

ARDEX S 1-K™ One-Component Waterproofing and Crack Isolation Membrane

ARDEX S 1-K™ is an easy-to-use, single-component, load-bearing waterproofing compound that produces a flexible, positive-side waterproof coating.

ARDEX S 1-K is for use over concrete, masonry finishes, existing tile, drywall, plaster, cementitious backerboards and plywood on interior floors and walls.

Flexible, topside waterproofing for interior floors and walls

Use for bathrooms, showers and other wet areas

Very easy-to-apply, 2-coat system – Install with a paint roller or brush!

Crack isolation up to 1/8" (3 mm)

Flood test in 12-24 hours

Highly workable consistency; minimal drips and splatters

For complete technical documentation, please see the Technical Data Sheet at www.ardexamericas.com
