Tarkett®

MADE
RIGHT
MEANS
JOHNSONITE™

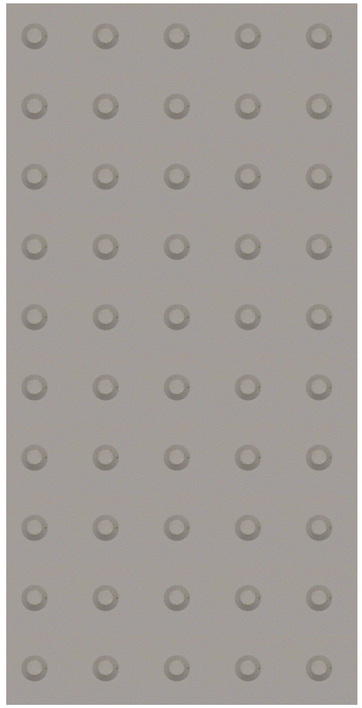

Safe Sense™ tactile walking surface indicators

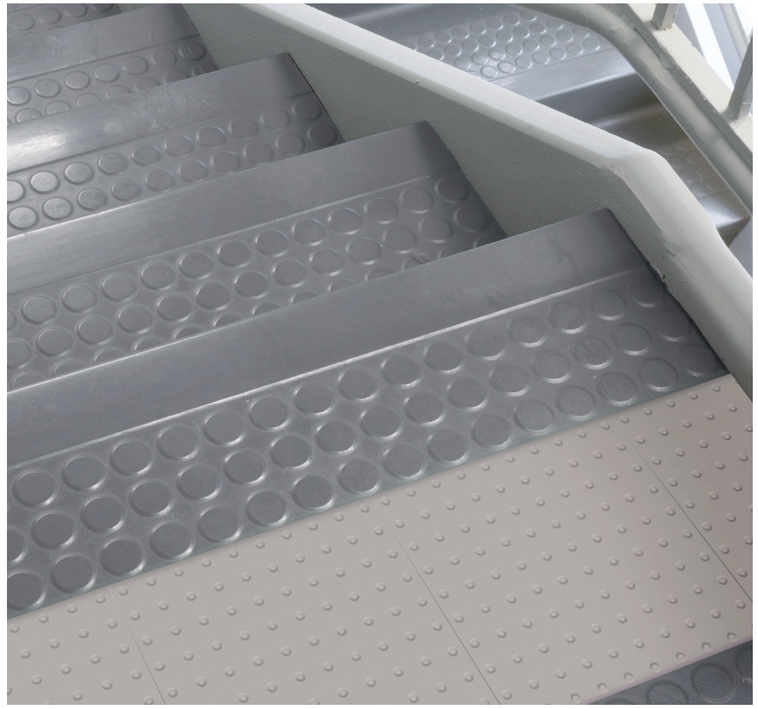

When you need to meet code requirements without sacrificing design, Johnsonite's Safe Sense Tactile Walking Surface Indicators (TWSI) system is the ideal solution. Safe Sense delivers code-compliant TWSI options in all 106 solid colors available across Johnsonite's rubber tile and stair tread collections — giving you unmatched design flexibility. The 24" x 24" TWSI tiles are fully interchangeable with Johnsonite rubber tiles, and both Tactile Warning Tiles and Tactile Guide Tiles are color-coordinated to match Johnsonite stair treads, wall base finishing borders, moldings, transitions, and all other Johnsonite Specialty solutions. You can also integrate the Safe Sense system with other flooring types like carpet, ceramic, and hard surfaces. It's all part of the world's most integrated flooring system — designed to keep every space visually cohesive, compliant, and connected.

Tactile warning tile

Attention tile | TW1

Tactile Warning Tiles, or Attention Tiles, indicate special hazards for people who are blind or visually impaired. They are used to indicate changes in level in areas such as steps, ramps and escalators. These tiles deliver a texture that can be detected with canes or through shoe soles. People with limited sight might also detect the visual contrast. All Tactile Warning Tiles meet the specific size and dimension standards as required by ISO/FDIS 23599.

Tactile guide tile

Guide tile | TG1

Tactile Guide Tiles, or Guide Tiles, are designed to aid people who are blind or visually impaired to walk through open spaces by indicating primary routes of travel. The Tactile Guide Tile offers a contrasting texture and visual to the surrounding floor, which can be detected with canes or limited vision. All Tactile Guide Tiles meet the specific size and dimension standards as required by ISO/FDIS 23599.

Tactile Guide and Tactile Warning tiles are available in all 98 solid colors standard in the Tarkett rubber tile and stair tread lines

Every step matters™

Tarkett's holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making.

For decades, we've been scrutinizing every detail of our business for its impact on resources like soil, water, and air—because when you're trailblazing a more sustainable future, **every step matters**.

The **proof** is in the numbers.

Circular economy

94%
of our raw materials are third-party assessed for their impact on human and environmental health based on Cradle to Cradle criteria.

69%
of raw materials are abundant, rapidly renewable, or recycled.

13
zero-waste-to-landfill manufacturing plants

2.1 million lb.
of flooring recycled in 2024 in North America

Certifications you can trust

2011
started working with EPEA to integrate Cradle to Cradle principles into every facet of our business

2013
first commercial flooring Certified **Asthma & Allergy Friendly®**

2022
Powerbond® RS is the first soft surface product in the industry to be Certified **Asthma & Allergy Friendly®**.

Transparency you can trust

100 ppm
raw materials content revealed down to 100 parts per million

When most manufacturers reveal raw materials content down to just 1,000 ppm, there's simply no contest.

We've been providing Material Health Statements since 2013 to give you peace of mind about the content of our products.

Healthy impacts

99%
of flooring solutions have low VOC emission levels—10x lower than the most stringent world standards.

100%
ortho-phthalate-free vinyl production; first company to eliminate ortho-phthalates from all products

Global excellence

2010
first flooring manufacturer to join the UN Global Compact

2016
Began reporting to the Carbon Disclosure Project (CDP). In 2025, Tarkett scored A, the CDP management level.

2020
first assessment by EcoVadis. In 2025, Tarkett's score of 86/100 earned us a Platinum medal and placed us in the top 1% of rated companies.

2023
SBTi deemed our target ambition in line with a 1.5°C trajectory, currently the most ambitious designation available through the SBTi process.

Principles to live by. Standards to achieve.

Cradle to Cradle Certified® (C2C) is the leading global standard for designing and manufacturing products that enable a healthy, equitable, and sustainable future. To earn certification, Tarkett takes a holistic approach that considers our social and environmental impact throughout our products' entire lifecycles.

As we strive to create a circular economy where nothing goes to waste, C2C evaluation challenges us to rethink how materials are sourced, made, used, and re-used.

CERTIFIED cradle to cradle PRODUCTS PROGRAM

At Tarkett, the development of every new product is guided by C2C principles and the certification's **five categories** of sustainability performance.

Material health
Ensuring materials are safe for humans and the environment

Product circularity
Enabling a circular economy through product and process design

Clean air & climate protection
Generating clean energy and protecting the environment

Water & soil stewardship
Safeguarding air, water, and soil resources

Social fairness
Embracing safe, fair, and equitable labor practices that advance human rights and strong communities

MADE RIGHT MEANS JOHNSONITE™

Since the early 1960s, the Johnsonite name has been synonymous in the flooring industry with lasting quality, creative flexibility, and unwavering integrity.

With the category's broadest selection of patterns, textures, colors, and profiles—plus the ability to match any tailored palette with quick lead times and low minimums—we'll help you turn what used to be basic rubber tile and finishing accessories into fully coordinated design statements.

We come to work every day to help you win, crafting solutions you can rely on. That's why Made Right Means Johnsonite.

Discover Johnsonite

ColorMatch® palette

We'll perfectly match 32 leading colors across Johnsonite's rubber and vinyl product categories without dye lots

Design flexibility

Industry's broadest selection of colors, patterns, textures and profiles

Healthy materials

Non-PVC and free of ortho-phthalates, PFAS and antimicrobials

Made in USA

Designed and manufactured in USA; Buy America Build America Act (BABAA) compliant

Tailored by Tarkett

Precisely match any color with quick lead times and low minimum order quantities

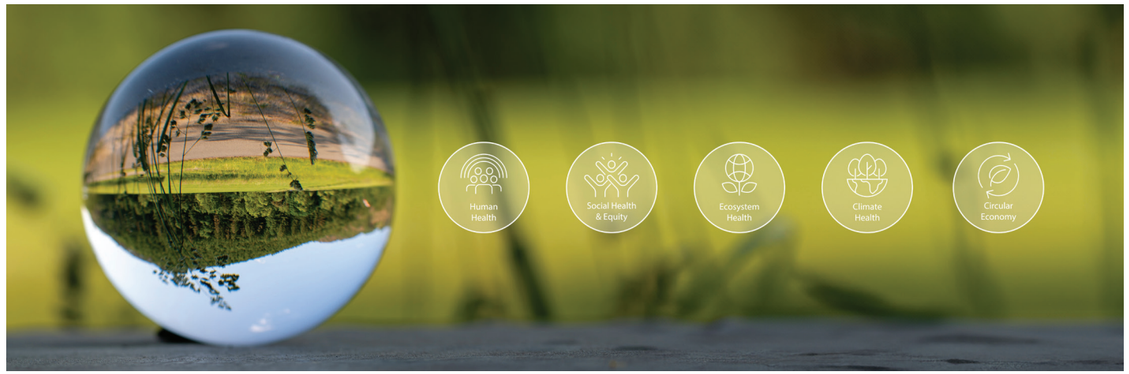

Meet Guy, Johnsonite's Senior Technician and an important part of the manufacturing team since 1995. With so many years of experience, Guy is a superior craftsman in tailoring Johnsonite products to our customers' exact color specifications, including translating the depth of this amethyst crystal into dynamic rubber tiles and stair treads.

ColorMatch®

This designer palette of leading colors is coordinated across multiple product categories with no dye lots...ever! Our rigorous manufacturing and quality standards enable you to confidently mix and match a color across all Johnsonite rubber flooring products, finishing borders, and finishing accessories.

Specifications

Technical data	Standards	Safe Sense
TWSI:	ISO/FDIS 23599 CSA B651-12	Assistive Products for Blind and Vision-Impaired Canadian Standards Association
Type of floor covering:	ASTM F1344	Rubber tile flooring type 1-A, 1-B
Format type:		Tile
Total thickness:	ASTM F386	7.2 mm (.28")
Base thickness:	ASTM F386	3.2 mm (1/8")
Static load limit:	ASTM F970	Passes at 250 psi
Resistance to heat:	ASTM F1514	$\Delta\sum \leq 8.0$
Hardness:	ASTM D2240	Not less than 85 Shore A
Dimensional stability:	ASTM F2199	Passes
Abrasion resistance:	ASTM D3389	< 1g loss after 1,000 cycles
Slip resistance:	ASTM D2047	SCOF ≥ 0.5
Flame resistance:	ASTM E648	Class 1
Smoke density:	ASTM E662	< 450
Chemical resistance:	ASTM F925	Good
Colors:		98 standard, custom available
Product code:		Tactile warning tile: TW1 | Tactile guide tile: TG1

Adhesives

A brief comparison of adhesive products recommended for use with Johnsonite rubber tile, in multiple installation scenarios.

Adhesive	Moisture RH	
901 SpraySmart	90%	Spray pattern cannot exceed 80 sq. ft. per can.
965 Flooring and tread adhesive	90%	Adhesive is sensitive to substrate porosity. Determine substrate porosity and follow the adhesive label instructions regarding porous and non-porous substrate drying times prior to the installation.
975 Two-part urethane adhesive	90%	For installations with heavy point loads, intense direct sunlight, topical moisture, and extreme temperature variation.
996 Two-part epoxy adhesive	90%	For installations with heavy point loads, intense direct sunlight, topical moisture, and extreme temperature variation.

On the cover:
Solid 55 Silver Grey, 24 Grey Haze
