

Quik Drive — Now CORDLESS

No cords ... no hoses ... no problem!

Introducing the new cordless Quik Drive® PRO250G2 Subfloor System: a complete auto-feed screw driving system powered by the 2,000 rpm, 20V cordless DeWalt® brushless driver motor with adjustable torque.

This PRO250G2 requires less skill training than traditional installation methods, allowing a first-day apprentice to keep pace with a seasoned veteran.

- Quik Drive cordless, plus our low-torque fasteners, drives more screws per battery charge.
- This cordless system eliminates the need for compressors, generators or power to run fastening equipment.
- Efficient: Slash the setup time. Eliminate cord and hose maintenance and tangle. Reduce tripping and electrical shock hazards.
- System includes two 4.0-amp hour lithium-ion batteries and charger.
- Quik Drive Cordless PRO250G2 can be used with or without the lightweight extension.

The cordless PRO250G2 Subfloor System with DeWalt driver motor

Features

- Quik Drive-to-DeWalt adapter included.
- Battery charger and 2 batteries included.
- Soft carrying case provides protective storage.
