

Chisel Scraper

62972

COMFORT

Comfortable handle works well in either left or right hand

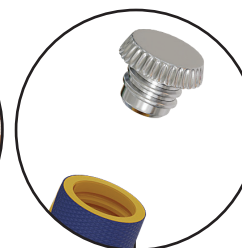

VERSITILE

Ideal for removing debris, adhesive and residue from most surfaces

EXTENSION

Attach handle to a threaded pole for an extended reach

Includes Metal end for use with a hammer on stubborn material

The QEP® 3" Stainless Steel Chisel Scraper is a multifunctional tool that is ideal for removing paint, adhesive and debris from most surfaces. It features a hammer end to add power while scraping tough material. The comfortable rubber handle with non-slip thumb rest makes it easier to use. This durable scraper may also be used to spread materials, including caulk, putty and grout.
