

Reinforced core for added stability

Unique mesh design for faster cutting with less heat to reduce chipping

- Faster
- Cleaner
- Cooler

The T3 Mesh is the newest addition to the T3 line of diamond blades. The unique segment design allows for faster cuts while keeping the blade cooler. Just like its siblings, the T3 Mesh includes the same Supercore technology adding to the precision and reduced noise when cutting.

Item #	Description	Arbor	Case Qty
DB45T3M	4 1/2" x .06" T3 Mesh Blade	7/8"-5/8"	10
DB7T3M	7" x .06" T3 Mesh Blade	7/8"-5/8"	10

# T<sup>3</sup> RAZOR

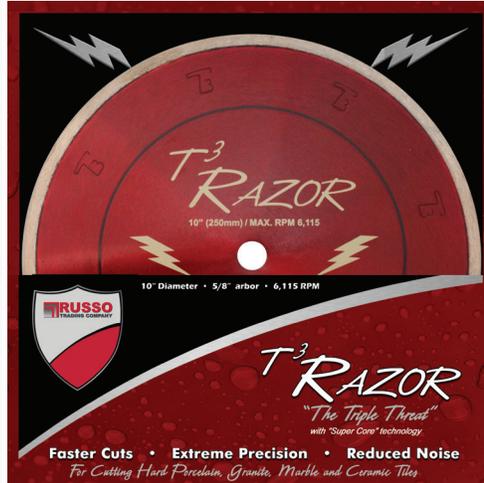

## THE TRIPLE THREAT

With Porcelain getting harder it is easy to see why our T3 Razor has been our #1 selling blade for over 10 years!

Note the thickness of the core

\* Special arbor sizes available upon request

### Three Reasons to Use the T3 Razor:

#### Faster Cuts

The thinner the rim the faster the cut because less material is removed. This is the thinnest blade we've ever produced!

#### Extreme Precision

The "super core" technology allows the blade to track precisely straight cut after cut!

#### Reduced Noise

The "super core" sandwiches the blade which limits vibration and reduces the noise level!

Item #	Description	Arbor	Case Qty
DB10T3	10" x .050" T3 Razor Blade	5/8"	10
DB12T3	12" x .060" T3 Razor Blade	1"	2

# Porcelain Razor

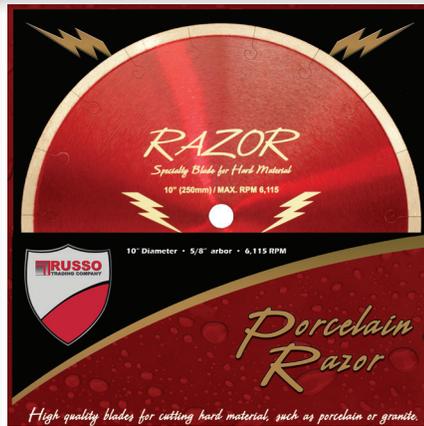

## DIAMOND BLADE

The specially designed relief cuts help to keep the blade cool.

Blade Thickness .060

### Porcelain's Hot!

It's also extremely hard to cut. Now more than ever, we need to update our equipment to handle this really dense material. The Porcelain Razor Blade will offer faster cutting and longer life on hard porcelain or granite tile while maintaining a perfectly smooth cut. Available Sizes: 4" Dry, 4<sup>1/2</sup>" Dry, 7", 8", 10", 12"

\* Special arbor sizes available upon request

Item #	Description	Arbor	Case Qty
DB4RAZ	4" Porcelain Razor Blade	5/8", 20mm 7/8"	10

# Hole Shot

## DRY DIAMOND CORE BITS

For use with  
5/8"-11 Thread  
Grinders

Dry Cut Series

### Fast! Precise!

The RTC Hole Shot is a porcelain core bit designed to be used with minimal to no water on a grinder with a 5/8-11 threaded spindle. These bits offer the ability to cut dry for up to 40 holes per bit. The vacuum brazed diamond will cut clean on a variety of materials including porcelain, granite, marble, and more.

High quality diamond segment

Equipped with Cooling holes

Foam lined plastic carrying case keeps bits organized

Use with right angle grinder with 5/8"- 11 Thread

Check out our full line of bits

# Hole Shot

## DRY HOLE SAW & DRILL GUIDE KIT

Dry Cut Series

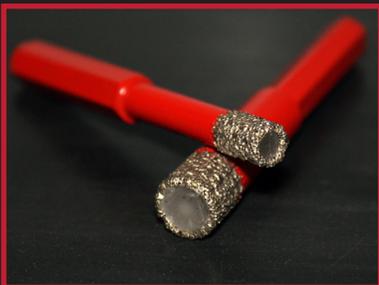

No water needed

Dip in water to extend bit life

Anti-spin hex shaped shank

Petroleum wax filled cooling in core

We offer a full line of bits

No water needed

**6 Piece Dry Diamond Drill Kit with Suction Drill Guide**  
**Kit Contains:**

- (2 pc.) 1/4" (6mm)
- (1 pc.) 1/2" (12mm)
- (1 pc.) 5/16" (8mm)
- (1 pc.) Drill Guide
- (1 pc.) 3/8" (10mm)
- (1 pc.) Case

## Dry Series Hole Shot Diamond Drill Bit

These bits are the latest in dry cut diamond technology. Great for a variety of material such as hard porcelain, quarry, slate, ceramic, marble, travertine & granite. Life expectancy up to 30 holes without water.

- For use when water is limited or not an option
- New Vacuum Brazed Dry Diamond Technology
- Ideal sizes for grab bars, towel racks and shower door installations
- Use with handheld drill (800-2500 RPM) or drill press

Individual replacement bits sold separately in a ready to display clam-shell package.

**Use for Handling & Installing Gauged Porcelain Tile Panels**

Watch the video

**Examples of configurations**

The Sigma Kera-Lift is the most dynamic handling system in its class available in multiple different sizes. You can achieve full support of the material in virtually any configuration needed. This allows the user to adapt the tool to fit just about any cut that may be required. Transporting of the material is hands down the most important factor before the physical installation of the tile, so make sure you have nothing but the best!

- Extremely versatile with amazing durability
- Can adapt to virtually any configuration
- Soft rubber suction cups will adhere to most materials
- Adjustable rubber feet aid in vertical installations

Item #	Description	Case Qty

\* Grinder not included

\*Jolly Angle will attach to any angle grinder (not included)

The Jolly Edge machine is designed for creating a perfect uniform miter or bullnose edge on tile material, even large format material. In a single pass you can easily perform a miter or bullnose cut on material from 5mm up to 20mm in thickness. The Jolly Edge can be adjusted to any angle between 40° and 50°. Add a diamond grinding wheel to perform a 6mm, 8mm, or 10mm bevel.

## Included Accessories

Turbo rim blade for material 8mm to 20mm thick

## Optional Accessories

Continuous rim blade for material 5mm to 8mm thick

Ideal for miters on gauged panels from 3mm-12mm. For best results pair with Jolly Edge (37A3PD).

6mm, 8mm or 10mm bullnose radius Grinding Wheel.  
\*Includes a dressing stone

Optional mounting kit for baseboard tile

# Corner Protectors

FOR GAUGED PORCELAIN  
TILE PANELS

Accommodates material up to 6mm (1/4") thick and are made of resilient plastic

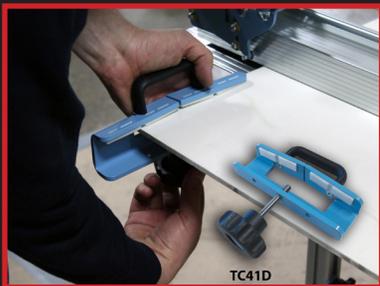

On gauged porcelain tile panels, the corners are the most at risk of being damaged. Make sure you are covered by using the RTC Corner Protectors.  
• 6mm (1/4") Thickness

Item #	Description	Case Qty
STCP6MM	Corner Protectors (6mm) - 8 pack	10

# Sigma Separator

Snap scored tiles with ease

The Sigma Separator is a must have for any Gauged Porcelain Tile Panel (GPTP) installation. Its screw down design applies greater breaking power with less effort, making cuts easier to handle.

Item #	Description	Case Qty
41D	Sigma Separator	2

# Sigma Mini Separator

Ideal for smaller cuts on material up to 10mm thick

Easily separate your score on gauged panels. The threaded knob provides more control than a running pliers, making the easier and safer option.

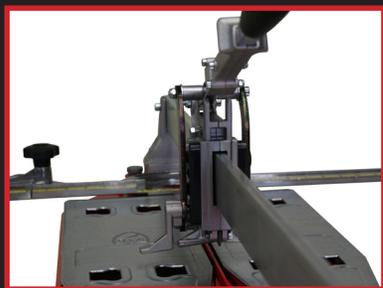

Work well for smaller size breaks. Material up to 10mm.

\*Included with 8AE2 Kit (see page 58)

Item #	Description	Case Qty
41E	Sigma Separator Mini	6

Single bar design for accuracy & strength

New & Improved adjustable arm support

11 ball bearings for smoothness & accuracy

Cantilever breaking system provides more power

Don't forget a replacement scoring wheel

Watch the video

The RTC Razor Pro combines multiple elements of European technology. You want the best of the best? Here it is! The unique cutting head sports 11 internal ball bearings for a smooth, precise movement across the rail. A rear mounted scoring wheel improves vision of the score line all the way through the cut. The cantilever breaking design applies greater force with less effort, reducing material damage when engaging.

- Unique cutting head houses 11 ball bearings
- 22mm scoring wheel works well on a variety of surfaces including textured tile
- Cantilever breaking system makes snapping tile easy
- Single steel bar for incredible precision
- Spring loaded tables reduce impact
- Fold out support arms on each side support large and heavy material

Item #	Description	Cut Length /Diagonal	Weight

# Sigma Tecnica PULL TILE CUTTER

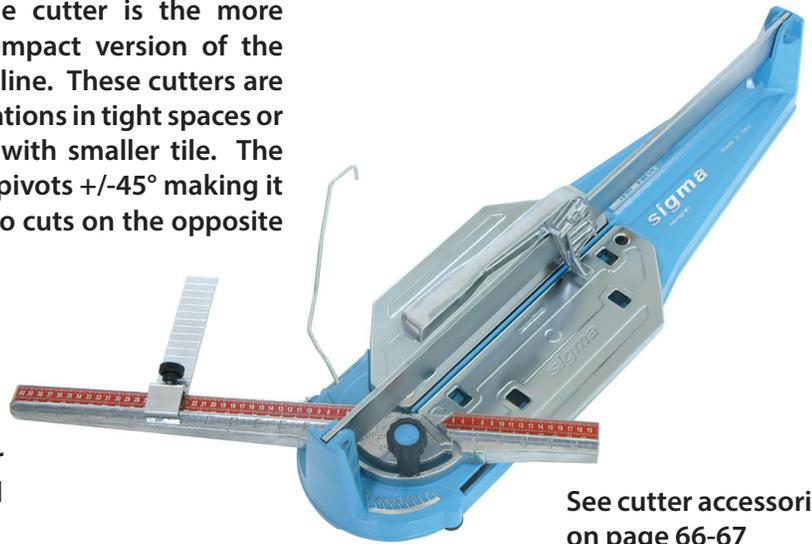

**Tecnica Pull Handle**

**7F is perfect for small format tile**

The Tecnica tile cutter is the more narrow and compact version of the Sigma product line. These cutters are ideal for installations in tight spaces or when working with smaller tile. The measuring bar pivots +/-45° making it easy to adjust to cuts on the opposite side of a room.

\*Measuring bar will be imperial (except 7F)

See cutter accessories on page 66-67

Item #	Description	Cut Length /Diagonal	Weight
7F	Sigma (7F) 14" Pull Handle Tile Cutter	14" (37cm)/10" (26cm)	5 lbs.
2G	Sigma (2G) 14" Pull Handle Tile Cutter	14" (37cm)/10" (26cm)	6 lbs.
2B3	Sigma (2B3) 26" Pull Handle Tile Cutter	26" (68cm)/18" (46cm)	15 lbs.

# Sigma XL Max PUSH TILE CUTTER

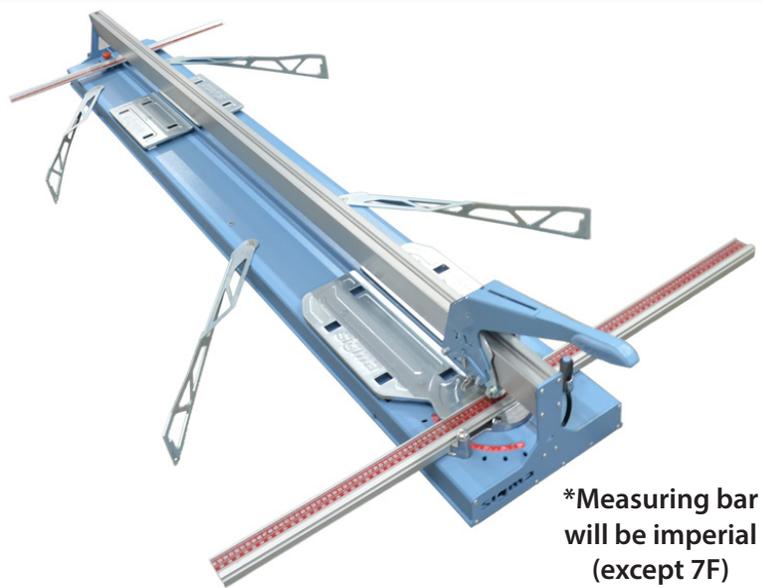

**Oversized handle for extra strength**

**Spring loaded scoring wheel ideal for all surfaces**

The XL Max is the largest fixed base manual tile cutter being produced in the world. With cut lengths of 80" (205cm) and 96" (245cm), extra long plank tile becomes a breeze to cut in a straight line. Ditch the grinder for long rip cuts!

See cutter accessories on page 66-67

\*Measuring bar will be imperial (except 7F)

Item #	Description	Cut Length /Diagonal	Weight
12D1	Sigma XL Max (12D1) 80" Push Tile Cutter	80" (205cm)/56" (144cm)	79 lbs.
12E1	Sigma XL Max (12E1) 96" Push Tile Cutter	96" (245cm)/68" (173cm)	86 lbs.

# Sigma Series 4 Up PULL TILE CUTTER

The all new Series 4 UP from Sigma is the gold standard for pull handle tile cutters. Completely redesigned, it offers maximum cutting performance and practicality! Years of research and improvement have merged to create a new line that combines innovation, precision mechanics, and design to offer a unique cutting experience.

## New Generation of Tile Cutters

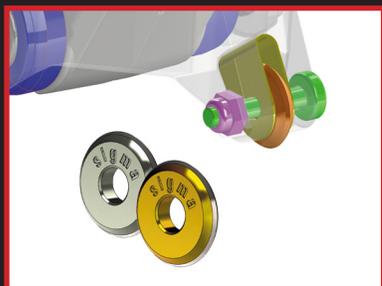

- Ball bearings in carriage reduce handle wear and aid in precision over time
- Height adjustable handle for materials up to 17mm thick
- Titanium scoring wheels available (see Sigma Parts & Accessories chart on page 66-67)
- Optional laser mount on all models
- Spare wheel storage on measuring bar
- Universal handle design fits all Series 4 Models

Height adjustable handle for materials up to 17mm thick

Ergonomically designed for ultimate performance

Anti-friction wheel holder reduces lateral wear of the wheel

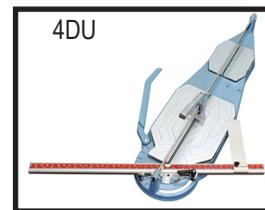

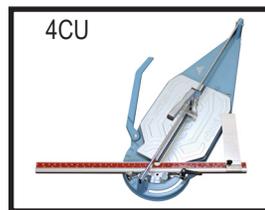

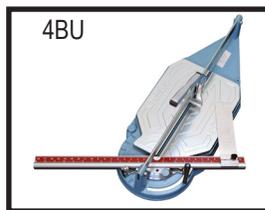

Optional Mosaic Mat (64B2)

Optional Measuring Extension Bar (see page 66)

## Series 4 UP Models Available

See cutter accessories on page 66-67

Item #	Description	Cut Length /Diagonal	Weight
4BU	Sigma UP 27.5" Pull Handle Tile Cutter	27.5" (70cm)/19.5" (49.5cm)	22 lbs.
4CU	Sigma UP 33" Pull Handle Tile Cutter	33" (84cm)/23.4" (59.4cm)	27 lbs.
4DU	Sigma UP 40.5" Pull Handle Tile Cutter	40.5" (103cm)/28.6" (72.8cm)	32 lbs.

# Sigma Series 4 NEX PUSH TILE CUTTER

The Series 4 NEX push tile cutter from Sigma is the pinnacle manual tile cutters. It's everything you've ever expected...and more! The Series 4 NEX has a completely redesigned push handle that features a rear mounted scoring wheel for easy visibility, three double row ball bearings for a smooth glide, and a 120mm breaker foot to handle even the toughest of tiles.

**The "NEX" generation in tile cutters!**

The universal handle design allows the NEX handle to adapt to any Series 4 cutter model. The all new height adjustable handle means no more changing the bar height, making it easier and faster to change between different material thickness.

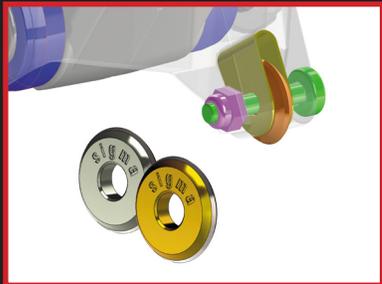

- Ball bearings in carriage reduce handle wear and aid in precision over time
- Height adjustable push handle for materials up to 19mm thick
- Rear mounted scoring wheel for easy visibility
- 120mm breaker foot for splitting the hardest of materials
- Titanium scoring wheels available (see Sigma Parts & Accessories chart on page 66-67)
- Optional laser mount on all models
- Spare wheel storage on measuring bar
- Universal handle design fits all Series 4 Models

**Push handle provides the best score with minimal effort**

**Ergonomically designed for ultimate performance**

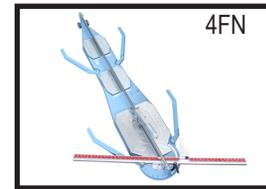

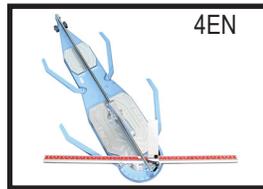

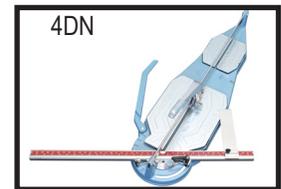

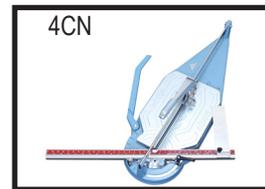

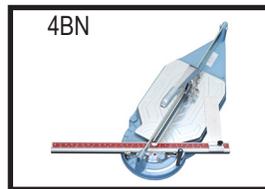

**Anti-friction wheel holder reduces lateral wear of the wheel**

**Optional Mosaic Mat (64B2)**

**Optional Measuring Extension Bar (see page 66)**

See cutter accessories on page 66-67

Item #	Description	Cut Length /Diagonal	Weight
4BN	Sigma NEX 24" Push Tile Cutter	24" (62cm)/17" (43cm)	23 lbs.
4CN	Sigma NEX 29" Push Tile Cutter	29" (76cm)/21" (53cm)	28 lbs.
4DN	Sigma NEX 37" Push Tile Cutter	37" (95cm)/26" (67cm)	32 lbs.
4EN	Sigma NEX 49" Push Tile Cutter	49" (125cm)/35" (88cm)	49 lbs.
