

# Osmo Liquid Wax Cleaner Spray Application Instructions

## Preparation

Surfaces should be wiped with a damp mop or cloth before applying Osmo Liquid Wax Cleaner. Floor surfaces that are prone to heavier traffic such as commercial areas should be damp mopped with Osmo Wash And Care 8016 and an Osmo Micro Mop, then buffed dry prior to application of Liquid Wax Cleaner.

## Application

**Always** do a test area before starting any project to check suitability and end result. Follow the manufacturer's instructions on the tin at all times.

1. Shake the container thoroughly before use
2. Hold spray can upright and spray sparingly 30cm away from the surface
3. Massage in evenly using a lint-free cloth
4. For deep stains, scuffs and minor scratches, lightly abrade the affected area with a finishing pad or scotch pad to remove the mark, stain or scratch, then work Liquid Wax Cleaner into the affected area

## Maintenance

Re-application of *Osmo Liquid Wax Cleaner Spray* is recommended 2 to 3 times a year, depending on wear of the wood surface.
