HARDWOOD FLOORS BY LAUZON

**PROGRADE  
QUALITY**

Perfect Fit Milling | ALUMINA® Finish with PermaClean® Antimicrobial

## LOOK CLASSIFICATION

### SELECT & BETTER

Very uniform looking surface with subtle color variation. Minimal presence of very small sound knots and mineral streaks. No splits or checks.

### EXCLUSIVE

Uniform looking surface with slight variation of mostly pale colors and occasional darker shades. Occasional presence of very small sound knots and mineral streaks. Possible presence of a limited number of fine splits and checks.

### TRADITION

Natural looking surface with moderate to pronounced variation of light and darker colors. Moderate presence of small sound or filled knots and mineral streaks of all dimensions. Limited presence of fine splits and checks.

### CHARACTER

Typical natural looking surface with pronounced variation of light and darker colors. Moderate to high presence of sound and filled knots and mineral streaks of all dimensions. Moderate presence of filled splits and checks.

This sample is intended as a color reference only, because it is too small to accurately reproduce all natural wood characteristics occurring on a larger flooring area. Please refer to our website for a representative overview.

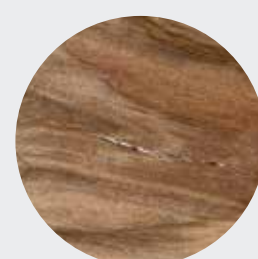

## WOOD NATURAL CHARACTER

**KNOTS**  
Joint of a branch to the trunk.

**MINERAL STREAKS**  
Darker variation in the wood grain.

**SPLITS AND CHECKS**  
Fine surface openings.

**ALUMINA**  
Finish
