

Designer Wood Floors

Lauzon Collection premium quality wood floors are made to meet the highest standards in the industry and to guarantee a long-lasting beauty without compromise.

European White Oak

Extra-Wide Floors | Titanium Finish with Pure Genius

White Oak presents a uniform pale coloring which allows the rich grain patterns and natural characteristics to give a floor an always interesting and distinctive personality. Its natural lighter fiber allows for a variation of light tones. In wide format, white oak will typically have a good presence of character and will always have a brushed texture.

Canadian Hard Maple

Wide - Standard Floors | Titanium Finish with Pure Genius

This emblematic species of Canada is the perfect species on which to set a wide range of decors. Its extra-fine wood grain gives a naturally clean and pure look. In Select and Better or Exclusive grade, it is the ideal wood for a Zen and clean interior. In its character grade version, the color variation, will add personality to a room.

North American Oak

Wide - Standard Floors | Titanium Finish with Pure Genius

This close cousin of white oak and dominating species in North America has been a classic in our homes for decades. We love the wide extent of natural characteristics of this open grain species and its flexibility in the possibilities of rendering. We reinvent it in a very up to date color palette to provide a complimentary alternative to white oak.
