Johnsonite®

Minerality™

RUBBER TILE + PLANK

Tarkett®

Good design for people and planet

Inspired by the color variations found in natural wood and stone materials, Minerality™ rubber tiles and planks bring a soft sophistication to any space. Not only is rubber flooring incredibly durable, Tarkett's formulas are also guided by Cradle to Cradle® methodology. With incredible comfort underfoot, slip resistance, and sound absorption, Minerality provides a rare balance of timeless beauty and practical function to meet the health and wellness needs of your space.

Johnsonite Minerality PA9 Becka

We'll match any color—without dye lots.

You could say we're a bit obsessive about color. Our industry-leading ColorMatch® technology for rubber flooring lets us create any running line or custom color—precisely, every time, and without dye lots. For a truly unique space, customize Minerality™ rubber tile and plank to enhance the look and feel of your environment and carry the same tailored palette across other Tarkett surfaces for a fully unified space.

Every step matters™

Tarkett's holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making.

For decades, we've been scrutinizing every detail of our business for its impact on resources like soil, water, air, and climate—because when you're trailblazing a more sustainable future, **every step matters**.

These three values help us stay the course when it comes to sustainability.

Transparency you can trust

We subject our products to relentless scientific scrutiny and third-party testing, then provide customers with radical transparency about our materials, operations, and corporate business practices.

Circular economy

We're committed to creating a circular economy where nothing goes to waste by designing products with their end of life in mind. This means always interrogating the health, safety, environmental, and social impacts of our materials.

Healthy impacts

We've made material choices across our entire portfolio that support better indoor air quality and better outcomes for every living thing. Responsible flooring design not only improves aesthetics; it directly impacts the health of the people who occupy interior spaces.

The **proof** is in the numbers.

Holistic approach

94%
of our raw materials are third-party assessed for their impact on human and environmental health based on Cradle to Cradle criteria.

69%
of raw materials are abundant, rapidly renewable or recycled.

13
zero-waste-to-landfill manufacturing plants

2.1 million lb.
of flooring recycled in 2024 in North America

Certifications you can trust

2011
started working with EPEA to integrate Cradle to Cradle principles into every facet of our business

2013
first commercial flooring Certified **Asthma & Allergy Friendly®**

2022
Powerbond® RS is the first soft surface product in the industry to be Certified **Asthma & Allergy Friendly®**.

Transparency you can trust

100 ppm
raw materials content revealed down to 100 parts per million

When most manufacturers reveal raw materials content down to just 1,000 ppm, there's simply no contest.

We've been providing Material Health Statements since 2013 to give you peace of mind about the content of our products.

Setting the standard

99%
of flooring solutions have low VOC emission levels—10x lower than the most stringent world standards.

100%
ortho-phthalate-free vinyl production; first company to eliminate ortho-phthalates from all products

Global excellence

2010
first flooring manufacturer to join the UN Global Compact

2016
Began reporting to the Carbon Disclosure Project (CDP). In 2024, Tarkett scored A-, the CDP management level.

2020
first assessment by EcoVadis. In 2024, Tarkett's score of 81/100 earned us a Platinum medal and placed us in the top 1% of rated companies.

2023
Climate target approved by SBTi (Science Based Targets initiative). Targeting 30% GHG emissions reduction and increase of 30% recycled content across all products by 2030.

At Tarkett, social and environmental responsibility aren't add-ons. They're woven, stamped, and sealed into everything we do. But more importantly, we don't just say this, **we prove it.**

Transparency documentation

At Tarkett, transparency, social responsibility and environmental stewardship aren't add-ons—they're part of everything we do. By partnering with ecomedes and mindful MATERIALS, we make it easy for you to explore our sustainable flooring product options, their product certifications, green building systems and federal standards support documents. Visit **Tarkett.ecomedes.com** to learn more.

Sustainability attributes

RUBBER TILE FLOORING

Carbon neutrality:
Carbon neutral available upon request.

Healthy materials:
94% raw materials third-party assessed; non-PVC
