

Soho, Ceramic + Porcelain.

Timeless design, distinctive aesthetic, and decorative versatility.

30 formats, 9 colors, 2 finish

Floor Display

The merchandising for Anatolia continues to be enhanced with every new collection we launch. The Soho collection was no exception to that rule. We have reimagined what a floor display would look like and function, including elements like installed tile, grouted display boards, and loose tiles. Each has its own unique and artistic reason, carefully thought through, and brought to life with the right materials and installation.
