

# Pre-order the wedi Premium Glass Shelf Niche

Pre-order the following items between February 21-March 14 and you'll receive a 10% discount off a minimum order of 10 of the wedi Premium Glass Shelf Niche\*.

We are proud to introduce the new wedi Premium Glass Shelf for wedi Niches. This shelf can be used in wedi niches as an alternative option to tiled shelves. The Premium Glass Shelf earns its name from the quality of the glass. The shelf is fully tempered safety glass, made from clear low iron glass, and is 3/8 inch thick. It is designed with a pencil polish front edge finish. The product is packaged safely in a retail friendly box to stack or hang. The Premium Glass Shelf is Made in the USA.

A test market was conducted in Missouri from October through December 2021 and was extremely successful with over 200 shelves sold during that time in one store location only. Contractor and customer feedback was perfect and especially positive regarding the clarity of the glass. If you would like to know more we can connect you with your fellow wedi distributor. Based on our experience from our test market our recommendation is to prepare for the sale of one Premium Shelf for each two wedi Niches 16x22 or 16x42 sold in your operation.

We believe this new addition to your wedi range offers great added value to all customers including the opportunity to increase sales and profit otherwise lost to glass or plumbing retail.

## NEW! wedi Premium Glass Shelf Niche

Length x Width x Height	Unit	Item #	Retail Price
11 7/8 in. x 3 1/2 in. x 3/8 in. (302 x 89 x 9.5 mm)	1 pc	US3000050	\$34.00
