Key highlights

La Marca is comprehensive and versatile with a wide selection of premium designs, refined colors, compelling formats and variability of sizes. The beauty of the designs and the high level of quality are best exemplified in the larger sizes such as 24 x 48 in / 60 x 120 cm and 32 x 32 in / 80 x 80 cm where it is difficult to distinguish these porcelain tiles from natural marble stone. Field tiles are offered in both polished and honed finishes with rectified edges which are suitable for wall, floor, residential and commercial applications. The mechanically honed finish, in particular, minimizes reflections and gives an ultra-realistic and natural looking finish. Also available are complementary and exclusive decorative mosaics and coordinating trim pieces.

Specialty Mosaics

The beautiful La Marca marble designs have been fused together in specialized waterjet mosaic shapes and patterns to create versatile and elegant mosaics that complement the overall look of this collection. The patterns created juxtapose refined thin lines across thicker contrasting backgrounds. The color and finish combinations are derived from the various colors and finishes which were selectively designed to complement one another. The designs are unique and leverage neutral tones which are suitable for a variety of contemporary and transitional interior design styles.

The patterns created for these water jet mosaics juxtapose refined thin lines across thicker contrasting backgrounds and finishes to celebrate the universal beauty of the World's most premium marbles.

La Marca, Picco Mosaics

Picco's contemporary pattern combines selective La Marca colors and finishes together in one mosaic giving it both an alluring and sophisticated design. Furthermore, the pattern was developed to allow for a wide variety of patterns depending on the positioning and cutting of the mosaic. Anatolia has provided a few suggestions on what can be created with this modular approach.

La Marca, *Modella Mosaics*

Modella has more of a transitional look derived from the thin contrasting lines, the elongated hexagons and the polished finish. The repeating pattern can add an expressive element that connects to both classical and modern decors.
