More friendly to scratches and marks

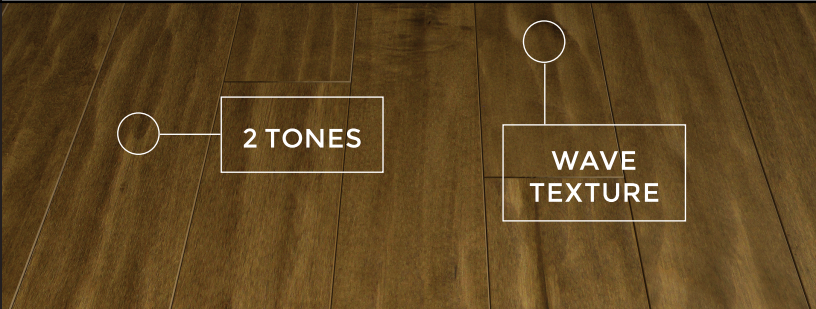

Good choice for busy families and pet owners

A wavy surface gives a hand crafted feel and look

2-toned colours add depth to any decor

2 TONES

WAVE  
TEXTURE

## A LITTLE BIT OF HISTORY

Hailing directly from South America, the hand-scraped finish stems from skillfully studied board planning and polishing techniques by seasoned wood craftsmen. Inspired by the work of these artisans, Preverco has developed a unique manufacturing process that allows us to obtain a wavy texture offering an absolutely striking effect! There are many hand-scraped products on the market but only one Wave texture!

## FAQ

**WILL I FEEL THE WAVE TEXTURE UNDER MY FEET WHEN I WALK ON IT?**

Most people do not feel the Wave texture when they walk on it with shoes on. However, they enjoy the delicate massage it provides when they walk barefoot on it.

**WILL MY FURNITURE BE UNLEVELED WHEN PLACED ON A PREVERCO WAVE TEXTURE FLOOR?**

Not at all. Because the height variation with the Wave texture is minimal and almost not perceivable, it will make absolutely no difference for your chair, table or any other piece of furniture.

**HOW WILL THE WAVE TEXTURE LOOK ONCE INSTALLED?**

With Wave texture from Preverco, every board is designed with a uniquely different wave pattern than the next. Due to the uneven nature of the floor, it is only normal that some portions of the edges will be higher than others. Placing a low edge, next to an high one, may not look pleasing to everyone. In most cases, if a board does not look right with the board it is surrounded by, it will look better installed in another area of the floor. Please make sure you are happy with the look of every board before you nail it down. As always, make sure you order a stain marker and a 5% of additional flooring to allow you to touch up any high edges and to be able to cut any wave boards you would not like to have installed on your floor.

## MAINTENANCE

Use a cleaner designed for prefinished hardwood floors. We highly recommend using Preverco's cleaning kit. Some precautions will help preserve the beauty of your floor:

- Regularly sweep or vacuum the floor to remove all dry dirt.
- If liquid is spilled on the floor, wipe immediately with a dry cloth.
- Use felt pads under all furniture legs.
- Never clean hardwood floors with water.
