

ARDEX X 77™ MICROTEC®

Fiber Reinforced Thin Set Mortar

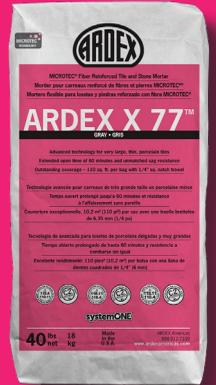

ARDEX X 77 with revolutionary MICROTEC® Technology delivers unmatched benefits for the most demanding tile and stone installations

ARDEX MICROTEC® Technology

ARDEX innovation delivers the next generation in polymer modified thin set mortars, ARDEX MICROTEC® Technology. Comprised of a specialty blend of high performance microfibers and exclusive ARDEX polymer specialty cements, ARDEX MICROTEC® Technology provides real, tangible benefits for installers that translates into proven advantages by reducing time and costs of an installation.

ARDEX X 77 is formulated to handle today's most challenging installations including setting large format porcelain, glass, quarry, most natural stone, ceramic and all types of mosaic tile for exterior and interior installations.

- Large format tile (interior/exterior)
- High-traffic areas
- Exterior building facades
- Over in-floor heating systems
- Swimming pools
- Extended open time; up to 60 minutes – double the ISO standard
- Unmatched sag resistance - double the ISO standard
- Outstanding coverage – 110 sq. ft.
- Water and frost resistant, highly flexible
- Extremely easy to apply; creamy, smooth consistency
- 3 hour pot life
- Available in Gray 40 lb. bag; White 40 lb.
