

Expansion Joint Cover: RD3000

M-D® PRO RD3000 is a 2-1/2" (6.4 cm) resilient vinyl expansion joint cover that is surface mounted and used for preventing cracks in various floor coverings—vinyl composition tile (VCT), solid vinyl, rubber, linoleum, and luxury vinyl tile (LVT)—caused by expansion and contraction in concrete subfloors. The ribbed middle section of the trim is placed over saw-cut control joints in the concrete subfloor, and both ends of the trim butt up against adjacent floor coverings.

Dimensions and Physical Features

Primary Dimensions	Height: 1/8" (3.2 mm), Width 1: 2-1/2" (6.4 cm), Width 2: 1/2" (1.3 cm)
Length	50' (15.2 m)
