

# FUZION

flooring beyond expectation

## Care & Maintenance

### Cleaning Your Fuzion Laminate Floors

Proper cleaning methods are an essential part of keeping your Fuzion laminate attractive and to increase its overall longevity. Simply, dry sweep or vacuum the floor before wet cleaning to ensure that dirt and grit is removed. Using FuzClean laminate cleaner, spray mist on a small section of the floor and wipe off floor section using micro-fibre mop pad. Ensure your mop pad is clean by rinsing or replacing. For stubborn spots, or sticky spills, spray cleaner directly onto the spot and let it work its magic for a few minutes. Scrub the spot in question with a terry cloth/cleaning pad and you're done!

### Increasing The Longevity of Laminate

Always keep your laminate surface free of any debris, small stones or other undesirables that can get dragged and scratch your floor. When moving heavy furniture, protect your floor with runner boards or dollies. Felt pads are also strongly recommended under furniture, tables, chairs, to prevent scratches etc. Place walk off mats at doorways and keep your pet's nails well trimmed.

### What Type of Cleaning Methods Should I Avoid?

Do not use steel wool, abrasive cleaners, steam cleaners or any type of buffing or polishing machine. Also, flooding with water, soap-based detergents and/or vinegar should be avoided altogether. Do NOT use vacuums that use a beater bar or turn the beater bar off. FuzClean laminate cleaner along with a microfiber dry mop is hands down the best option.

### What Type of Issues Does My Fuzion Laminate Warranty Protect Against?

So long as your laminate flooring installation was completed according to the recommended method, your Fuzion warranty will cover the following: – Will not stain (from common household stains) or wear through – Fading caused by sunlight or artificial light – Damage experienced under normal living conditions \* See associated product warranty for details.
