RUBBER FLOORING

 **Tarkett®**

**MADE
RIGHT
MEANS
JOHNSONITE™**

A sensory experience
in every step

In addition to simplifying safety, comfort and maintenance, Johnsonite's rubber flooring provides a great deal of design flexibility and style.

Our updated collection of 20 textures introduces another element to catch the eye, and superior traction to reduce accidents. The softened peaks and valleys of each texture make the entire surface easier to clean. Apply a texture to any color or pattern in our rubber flooring collections –including 32 ColorMatch® colors that coordinate with wall base, stairwell management, and accessories –for a beautifully integrated, multisensory experience.

Textures

With the industry's widest range of textures, from subtle to striking, there's no wrong way to add visual impact.

Hammered (HRT)

Tarkett’s holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making.

For decades, we’ve been scrutinizing every detail of our business for its impact on resources like soil, water, and air—because when you’re trailblazing a more sustainable future, **every step matters**.

The **proof** is in the numbers.

 Circular economy	 Certifications you can trust	 Transparency you can trust	 Healthy impacts	 Global excellence
94% of our raw materials are third-party assessed for their impact on human and environmental health based on Cradle to Cradle criteria.	2011 started working with EPEA to integrate Cradle to Cradle principles into every facet of our business	100ppm raw materials content revealed down to 100 parts per million When most manufacturers reveal raw materials content down to just 1,000 ppm, there’s simply no contest.	99% of flooring solutions have low VOC emission levels—10x lower than the most stringent world standards.	2010 first flooring manufacturer to join the UN Global Compact
69% of raw materials are abundant, rapidly renewable, or recycled.	2013 first commercial flooring Certified Asthma & Allergy Friendly ®	We’ve been providing Material Health Statements since 2013 to give you peace of mind about the content of our products.	100% ortho-phthalate-free vinyl production; first company to eliminate ortho-phthalates from all products	2016 Began reporting to the Carbon Disclosure Project (CDP). In 2025, Tarkett scored A, the CDP management level.
13 zero-waste-to-landfill manufacturing plants	2022 Powerbond® RS is the first soft surface product in the industry to be Certified Asthma & Allergy Friendly ®.		2020 first assessment by EcoVadis. In 2025, Tarkett’s score of 86/100 earned us a Platinum medal and placed us in the top 1% of rated companies.	
2.1 million lb. of flooring recycled in 2024 in North America			2023 SBTi deemed our target ambition in line with a 1.5°C trajectory, currently the most ambitious designation available through the SBTi process.	

Principles to live by. Standards to achieve.

Cradle to Cradle Certified® (C2C) is the leading global standard for designing and manufacturing products that enable a healthy, equitable, and sustainable future. To earn certification, Tarkett takes a holistic approach that considers our social and environmental impact throughout our products’ entire lifecycles.

As we strive to create a circular economy where nothing goes to waste, C2C evaluation challenges us to rethink how materials are sourced, made, used, and re-used.

At Tarkett, the development of every new product is guided by C2C principles and the certification’s **five categories** of sustainability performance.

 Material health Ensuring materials are safe for humans and the environment	 Product circularity Enabling a circular economy through product and process design	 Clean air & climate protection Generating clean energy and protecting the environment	 Water & soil stewardship Safeguarding air, water, and soil resources	 Social fairness Embracing safe, fair, and equitable labor practices that advance human rights and strong communities

Tailored by Tarkett™

To help you explore and specify flooring, Tarkett offers design tools and services that make it easier than ever to find inspiration, research product ideas, and try out personalized flooring concepts to help you create profoundly unique spaces. You can even co-create with one of our expert designers to help you fulfill your vision.

Learn more and find your inspiration here.

Design tools

Choose from an array of sophisticated design tools to help you tailor and preview each flooring layout. The **Tailored by Tarkett Visualizer Suite** is a user-friendly online platform to help you explore layouts and colorways. With the Visualizer suite, you can:

- Create **project boards** to effortlessly save swatches, collect room scenes, upload photos, and keep all your visuals organized in one convenient place;
- Use our **Rubber Tile Studio** to explore our extensive line of patterns, standard colorways, and tailored palettes in a variety of commercial environments;
- Check out our **Pentagonals Rubber Tile Visualizer** that empowers you to design different color configurations and layouts;
- Complete your ideas with our **Masquerade® Wall Base Visualizer**, which enables you to preview an unlimited selection of high-definition digitally printed wall finishing borders that meet your exact needs.

Of course, your ideas aren't limited to just one type of flooring. That's why—in addition to our rubber tile and wall base visualizers—our online tools also include visualizers for carpet tile, tufted broadloom, Powerbond® hybrid carpet, luxury vinyl tile, and non-PVC plank and tile.

Design services

Great flooring supports people, inspires creativity, and connects us to our environment. So does great service. That's why we offer a suite of end-to-end design services to help you. Want to add a logo to your floor or a custom corporate message? No problem. Or maybe you're looking for support in the form of professional renderings to help sell your flooring concept. No matter your need, Tarkett experts are here to help you solve your biggest flooring challenges and deliver personalized solutions.

- Let our **Designer on Demand** team create renderings for you. Simply submit your project online and our designers will create beautiful renderings you can proudly share with your clients.
- Our **Imaginations® Personalized Floor Design** program can help you implement more intricate and detailed designs—such as logos and messaging—adding shape, color, and texture into your floor design with tailored cutting and fabrication.

MADE RIGHT MEANS JOHNSONITE™

Since the early 1960s, the Johnsonite name has been synonymous in the flooring industry with lasting quality, creative flexibility, and unwavering integrity.

With the category's broadest selection of patterns, textures, colors, and profiles—plus the ability to match any tailored palette with quick lead times and low minimums—we'll help you turn what used to be basic rubber tile and finishing accessories into fully coordinated design statements.

We come to work every day to help you win, crafting solutions you can rely on. That's why Made Right Means Johnsonite.

ColorMatch® palette

We'll perfectly match 32 leading colors across Johnsonite's rubber and vinyl product categories without dye lots

Design flexibility

Industry's broadest selection of colors, patterns, textures and profiles

Healthy materials

Non-PVC and free of ortho-phthalates, PFAS and antimicrobials

Made in USA

Designed and manufactured in USA; Buy America Build America Act (BABAA) compliant

Tailored by Tarkett

Precisely match any color with quick lead times and low minimum order quantities

Discover
Johnsonite

Meet Guy, Johnsonite's Senior Technician and an important part of the manufacturing team since 1995. With so many years of experience, Guy is a superior craftsman in tailoring Johnsonite products to our customers' exact color specifications, including translating the depth of this amethyst crystal into dynamic rubber tiles and stair treads.

ColorMatch®

This designer palette of leading colors is coordinated across multiple product categories with no dye lots...ever! Our rigorous manufacturing and quality standards enable you to confidently mix and match a color across all Johnsonite rubber flooring products, finishing borders, and finishing accessories.

Product emissions decarbonization:
ClimeCo Certified Product™ decarbonization program available upon request.

Healthy materials:
94% raw materials third-party assessed; non-PVC

Indoor air quality:
FloorScore® certified; meets CA DPH 01350 v1.2

Multi-attribute certifications:
Cradle to Cradle Certified® Silver

Transparency documentation:
Product-specific EPD, Declare, Material Health Statement

Responsible end of use management:
Part of Tarkett’s ReStart® take-back and recycling program

Specifications

RUBBER FLOORING

Technical data	Standards	Textures
Type of floor covering:	ASTM F1344	Rubber tile flooring type 1-A
Pattern:		Solid
Format type:		Tile
Polyurethane reinforced:		Yes
Total thickness:		.125" (3.20 mm) & .100" (2.54 mm)
Hardness:	ASTM D2240	Not less than 85 Shore A
Smoke generation:	ASTM E662	<450
Static load limit:	ASTM F970	Passes at 250 psi
Slip resistance:	ASTM D2047	SCOF ≥ 0.5
Flooring radiant panel:	ASTM E648	Class 1 (mean average CRF: 0.45 w/sq cm or higher)
Chemical resistance:	ASTM F925	Good
Heat stability:	ASTM F1514	$\Delta \Sigma \leq 8.0$
Canadian fire testing:	CAN/ULC S102.2	FSR 45 / SDR 265

Adhesives

A brief comparison of adhesive products recommended for use with Johnsonite rubber tile, in multiple installation scenarios.

Adhesive	Moisture RH
901 SpraySmart	90% Spray pattern cannot exceed 80 sq. ft. per can.
965 Flooring and tread adhesive	90% Adhesive is sensitive to substrate porosity. Determine substrate porosity and follow the adhesive label instructions regarding porous and non-porous substrate drying times prior to the installation.
975 Two-part urethane adhesive	90% For installations with heavy point loads, intense direct sunlight, topical moisture, and extreme temperature variation.
996 Two-part epoxy adhesive	90% For installations with heavy point loads, intense direct sunlight, topical moisture, and extreme temperature variation.
